President and Chief Executive Officer H. Thomas Bryant commented, "Tempur- Pedic International delivered another quarter of excellent results, with growth across all products and geographic segments. Through the first half, we are pleased with our results and see abundant

"Our sales and marketing teams continue to deliver outstanding results. Account productivity is improving and distribution of our products is expanding quickly. Our new mattress models began shipping during the second quarter and continue to roll-out across our retail partner base. Importantly, our existing product line also gained additional floor space within our established accounts.

The selective price increases we took in the first quarter have improved margins for both Tempur-Pedic and our retail partners. Late in the third quarter, we will increase the prices for our Deluxe and Classic models, once again improving margins for both Tempur-Pedic and

"Our operations team continues to deliver strong performance, with our Albuquerque manufacturing facility ramping up production of our U.S. mattress line. Across our operations, we continue to identify and execute on productivity initiatives driving cost savings and improved efficiencies. However, margins were modestly impacted during the second quarter by new floor models and start-up costs in Albuquerque."

Current Share Repurchase Authorization Completed and Announces New Authorization

ond quarter of 2007, the Company purchased 2.3 million shares of its common stock at an average price of \$26.33 for a total cost of \$60.8 million. From the commencement of the Company's current repurchase program on January 25, 2007 through the end of the rof 2007, the Company has purchased 3.8 million shares of its common stock for a total cost of \$100.0 million, thereby completing its prior repurchase authorization.

The Company announced that the Board of Directors has authorized a new share repurchase of up to an incremental \$200.0 million. Stock repurchases under this program may be made through open market transactions, negotiated purchases, or otherwise, at times and in such amounts as management and a committee of the Board deem appropriate. The timing and actual number of shares repurchased will depend on a variety of factors including price, financing and regulatory requirements and other market conditions. Repurchases may also be made under a Rule 10b5-1 plan, which would permit shares to be repurchased when the Company might otherwise be precluded from doing so under insider trading laws. This share repurchase program may be limited, suspended or terminated at any time without prior notice.

Chief Financial Officer Dale Williams stated, "The strength of Tempur- Pedic's cash flow generation capabilities has been proven over a long period of time and with the recent completion of our third factory, we do not anticipate significant new capital expenditures over the next several years. As a result, we expect strong cash flow growth going forward. With this backdrop, we aggressively repurchased shares in the second quarter thereby completing our existing authorization. As we continue to view stock repurchases as an excellent means to return value to shareholders, we are pleased the Board has authorized a new buyback."

As a result of recent reductions in statutory tax rates and updated expectations for geographic income mix, the Company currently anticipates its on-going effective tax rate for 2007 will be 34.5% as compared to prior guidance of 36%.

The Company generates sales through four distribution channels: retail, direct, healthcare and third party. The retail channel sells to furniture, specialty and department stores globally. The direct channel sells directly to consumers. The healthcare channel sells to hospitals, nursing homes, healthcare professionals and medical retailers. The third party channel sells to distributors in countries where Tempur-Pedic International does not operate its own distribution company.

The following table highlights net sales information, by channel and by segment, for the second quarter of 2007 compared to 2006:
