

PROSPECTUS

TEMPUR + SEALY

Tempur Sealy International, Inc.

**Offer to Exchange
5.625% Senior Notes due 2023
for
New 5.625% Senior Notes due 2023
that have been registered under the Securities Act of 1933**

We are offering to exchange registered 5.625% Senior Notes due 2023, or the Exchange Notes, for an equivalent amount of our outstanding, unregistered 5.625% Senior Notes due 2023, or the Original Notes. The Original Notes and the Exchange Notes are sometimes referred to in this prospectus together as “the notes.” The terms of the Exchange Notes are identical to the terms of the Original Notes, except that the Exchange Notes are registered under the Securities Act of 1933, as amended, or the Securities Act, and the transfer restrictions and registration rights and related additional interest provisions applicable to the Original Notes do not apply to the Exchange Notes. The Exchange Notes are fully and unconditionally guaranteed, jointly and severally, by certain of our subsidiaries subject to customary release provisions. The Original Notes may only be tendered in an amount equal to \$2,000 in principal amount or in integral multiples of \$1,000 in excess thereof. This exchange offer is subject to certain customary conditions and will expire at 11:59 p.m., New York City time, on April 4, 2016, unless we extend such expiration date. The Exchange Notes will not be listed on any securities exchange or any automated dealer quotation system and there is currently no market for the Exchange Notes.

Material terms of the Exchange Offer

- The exchange offer expires at 11:59 p.m., New York City time, on April 4, 2016.
- You will receive an equal principal amount of Exchange Notes for all Original Notes that you validly tender and do not validly withdraw.
- Tenders of Original Notes may be withdrawn at any time prior to the expiration of the exchange offer.
- There has been no public market for the Original Notes and we cannot assure you that any public market for the Exchange Notes will develop.
- The terms of the Exchange Notes are substantially identical to the Original Notes, except for transfer restrictions, and registration rights and additional interest payment provisions relating to the Original Notes.
- If you fail to tender your Original Notes for the Exchange Notes, you will continue to hold unregistered securities and it may be difficult for you to transfer them.
- The conditions to completing the exchange offer are that the exchange offer does not violate applicable law or any applicable interpretation of the staff of the Securities and Exchange Commission, or the SEC, and the other conditions as set forth in this prospectus.
- We will not receive any cash proceeds from the exchange offer.

Results of the Exchange Offer:

- The Exchange Notes may be sold in the over-the-counter market, in negotiated transactions or through a combination of such methods.
- We do not plan to list the Original Notes or Exchange Notes on a national market.
- All outstanding Original Notes not tendered will continue to be subject to the restrictions on transfer set forth in the indenture governing the Original Notes. In general, outstanding Original Notes may not be offered or sold, unless registered under the Securities Act, except pursuant to an exemption from, or in a transaction not subject to, the Securities Act and applicable state securities laws.
- Other than in connection with the exchange offer, we do not plan to register the outstanding Original Notes under the Securities Act.

Each broker-dealer that receives Exchange Notes for its own account pursuant to the exchange offer must acknowledge that it will deliver a prospectus in connection with any resale of the Exchange Notes. The letter of transmittal states that, by so acknowledging and by delivering a prospectus, a broker-dealer will not be deemed to admit that it is an “underwriter” within the meaning of the Securities Act. This prospectus, as it may be amended or supplemented from time to time, may be used by a broker-dealer in connection with the resales of Exchange Notes received in exchange for Original Notes where the Original Notes were acquired by that broker-dealer as a result of market-making activities or other trading activities. We have agreed that, for a period of 180 days after the expiration date of the exchange offer, we will make this prospectus available to any broker-dealer for use in connection with any such resale. See “Plan of Distribution.”

Investing in the Exchange Notes involves risks that are described in the “[Risk Factors](#)” section beginning on page 9 of this prospectus.

NEITHER THE SECURITIES AND EXCHANGE COMMISSION NOR ANY STATE SECURITIES COMMISSION HAS APPROVED OR DISAPPROVED OF THESE SECURITIES OR PASSED UPON THE ACCURACY OR ADEQUACY OF THIS PROSPECTUS. ANY REPRESENTATION TO THE CONTRARY IS A CRIMINAL OFFENSE.

The date of this prospectus is March 8, 2016.

SUMMARY OF THE TERMS OF THE EXCHANGE OFFER

On September 24, 2015, we issued \$450.0 million in aggregate principal amount of our 5.625% Senior Notes due 2023 in a private placement. We entered into a registration rights agreement with the initial purchasers of the Original Notes in which we agreed to deliver to you this prospectus. You are entitled to exchange your Original Notes in the exchange offer for registered notes with identical terms, except that the registered notes will have been registered under the Securities Act and will not bear legends restricting their transfer. Unless you are a broker-dealer or unable to participate in the exchange offer, we believe that the Exchange Notes to be issued in the exchange offer may be resold by you without compliance with the registration and prospectus delivery requirements of the Securities Act. You should read the discussions under the headings “The Exchange Offer” and “Description of Exchange Notes” for further information regarding the Exchange Notes.

Registration Rights Agreement

You are entitled under the registration rights agreement governing your Original Notes to exchange your Original Notes for Exchange Notes with substantially identical terms. The exchange offer is intended to satisfy these rights. After the exchange offer is completed, except as set forth in the next paragraph, you will no longer be entitled to any exchange or registration rights with respect to your Original Notes.

If you do not receive freely tradable Exchange Notes in the exchange offer or you are ineligible to participate in the exchange offer and indicate that you wish to have your Original Notes registered under the Securities Act, the registration rights agreement governing your Original Notes requires us to file a registration statement for a continuous offering in accordance with Rule 415 under the Securities Act for your benefit. See “The Exchange Offer.”

The Exchange Offer

We are offering to exchange up to \$450.0 million aggregate principal amount of our Exchange Notes, which have been registered under the Securities Act, for up to \$450.0 million aggregate principal amount of our Original Notes, on the terms and subject to the conditions set forth in this prospectus and the accompanying letter of transmittal, which we refer to as the exchange offer. You may tender Original Notes only in minimum denominations of \$2,000 and integral multiples of \$1,000 in excess thereof. The Original Notes we are offering to exchange hereby were issued under an indenture dated as of September 24, 2015.

Resale of Exchange Notes

Based upon the position of the staff of the SEC as described in no-action letters issued to third parties unrelated to us, we believe that Exchange Notes issued pursuant to the exchange offer in exchange for Original Notes may be offered for resale, resold and otherwise transferred by you without compliance with the registration and prospectus delivery provisions of the Securities Act, provided that:

- you are acquiring the Exchange Notes in the ordinary course of your business;
- you have not engaged in, do not intend to engage in, and have no arrangement or understanding with any person to participate in, a

distribution (within the meaning of the Securities Act) of the Exchange Notes to be issued in the exchange offer;

- you are not an “affiliate” of ours as defined under Rule 405 of the Securities Act; and
- if you are not a broker-dealer, you are not engaged in and do not intend to engage in the distribution of the Exchange Notes.

We do not intend to apply for listing of the Exchange Notes on any securities exchange or seek approval for quotation through an automated quotation system. Accordingly, there can be no assurance that an active market will develop upon completion of the exchange offer or, if developed, that such market will be sustained or as to the liquidity of any such market.

By tendering your Original Notes as described in “The Exchange Offer,” you will be making representations to this effect. If you fail to satisfy any of these conditions, you cannot rely on the position of the SEC set forth in the no-action letters referred to above and you must comply with the registration and prospectus delivery requirements of the Securities Act in connection with a resale of the Exchange Notes.

We base our belief on interpretations by the SEC staff in no-action letters issued to other issuers in exchange offers like ours. We cannot guarantee that the SEC will make a similar decision about our exchange offer. If our belief is wrong, you could incur liability under the Securities Act. We will not protect you against any loss incurred as a result of this liability under the Securities Act.

Each broker-dealer that receives Exchange Notes for its own account in exchange for Original Notes, where such Original Notes were acquired by such broker-dealer as a result of market-making activities or other trading activities, must acknowledge that it will deliver a prospectus in connection with any resale of Exchange Notes during the period ending on the earlier of (i) 180 days from the date on which the registration statement on Form S-4, to which this prospectus forms a part, became effective and (ii) the date on which such broker-dealer is no longer required to deliver a prospectus in connection with market-making or other trading activities. See “Plan of Distribution.”

Consequences If You Do Not Exchange Your Original Notes

Original Notes that are not tendered in the exchange offer or are not accepted for exchange will continue to bear legends restricting their transfer. You will not be able to offer or sell such Original Notes unless:

- you are able to rely on an exemption from the requirements of the Securities Act;
- the Original Notes are registered under the Securities Act; or
- the transaction requires neither an exception from nor registration under the requirements of the Securities Act.

After the exchange offer is closed, we will no longer have an obligation to register the Original Notes, except under limited circumstances. To the extent that Original Notes are tendered and accepted in the exchange offer, the trading market for any remaining Original Notes may be adversely affected. See “Risk Factors—Risks Relating to the Exchange Offer.”

Expiration Date

The exchange offer will expire at 11:59 p.m., New York City time, on April 4, 2016, unless we extend the exchange offer and the exchange offer will be open at least through the twentieth business day following commencement of the offering. See “The Exchange Offer—Expiration Date; Extensions; Amendments.”

Issuance of Exchange Notes

We will issue Exchange Notes in exchange for Original Notes tendered and accepted in the exchange offer promptly following the Expiration Date (unless amended as described in this prospectus). See “The Exchange Offer—Terms of the Exchange.”

Certain Conditions to the Exchange Offer

The exchange offer is subject to certain customary conditions, which we may amend or waive. The exchange offer is not conditioned upon any minimum principal amount of outstanding Original Notes being tendered. See “The Exchange Offer—Conditions to the Exchange Offer.”

Procedures for Tendering Old Notes

If you wish to accept the exchange offer, you must deliver to the exchange agent:

- your Original Notes, either by tendering them in certificated form or by timely confirmation of book-entry transfer through DTC, and
- all other documents required by the letter of transmittal.

These actions must be completed before the expiration of the exchange offer. If you hold Original Notes through DTC, you must comply with its standard procedures for electronic tenders, by which you will agree to be bound by the letter of transmittal.

By signing, or by agreeing to be bound by, the letter of transmittal, you will be representing to us that:

- you will be acquiring the Exchange Notes in the ordinary course of your business,
- you have no arrangement or understanding with any person to participate in the distribution of the Exchange Notes within the meaning of the Securities Act,
- you are not an affiliate, as defined in Rule 405 under the Securities Act, of ours, and
- if you are not a broker-dealer, you are not engaged in and do not intend to engage in the distribution of the Exchange Notes.

See “The Exchange Offer—Procedures for Tendering.”

[Table of Contents](#)

Guaranteed Delivery Procedures for Tendering Original Notes	If you cannot tender your Original Notes by the expiration date or you cannot deliver your Original Notes, the letter of transmittal or any other documentation to comply with the applicable procedures under DTC standard operating procedures for electronic tenders in a timely fashion, you may tender your Original Notes according to the guaranteed delivery procedures set forth under “The Exchange Offer—Guaranteed Delivery Procedures.”
Special Procedures for Beneficial Holders	If you beneficially own Original Notes which are registered in the name of a broker, dealer, commercial bank, trust company or other nominee and you wish to tender in the exchange offer, you should contact the registered holder promptly and instruct such person to tender on your behalf. If you wish to tender in the exchange offer on your own behalf, you must, prior to completing and executing the letter of transmittal and delivering your Original Notes, either arrange to have the Original Notes registered in your name or obtain a properly completed bond power from the registered holder. The transfer of registered ownership may take a considerable amount of time. See “The Exchange Offer—Procedures for Tendering.”
Withdrawal Rights	You may withdraw your tender of Original Notes at any time before the exchange offer expires. See “The Exchange Offer—Withdrawal of Tenders.”
Accounting Treatment	We will not recognize any gain or loss for accounting purposes upon the completion of the exchange offer. The expenses of the exchange offer that we pay will increase our deferred financing costs in accordance with U.S. generally accepted accounting principles, or GAAP. See “The Exchange Offer—Accounting Treatment.”
U.S. Federal Income Tax Consequences	The exchange pursuant to the exchange offer generally will not be a taxable event for U.S. federal income tax purposes. See “Material United States Federal Income Tax Considerations.”
Use of Proceeds	We will not receive any proceeds from the exchange or the issuance of Exchange Notes in connection with the exchange offer.
Exchange Agent	The Bank of New York Mellon Trust Company, N.A. is serving as exchange agent in connection with the exchange offer. The address and telephone number of the exchange agent are set forth under “The Exchange Offer—Exchange Agent.” The Bank of New York Mellon Trust Company, N.A., is also the trustee under the indenture governing the notes.

Trustee, Registrar and Transfer Agent

The Bank of New York Mellon Trust Company, N.A.

Certain Covenants

The terms of the Exchange Notes restrict our ability and the ability of certain of our subsidiaries (as described in “Description of Exchange Notes”) to:

- incur additional indebtedness or provide guarantees in respect of obligations of other persons;
- pay dividends on, repurchase or make distributions in respect of our capital stock or make other restricted payments;
- prepay, redeem or repurchase subordinated debt;
- make loans or investments;
- sell or otherwise dispose of certain assets;
- incur liens;
- restrict dividends, loans or asset transfers from our subsidiaries;
- consolidate, merge, sell or otherwise dispose of all or substantially all of our assets;
- enter into a new or different line of business; and
- enter into certain transactions with our affiliates.

However, these limitations will be subject to a number of important qualifications and exceptions.

Use of Proceeds

We will not receive any proceeds from the exchange offer.

No Public Trading Market

The Exchange Notes will not be listed on any national securities exchange or any automated dealer quotation system and there is

currently no market for the notes. Accordingly, there can be no assurances that an active market for the Exchange Notes will develop upon the completion of the exchange offer or, if developed, that such market will be sustained, or as to the liquidity of any such market.

Risk Factors

In analyzing an investment in the Exchange Notes and participation in the exchange offer, you should carefully consider, along with other matters included, incorporated by reference, or referred to in this prospectus, the information set forth under “Risk Factors.”

RISK FACTORS

Any investment in the notes involves a high degree of risk. You should consider carefully the following information about these risks, together with the other information contained in this prospectus, before participating in the exchange offer. If any of the following risks actually occur, our business, financial condition, prospects, results of operations or cash flow could be materially and adversely affected. Additional risks or uncertainties not currently known to us, or that we currently deem immaterial, may also impair our business operations. We cannot assure you that any of the events discussed in the risk factors below will not occur. If any such event does occur, you may lose all or part of your original investment in the notes.

Risks Related To Our Business

Set forth below are descriptions of certain risks relating to our business.

Unfavorable economic and market conditions could reduce our sales and profitability and as a result, our operating results may be adversely affected.

Our business has been affected by general business and economic conditions, and these conditions could have an impact on future demand for our products. The global economy remains unstable, and we expect the economic environment to continue to be challenging. Economic uncertainty may give households less confidence to make discretionary purchases.

There could be a number of other effects from these economic developments on our business, including reduced consumer demand for products; insolvency of our customers, resulting in increased provisions for credit losses; insolvency of our key suppliers resulting in product delays; inability of retailers and consumers to obtain credit to finance purchases of our products; decreased consumer confidence; decreased retail demand, including order delays or cancellations; counterparty failures negatively impacting our treasury operations; inability for us, our customers and our suppliers to accurately forecast future product demand trends; and adverse movements in foreign currency exchange rates. If such conditions are experienced in future periods, our industry, business and results of operations may be severely impacted.

Our leverage may limit our flexibility and increase our risk of default.

As of December 31, 2015, we had \$1,445.6 million of debt outstanding and our stockholders' equity was \$290.2 million. Our degree of leverage could have important consequences to our investors, such as:

- increasing our vulnerability to adverse economic, industry or competitive developments;
- requiring a substantial portion of our cash flow from operations to be dedicated to the payment of principal and interest on our indebtedness, therefore reducing our ability to use our cash flow to fund our operations, capital expenditures and other business opportunities;
- making it more difficult for us to satisfy our obligations with respect to our indebtedness;
- restricting us from making strategic acquisitions or investments or causing us to make non-strategic divestitures;
- limiting our ability to obtain additional financing for working capital, capital expenditures, product development, debt service requirements, acquisitions and general corporate or other purposes;
- limiting our flexibility in planning for, or reacting to, changes in our business or the industry in which we operate, placing us at a competitive disadvantage compared to our competitors who are less highly leveraged and who therefore, may be able to take advantage of opportunities that our leverage prevents us from exploiting;
- exposing us to variability in interest rates, as a substantial portion of our indebtedness is and will be at variable rates; and
- limiting our ability to return capital to our stockholders, including through share repurchases.

[Table of Contents](#)

In addition, the instruments governing our debt contain financial and other restrictive covenants, which limit our operating flexibility and could prevent us from taking advantage of business opportunities and reduce our flexibility to respond to changing business and economic conditions, which could put us at a competitive disadvantage. Our failure to comply with these covenants may result in an event of default. If such event of default is not cured or waived, we may suffer adverse effects on our operations, business or financial condition, including acceleration of our debt. See “—Risks Related to the Notes—We will have a substantial amount of indebtedness, which may adversely affect our cash flow and our ability to operate our business.”

Because we depend on our significant customers, a decrease or interruption in their business with us would reduce our sales and results of operations.

Our top five customers, collectively, account for approximately 39.4% of our net sales for 2015. The credit environment in which our customers operate has been relatively stable over the past few years. We expect that some of the retailers that carry our products may consolidate, undergo restructurings or reorganizations, experience financial difficulty, or realign their affiliations, any of which could decrease the number of stores that carry our products or increase the ownership concentration in the retail industry. An increase in the concentration of our sales to large customers may negatively affect our profitability due to the impact of volume and other incentive programs related to these customers. Furthermore, as sales to our large customers grow, our credit exposure to these customers may also increase. Some of these retailers may decide to carry only a limited number of brands of mattress products, which could affect our ability to sell products to them on favorable terms, if at all. A substantial decrease or interruption in business from these significant customers could result in the loss of future business and could reduce liquidity and profitability. In addition, the timing of large purchases by these customers could have an increasingly significant impact on our quarterly net sales and earnings.

Mattress Firm Holding Corp., which is represented in the North America segment, is our largest customer. On February 5, 2016, Mattress Firm Holding Corp. acquired all of the outstanding equity interests in HMK Mattress Holdings, LLC (“Sleepy’s”). Sleepy’s operates approximately 1,500 specialty mattress retail stores located in 17 states and the combined company will operate approximately 3,500 stores in 48 states. Sleepy’s was also one of our top 5 customers in 2015 and as a result of this acquisition, based on 2015 net sales, the combined company will be our largest customer, and will represent a significant portion of our overall sales. Mattress Firm and Sleepy’s together represented approximately 25% of our overall net sales for 2015. This higher customer concentration will increase the risks associated with large customers described above.

Our sales growth is dependent upon our ability to implement strategic initiatives and actions taken to increase sales growth may not be effective.

Our ability to generate sales growth is dependent upon a number of factors, including the following:

- our ability to continuously improve our products to offer new and enhanced consumer benefits and better quality;
- ability of our future product launches to increase net sales;
- the effectiveness of our advertising campaigns and other marketing programs in building product and brand awareness, driving traffic to our distribution channels and increasing sales;
- our ability to expand into new distribution channels and grow our existing channels, including our current roll-out of Sealy mattress products in various international markets;
- our ability to continue to successfully execute our strategic initiatives;
- the level of consumer acceptance of our products; and
- general economic factors that negatively impact consumer confidence, disposable income or the availability of consumer financing.

We may be adversely affected by fluctuations in exchange rates, which could affect our results of operations, the costs of our products and our ability to sell our products in foreign markets.

Approximately 25% of our net sales were generated outside of the United States in 2015. As a multinational company, we conduct our business in a wide variety of currencies and are therefore subject to market risk for changes in foreign exchange rates. If the U.S. dollar strengthened relative to the euro or other foreign currencies where we have operations, there would be a negative impact on our operating results upon translation of those foreign operating results into the U.S. dollar. In 2015, foreign currency exchange rate changes negatively impacted our adjusted EBITDA, which is a non-GAAP financial measure, by approximately 6.4%. In 2016, we expect foreign exchange could continue to negatively impact our results of operations. Changes in foreign currency exchange rates could have an adverse impact on our financial condition, results of operations and cash flows. We do not hedge the translation of foreign currency operating results into the U.S. dollar.

We use foreign exchange forward contracts to manage a portion of the exposure to the risk of the eventual net cash inflows and outflows resulting from foreign currency denominated transactions between our subsidiaries and their customers and suppliers, as well as among certain subsidiaries. These hedging transactions may not succeed in managing our foreign currency exchange rate risk.

Refer to “Management’s Discussion and Analysis” included in Part II, ITEM 7 and “Quantitative and Qualitative Disclosures About Market Risk” included in Part II, ITEM 7A of our most recent Annual Report on Form 10-K incorporated by reference herein for further discussion on the impact of foreign exchange rates on our operations.

We are subject to a pending tax proceeding in Denmark, and an adverse decision or a negotiated settlement could adversely impact our results of operations and cash flows.

We have received income tax assessments from the Danish Tax Authority (“SKAT”). We believe the process to reach a final resolution of this matter could potentially extend over a number of years. If we are not successful in defending our position that we owe no additional taxes, we could be required to pay a significant amount to SKAT. In addition, the Company could choose to pursue a settlement with SKAT, which could also require the Company to pay significant amounts to SKAT in excess of any related reserve. Each of these outcomes could have a material adverse impact on our results of operations and cash flows. In addition, prior to any ultimate resolution of this issue before the Tribunal or the Danish courts, or a settlement of the matter with SKAT, based on a change in facts and circumstances, the Company may be required to further increase its uncertain tax liability associated with this matter, which could have a material impact on the Company’s reported earnings. For a description of these assessments and additional information with respect to these assessments and the various related legal proceedings, see “Legal Proceedings” included in Part I, ITEM 3, Note 14, “Income Taxes”, in our Consolidated Financial Statements included in Part II, ITEM 8, and “Management’s Discussion and Analysis” included in Part II, ITEM 7 of our most recent Annual Report on Form 10-K incorporated by reference herein.

We operate in the highly competitive mattress and pillow industries, and if we are unable to compete successfully, we may lose customers and our sales may decline.

Participants in the mattress and pillow industries compete primarily on price, quality, brand name recognition, product availability and product performance and compete across a range of distribution channels.

A number of our significant competitors offer mattress and pillow products that compete directly with our products. Any such competition by established manufacturers or new entrants into the market could have a material adverse effect on our business, financial condition and operating results. In addition, mattress and pillow manufacturers and retailers are seeking to increase their channels of distribution and looking for new ways to reach the consumer, including the recent expansion in the number of companies pursuing online direct-to-consumer models for foam mattresses. The pillow industry is characterized by a large number of competitors,

[Table of Contents](#)

none of which are dominant. The highly competitive nature of the mattress and pillow industries means we are continually subject to the risk of loss of market share, loss of significant customers, reductions in margins, and the inability to acquire new customers.

We rely significantly on information technology and any failure, inadequacy, interruption or security lapse of that technology could harm our ability to effectively operate our business.

Our ability to effectively manage our business depends significantly on our information systems. The failure of our current systems, or future upgrades, to operate effectively or to integrate with other systems, or a breach in security of these systems could cause reduced efficiency of our operations, and remediation of any such failure, problem or breach could reduce our liquidity and profitability. Any disruptions caused by the failure of these systems could adversely impact our day-to-day business and decision making and could have a material adverse effect on its performance.

We have successfully implemented a new enterprise resource planning, or “ERP,” system across several of our global subsidiaries. We are continuing this implementation and expanding into our North America segment. This new system will continue to replace a substantial portion of our legacy systems currently supporting our operations. If we are unable to successfully implement the replacement of the legacy systems, it could lead to a disruption in our business and unanticipated additional use of capital and other resources, which may adversely impact our results of operations.

Changes in tax laws and regulations or other factors could cause our income tax rate to increase, potentially reducing net income and adversely affecting cash flows, and fluctuations in our tax obligations and effective tax rate may result in volatility of our financial results and price for our securities.

We are subject to taxation in various jurisdictions around the world and at any one time multiple tax years are subject to audit by various taxing jurisdictions. In preparing financial statements, we calculate our annual effective income tax rate based on current tax laws and regulations and the estimated taxable income within each of these jurisdictions. Our effective income tax rate, however, may be higher due to numerous factors, including, but not limited to, changes in accounting methods or policies, tax laws or regulations, the tax litigation environment in each such jurisdiction, and the outcome of pending or future audits, whether the result of litigation or negotiations with taxing authorities. Each such item may result in a tax liability that differs from our original estimate. An effective income tax rate that is significantly higher than currently anticipated could have an adverse effect on our net income and cash flows. In addition, there could be ongoing variability in our quarterly tax rates as events occur and exposures are evaluated, which could adversely affect our quarterly results of operations and price for our securities.

Officials in some of the jurisdictions in which we do business, including the United States, have proposed or announced that they are considering tax increases and other revenue raising laws and regulations. Additionally, the global tax environment is becoming more complex, with government tax authorities becoming increasingly more aggressive in asserting claims for taxes. Any resulting changes in tax laws or regulations could increase our effective income tax rate or impose new restrictions, costs or prohibitions on our current practices and reduce our net income and adversely affect our cash flows.

In addition to the increased activity of taxing authorities with respect to income tax, taxing authorities are also becoming more aggressive in asserting claims for indirect taxes such as import duties and value added tax. These types of claims present similar risks and uncertainties as those discussed above. We believe we are in compliance with all tax laws and regulations that govern such indirect taxes in each of the jurisdictions we do business in. However, because claims taxing authorities assert often involve the question of internal product pricing, which is inherently subjective in nature, any such claim may require us to litigate the matter to defend our position or to negotiate a settlement on the matter with the taxing authorities that differs from the amount of potential exposure recorded in the financial statements.

We are subject to fluctuations in the cost of raw materials, and increases in these costs would reduce our liquidity and profitability.

The bedding industry has been challenged by volatility in the price of petroleum-based and steel products, which affects the cost of polyurethane foam, polyester, polyethylene foam and steel innerspring component parts. The price and availability of these raw materials are subject to market conditions affecting supply and demand. Given the significance of the cost of these materials to our products, volatility in the prices of the underlying commodities can significantly affect profitability. To the extent we are unable to absorb higher costs, or pass any such higher costs to our customers, our gross margin could be negatively affected, which could result in a decrease in our liquidity and profitability.

If we, or our service providers, are unable to adequately protect our information assets from cyber-based attacks or other security incidents, our operations could be disrupted and our reputation could be damaged.

We are increasingly dependent on information technology, including the Internet, for the storage, processing, and transmission of our electronic, business-related information assets. We leverage our internal information technology infrastructures, and those of our service providers, to enable, sustain and support our global business interests. In the event that we or our service providers are unable to prevent, detect and remediate cyber-based attacks or other security incidents in a timely manner, our operations could be disrupted or we may incur financial or reputational losses arising from the theft, alteration, misuse, unauthorized disclosure or destruction of its information assets.

We cannot guarantee that we will repurchase our common stock pursuant to our recently announced stock repurchase program or that our stock repurchase program will enhance long-term stockholder value. Stock repurchases could also increase the volatility of the price of our common stock and could diminish our cash reserves.

In February 2016, our board of directors authorized a stock repurchase program. Under the program, we are authorized to repurchase shares of our common stock for an aggregate purchase price not to exceed \$200 million. Although our board of directors has authorized the stock repurchase program, the stock repurchase program does not obligate us to repurchase any specific dollar amount or to acquire any specific number of shares and may be suspended or terminated at any time. Stock may be purchased from time to time, in the open market or through private transactions, subject to market condition, in compliance with applicable state and federal securities laws. The timing and amount of repurchases, if any, will depend upon several factors, including market and business conditions, the trading price of our common stock and the nature of other investment opportunities. In addition, repurchases of our common stock pursuant to our stock repurchase program could affect the market price of our common stock or increase its volatility. For example, the existence of a stock repurchase program could cause our stock price to be higher than it would be in the absence of such a program and could potentially reduce the market liquidity for our stock. Additionally, our stock repurchase program could diminish our cash reserves, which may impact our ability to finance future growth and to pursue possible future strategic opportunities and acquisitions. There can be no assurance that any stock repurchases will enhance stockholder value because the market price of our common stock may decline below the levels at which we determine to repurchase our stock. Although our stock repurchase program is intended to enhance long-term stockholder value, there is no assurance that it will do so and short-term stock price fluctuations could reduce the program's effectiveness.

We may be unable to sustain our profitability, which could impair our ability to service our indebtedness and make investments in our business and could adversely affect the market price for our securities.

Our ability to service our indebtedness depends on our ability to maintain our profitability. We may not be able to maintain our profitability on a quarterly or annual basis in future periods. Further, our profitability will depend upon a number of factors, including without limitation:

- general economic conditions in the markets in which we sell our products and the impact on consumers and retailers;

[Table of Contents](#)

- the level of competition in the mattress and pillow industry;
- our ability to successfully identify and respond to emerging trends in the mattress and pillow industry;
- our ability to successfully launch new products;
- our ability to effectively sell our products through our distribution channels in volumes sufficient to drive growth and leverage our cost structure and advertising spending;
- our ability to reduce costs, including our ability to align our cost structure with sales in the existing economic environment;
- our ability to successfully manage our relationships with our major customers;
- our ability to absorb fluctuations in commodity costs;
- our ability to maintain efficient, timely and cost-effective production and utilization of our manufacturing capacity; and
- our ability to maintain efficient, timely and cost-effective delivery of our products, and our ability to maintain public recognition of our brands.

Our new product launches may not be successful due to development delays, failure of new products to achieve anticipated levels of market acceptance and significant costs associated with failed product introductions, which could adversely affect our revenues and profitability.

Each year we invest significant time and resources in research and development to improve our product offerings and launch new products. There are a number of risks inherent in our new product line introductions, including that the anticipated level of market acceptance may not be realized, which could negatively impact our sales. Also, introduction costs, the speed of the rollout of the product and manufacturing inefficiencies may be greater than anticipated, which could impact profitability.

Our advertising expenditures and customer incentives may not result in increased sales or generate the levels of product and brand name awareness we desire and we may not be able to manage our advertising expenditures on a cost-effective basis.

A significant component of our marketing strategy involves the use of direct marketing to generate brand awareness and sales. Future growth and profitability will depend in part on the cost and efficiency of our advertising expenditures, including our ability to create greater awareness of our products and brand names and determine the appropriate creative message and media mix for future advertising expenditures and to incent the promotion of our products.

Our operating results are subject to fluctuations, including as a result of seasonality, which could make sequential quarter to quarter comparisons an unreliable indication of our performance and adversely affect the market price of our securities.

A significant portion of our net sales are attributable to our Retail channel, particularly net sales to furniture and bedding stores. We believe that our sales of bedding and other products to furniture and bedding stores are subject to seasonality inherent in the bedding industry, with sales expected to be generally lower in the second and fourth quarters and higher in the first and third quarters, and in Europe, lower in the third quarter as compared to the other quarters during the year. Additionally, typical seasonality patterns may be affected by significant new product launches. In 2015 and 2014, we experienced stronger sales in the third and fourth quarters due to product launches in the first half of the year. This seasonality means that a sequential quarter to quarter comparison may not be a good indication of our performance or of how we will perform in the future.

We are subject to risks from our international operations, such as complying with U.S. and foreign laws, foreign exchange exposure, tariffs, increased costs, political risks and our ability to expand in certain international markets, which could impair our ability to compete and our profitability.

We are a global company, selling our products in approximately 100 countries worldwide. We generated approximately 25% of our net sales outside of the United States in 2015, and we continue to pursue additional international opportunities. We also participate in international license and joint venture arrangements with independent third parties. Our international operations are subject to the customary risks of operating in an international environment, including complying with U.S. laws affecting operations outside of the United States such as the Foreign Corrupt Practices Act; complying with foreign laws and regulations, including disparate anti-corruption laws and regulations; risks associated with varying local business customs; and the potential imposition of trade or foreign exchange restrictions, tariffs and other tax increases, fluctuations in exchange rates, inflation and unstable political situations and labor issues. We are also limited in our ability to independently expand in certain international markets where we have granted licenses to manufacture and sell Sealy® bedding products. Fluctuations in the rate of exchange between currencies in which we do business may affect our financial condition or results of operations.

If we are not able to protect our trade secrets or maintain our trademarks, patents and other intellectual property, we may not be able to prevent competitors from developing similar products or from marketing in a manner that capitalizes on our trademarks, and this loss of a competitive advantage could decrease our profitability and liquidity.

We rely on trade secrets to protect the design, technology and function of our products. To date, we have not sought U.S. or international patent protection for our principal product formula for TEMPUR® material and manufacturing processes. Accordingly, we may not be able to prevent others from developing viscoelastic material and products that are similar to or competitive with our products. Our ability to compete effectively with other companies also depends, to a significant extent, on our ability to maintain the proprietary nature of our owned and licensed intellectual property. We own a significant number of patents on aspects of our products and have patent applications pending on aspects of our products and manufacturing processes. However, the principal product formula and manufacturing processes for our TEMPUR® material and our products are not patented and we must maintain these as trade secrets in order to protect this intellectual property. We own U.S. and foreign registered trade names and service marks and have applications for the registration of trade names and service marks pending domestically and abroad. We also license certain intellectual property rights from third parties.

Our trademarks are currently registered in the U.S. and registered or pending in foreign jurisdictions. However, those rights could be circumvented, or violate the proprietary rights of others, or we could be prevented from using them if challenged. A challenge to our use of our trademarks could result in a negative ruling regarding our use of our trademarks, their validity or their enforceability, or could prove expensive and time consuming in terms of legal costs and time spent defending against such a challenge. Any loss of trademark protection could result in a decrease in sales or cause us to spend additional amounts on marketing, either of which could decrease our liquidity and profitability. In addition, if we incur significant costs defending our trademarks, that could also decrease our liquidity and profitability. In addition, we may not have the financial resources necessary to enforce or defend our trademarks. Furthermore, our patents may not provide meaningful protection and patents may never issue from pending applications. It is also possible that others could bring claims of infringement against us, as our principal product formula and manufacturing processes are not patented, and that any licenses protecting our intellectual property could be terminated. If we were unable to maintain the proprietary nature of our intellectual property and our significant current or proposed products, this loss of a competitive advantage could result in decreased sales or increased operating costs, either of which would decrease our liquidity and profitability.

In addition, the laws of certain foreign countries may not protect our intellectual property rights and confidential information to the same extent as the laws of the U.S. or the European Union. Third parties, including competitors, may assert intellectual property infringement or invalidity claims against us that could be

[Table of Contents](#)

upheld. Intellectual property litigation, which could result in substantial cost to and diversion of effort by us, may be necessary to protect our trade secrets or proprietary technology, or for us to defend against claimed infringement of the rights of others and to determine the scope and validity of others' proprietary rights. We may not prevail in any such litigation, and if we are unsuccessful, we may not be able to obtain any necessary licenses on reasonable terms or at all.

A material increase in our product return rates or an inadequacy in our warranty reserves could reduce our liquidity and profitability.

We allow consumers to return certain products for comfort reasons. As we expand our sales, our return rates may not remain within our historical levels. A downturn in general economic conditions may also increase our product return rates. A material increase in return rates could significantly impair our liquidity and profitability.

We provide our consumers warranties on our products ranging from 3 to 25 years. Due to the increase in new product introductions in recent years, we may still see significant warranty claims on products under warranty which are early in their product life cycles. As of March 1, 2014, we shortened the warranty of Tempur mattresses sold in our North America segment from 25 years to 10 years to align with the industry standard. Also, in line with our strategy, as we continue to innovate to provide new products to our customers, we could be susceptible to unanticipated risks with our warranty claims, which could impair our liquidity and profitability.

Because some of our products have been in use by our customers for the full warranty period, we rely on the combination of historical experience and product testing for the development of our estimate for warranty claims. However, our actual level of warranty claims could prove to be greater than the level of warranty claims we estimated based on our products' performance during product testing. If our warranty reserves are not adequate to cover future warranty claims, their inadequacy could have a material adverse effect on our liquidity and profitability.

We are vulnerable to interest rate risk with respect to our debt, which could lead to an increase in interest expense.

We are subject to interest rate risk in connection with the variable rate debt under our debt agreements. Interest rate changes could increase the amount of our interest payments and thus, negatively impact our future earnings and cash flows. Although we refinanced a significant portion of our variable rate debt in 2015 with fixed rate debt, we still have a significant amount of variable rate debt outstanding. For information regarding our sensitivity to changes in interest rates, refer to "Quantitative and Qualitative Disclosures About Market Risk" included in Part II, ITEM 7A of our most recent Annual Report on Form 10-K incorporated by reference herein.

Loss of suppliers and disruptions in the supply of our raw materials could increase our costs of sales and reduce our ability to compete effectively.

We acquire raw materials and certain components from a number of suppliers with manufacturing locations around the world. If we were unable to obtain raw materials and certain components from these suppliers for any reason, we would have to find replacement suppliers. Any substitute arrangements for raw materials and certain components might not be on terms as favorable to us. In addition, we outsource the procurement of certain goods and services from suppliers in foreign countries. If we were no longer able to outsource through these suppliers, we could source it elsewhere, perhaps at a higher cost. We maintain relatively small supplies of our raw materials and outsourced goods at our manufacturing facilities, and any disruption in the on-going shipment of supplies to us could interrupt production of our products, which could result in a decrease of our sales or could cause an increase in our cost of sales, either of which could decrease our liquidity and profitability.

In connection with the general supply chain risks described above, we are dependent upon single source suppliers for certain structural components or assembly of specific product lines within the Sealy brand portfolio. These products are purchased under a supply agreement and are manufactured in accordance with proprietary designs jointly owned by us and the supplier.

Unexpected equipment failures, delays in deliveries or catastrophic loss delays may lead to production curtailments or shutdowns.

We manufacture and distribute products to our customers from our network of manufacturing facilities located around the world. An interruption in production capabilities at any of these manufacturing facilities could result in our inability to produce our products, which would reduce our net sales and earnings for the affected period. In addition, we generally deliver our products only after receiving the order from the customer or the retailer, and in certain facilities, on a just-in-time basis, and thus do not hold significant levels of inventories. Any significant delay in deliveries to our customers could lead to increased returns or cancellations and cause us to lose future sales. Any increase in freight charges could increase our costs of doing business and affect our profitability. We have introduced new distribution programs to increase our ability to deliver products on a timely basis, but if we fail to deliver products on a timely basis, we may lose sales which could decrease our liquidity and profitability. Our manufacturing facilities are also subject to the risk of catastrophic loss due to unanticipated events such as fires, explosions or violent weather conditions. Despite the fact that we maintain insurance covering the majority of these risks, we may in the future experience material plant shutdowns or periods of reduced production as a result of equipment failure, delays in deliveries or catastrophic loss.

The loss of the services of any members of our executive management team could impair our ability to execute our business strategy and as a result, reduce our sales and profitability.

We depend on the continued services of our executive management team. The loss of key personnel could have a material adverse effect on our ability to execute our business strategy and on our financial condition and results of operations. We do not maintain key-person insurance for members of our executive management team.

We could face adverse consequences as a result of stockholder actions or abrupt changes in our management or Board of Directors.

As previously disclosed, H Partners Management LLC, together with certain of its affiliates (collectively, "H Partners"), has publicly criticized our operation of our business, our business strategy, corporate governance considerations and other matters and demanded immediate changes in our management and Board of Directors. Although as described in the Form 8-K filed May 13, 2015, the Company entered into an agreement with H Partners on May 11, 2015 that includes a standstill that limits H Partners' ability to take certain actions, this standstill provision expires after the 2016 Annual Meeting of Stockholders and there can be no assurance that H Partners or another stockholder will not make additional demands in the future.

As described in the Form 8-K Current Reports filed on May 11, 2015, June 1, 2015, July 30, 2015, September 8, 2015 and February 2, 2016, the Company announced a number of significant changes in its senior management and Board of Directors. Abrupt changes in our senior management or Board of Directors could adversely impact our ability to manage our business and implement our key strategic priorities. In addition, perceived uncertainties as to our future direction, or any abrupt changes in our management or Board of Directors, may lead to concerns regarding the direction or stability of our business, which may be exploited by our competitors, result in the loss of business opportunities, cause concern to our current or potential customers or suppliers, or make it more difficult to retain existing personnel or attract and retain new personnel. Considering and responding to future demands by stockholders, or abrupt changes in management or the Board, could be time-consuming and result in significant additional costs to us and could be disruptive of our operations and divert the time and attention of management and our employees away from our business operations and executing on our strategic plan. These actions could also cause the price of our securities to experience periods of volatility.

Deterioration in labor relations could disrupt our business operations and increase our costs, which could decrease our liquidity and profitability.

As of December 31, 2015, we had approximately 7,200 full-time employees. Approximately 40.0% of our employees are represented by various labor unions with separate collective bargaining agreements or government labor union contracts for certain international locations. Our North American collective bargaining agreements, which are typically three years in length, expire at various times during any given three year period. Due to the large number of collective bargaining agreements, we are periodically in negotiations with certain of the unions representing our employees. We may at some point be subject to work stoppages by some of our employees and, if such events were to occur, there may be a material adverse effect on our operations and profitability. Further, we may not be able to renew our various collective bargaining agreements on a timely basis or on favorable terms, or at all. Any significant increase in our labor costs could decrease our liquidity and profitability and any deterioration of employee relations, slowdowns or work stoppages at any of our locations, whether due to union activities, employee turnover or otherwise, could result in a decrease in our net sales or an increase in our costs, either of which could decrease our liquidity and profitability.

We may face exposure to product liability claims, which could reduce our liquidity and profitability and reduce consumer confidence in our products.

We face an inherent business risk of exposure to product liability claims if the use of any of our products results in personal injury or property damage. In the event that any of our products prove to be defective, we may be required to recall, redesign or even discontinue those products. We maintain insurance against product liability claims, but such coverage may not continue to be available on terms acceptable to us or be adequate for liabilities actually incurred. A successful claim brought against us in excess of available insurance coverage could impair our liquidity and profitability, and any claim or product recall that results in significant adverse publicity against us could result in consumers purchasing fewer of our products, which would also impair our liquidity and profitability.

Regulatory requirements, including, but not limited to, trade, environmental, health and safety requirements, may require costly expenditures and expose us to liability.

Our products and our marketing and advertising programs are subject to regulation in the U.S. by various federal, state and local regulatory authorities, including the Federal Trade Commission and the U.S. Food and Drug Administration. In addition, other governments and agencies in other jurisdictions regulate the sale and distribution of our products. These rules and regulations may change from time to time, or may conflict. There may be continuing costs of regulatory compliance including continuous testing, additional quality control processes and appropriate auditing of design and process compliance. For example, the U.S. Consumer Product Safety Commission ("CPSC") and many foreign jurisdictions have adopted rules relating to fire retardancy standards for the mattress industry. Further, some states and the U.S. Congress continue to consider fire retardancy regulations that may be different or more stringent than the CPSC standard. Adoption of multi-layered regulatory regimes, particularly if they conflict with each other, could increase our costs, alter our manufacturing processes and impair the performance of our products, which may have an adverse effect on our business. We are also subject to various health and environmental provisions, such as provisions of California Proposition 65 (the Safe Drinking Water and Toxic Enforcement Act of 1986) and 16 CFR Part 1633 (Standard for the Flammability (Open Flame) of Mattress Sets).

Our marketing and advertising practices could also become the subject of proceedings before regulatory authorities or the subject of claims by other parties and could require us to alter or end these practices or adopt new practices that are not as effective or are more expensive.

In addition, we are subject to federal, state and local laws and regulations relating to pollution, environmental protection and occupational health and safety. We may not be in complete compliance with all such requirements at all times. We have made and will continue to make capital and other expenditures to

[Table of Contents](#)

comply with environmental and health and safety requirements. If a release of hazardous substances occurs on or from our properties or any associated offsite disposal location, or if contamination from prior activities is discovered at any of our properties, we may be held liable and the amount of such liability could be material. As a manufacturer of bedding and related products, we use and dispose of a number of substances, such as glue, lubricating oil, solvents and other petroleum products, as well as certain foam ingredients, that may subject us to regulation under numerous foreign, federal and state laws and regulations governing the environment. Among other laws and regulations, we are subject in the United States to the Federal Water Pollution Control Act, the Comprehensive Environmental Response, Compensation and Liability Act, the Resource Conservation and Recovery Act, the Clean Air Act and related state and local statutes and regulations.

Our operations could also be impacted by a number of pending legislative and regulatory proposals to address greenhouse gas emissions in the U.S. and other countries. Certain countries have adopted the Kyoto Protocol. New greenhouse gas reduction targets have been established under the Kyoto Protocol, as amended, and certain countries, including Denmark, have adopted the new reduction targets. This and other international initiatives under consideration could affect our International operations. These actions could increase costs associated with our operations, including costs for raw materials, pollution control equipment and transportation. Because it is uncertain what laws will be enacted, we cannot predict the potential impact of such laws on our future consolidated financial condition, results of operations, or cash flows.

We have made and will continue to make capital and other expenditures to comply with environmental and health and safety requirements. With respect to the acquisition of Sealy, we could incur costs related to certain remediation activities. In particular, Sealy is currently addressing the clean-up of environmental contamination at certain of its former facilities. For additional information regarding these remediation activities, refer to Note 13, "Commitments and Contingencies", in our Consolidated Financial Statements included in Part II, ITEM 8 of our most recent Annual Report on Form 10-K incorporated by reference herein for a discussion of Commitments and Contingencies. In the event of an adverse development or decision by one or more of the governing environmental authorities, additional contamination being discovered with respect to these or other properties or any third parties bringing claims related to these or other properties, these or other matters could have a material effect on our profitability.

Our pension plans are currently underfunded and we may be required to make cash payments to the plans, reducing our available cash.

We maintain certain defined benefit pension plans. In addition, hourly employees working at certain of Sealy's domestic manufacturing facilities are covered by union sponsored retirement and health and welfare plans. These plans cover both active employees and retirees. The Plans are currently underfunded, and under certain circumstances we could be required to pay amounts with respect to this undertaking. Such events may significantly impair our profitability and liquidity. For more information, refer to Note 9, "Retirement Plans", in our Consolidated Financial Statements included in Part II, ITEM 8 of our most recent Annual Report on Form 10-K incorporated by reference herein.

Challenges to our pricing policies could adversely affect our operations.

Certain of our retail pricing policies are subject to antitrust regulations in the U.S. and abroad. If antitrust regulators in any jurisdiction in which we do business initiate investigations into or challenge our pricing or advertising policies, our efforts to respond could force us to divert management resources and we could incur significant unanticipated costs. If such an investigation were to result in a charge that our practices or policies were in violation of applicable antitrust or other laws or regulations, we could be subject to significant additional costs of defending such charges in a variety of venues and, ultimately, if there were a finding that we were in violation of antitrust or other laws or regulations, there could be an imposition of fines, and damages for persons injured, as well as injunctive or other relief. Any requirement that we pay fines or damages could decrease our liquidity and profitability, and any investigation or claim that requires significant management attention or causes

[Table of Contents](#)

us to change our business practices could disrupt our operations or increase our costs, also resulting in a decrease in our liquidity and profitability. An antitrust class action suit against us could result in potential liabilities, substantial costs and the diversion of our management's attention and resources, regardless of the outcome.

Risks Related to the Notes

Despite our substantial indebtedness level, we and our subsidiaries will still be able to incur significant additional amounts of debt, which could further exacerbate the risks associated with our substantial indebtedness.

We may be able to incur substantial additional indebtedness in the future. Although the indenture governing the notes contains restrictions on the incurrence of additional indebtedness, these restrictions are subject to a number of significant qualifications and exceptions, and under certain circumstances, the amount of indebtedness that could be incurred in compliance with these restrictions could be substantial. If new debt is added to our existing debt levels, the related risks that we now face would increase. In addition, the indenture governing the notes will not prevent us from incurring obligations that do not constitute indebtedness under the indenture.

Our indenture contains restrictions that will limit our flexibility in operating our business.

The indenture governing the notes contains various covenants that will limit our ability to engage in specified types of transactions. The indenture governing our 6.875% senior notes due 2020 (our "2020 Senior Notes") and the 2012 Credit Agreement contain substantially similar restrictions. These covenants will limit our and our restricted subsidiaries' ability to, among other things:

- incur additional indebtedness or provide guarantees in respect of obligations of other persons;
- pay dividends on, repurchase or make distributions in respect of our capital stock or make other restricted payments;
- prepay, redeem or repurchase subordinated debt;
- make loans or investments;
- sell or otherwise dispose of certain assets;
- incur liens;
- restrict dividends, loans or asset transfers from our subsidiaries;
- consolidate, merge, sell or otherwise dispose of all or substantially all of our assets;
- enter into a new or different line of business; and
- enter into certain transactions with our affiliates.

A breach of any of these covenants could result in a default under the indenture. In addition, any debt agreements we enter into in the future may further limit our ability to enter into certain types of transactions. In addition, the restrictive covenants in our 2012 Credit Agreement require us to maintain a minimum consolidated interest coverage ratio and a maximum consolidated total net leverage ratio. Our ability to comply with these financial ratios may be affected by events beyond our control, and we cannot assure you that we will meet them. A breach of any of these covenants could result in a default under our 2012 Credit Agreement. Moreover, the occurrence of a default under our 2012 Credit Agreement could result in an event of default under our other indebtedness including these notes. Upon the occurrence of an event of default under our 2012 Credit Agreement, the lenders could elect to declare all amounts outstanding under our 2012 Credit Agreement to be immediately due and payable and terminate all commitments to extend further credit. Even if we are able to obtain new financing, it may not be on commercially reasonable terms, or terms that are acceptable to us. See "Description of Other Indebtedness."

If we default on our obligations to pay our indebtedness we may not be able to make payments on the notes.

Any default under the agreements governing our indebtedness, including a default under our 2012 Credit Agreement that is not waived by the required lenders, and the remedies sought by the holders of such indebtedness, could make us unable to pay principal, premium, if any, and interest on the notes and substantially decrease the market value of the notes. If we are unable to generate sufficient cash flow and are otherwise unable to obtain funds necessary to meet required payments of principal, premium (if any) and interest on our indebtedness, or if we otherwise fail to comply with the various covenants, including financial and operating covenants, in the instruments governing our indebtedness (including covenants in our indentures and our 2012 Credit Agreement), we could be in default under the terms of the agreements governing such indebtedness, including our 2012 Credit Agreement and our indentures. In the event of such default, the holders of such indebtedness could elect to declare all the funds borrowed thereunder to be due and payable, together with accrued and unpaid interest, the lenders under our 2012 Credit Agreement could elect to terminate their commitments thereunder and cease making further loans and institute foreclosure proceedings against our assets and we could be forced into bankruptcy or liquidation. If our operating performance declines, we may in the future need to obtain waivers from the required lenders under our 2012 Credit Agreement to avoid being in default. If we breach our covenants under our 2012 Credit Agreement and seek a waiver, we may not be able to obtain a waiver from the required lenders. If this occurs, we would be in default under our 2012 Credit Agreement, the lenders could exercise their rights, as described above, and we could be forced into bankruptcy or liquidation. See “Description of Other Indebtedness” and “Description of Exchange Notes.”

We may not be able to generate sufficient cash to service the notes or our other indebtedness, and may be forced to take other actions to satisfy our obligations under our indebtedness, which may not be successful.

Our ability to make scheduled payments on or to refinance our debt obligations depends on our financial condition and operating performance, which are subject to prevailing economic and competitive conditions and to certain financial, business and other factors beyond our control. We may not be able to maintain a level of cash flows from operating activities sufficient to permit us to pay the principal, premium, if any, and interest on the notes or our other indebtedness.

If our cash flows and capital resources are insufficient to fund our debt service obligations, we may be forced to reduce or delay investments and capital expenditures, or to sell assets, seek additional capital or restructure or refinance the notes or our other indebtedness. Our ability to restructure or refinance our debt will depend on the condition of the capital markets and our financial condition at such time. Any refinancing of our debt could be at higher interest rates and may require us to comply with more onerous covenants, which could further restrict our business operations. The terms of the indenture governing the notes and existing or future debt instruments, including the 2012 Credit Agreement, may restrict us from adopting some of these alternatives. These alternative measures may not be successful and may not permit us to meet our scheduled debt service obligations.

The notes will be unsecured and will be effectively subordinated to our and the guarantors’ senior secured indebtedness to the extent of the value of the assets securing such indebtedness.

Our obligations under the notes and the guarantors’ obligations under the guarantees of the notes will not be secured by any of our or our subsidiaries’ assets. Our borrowings under our 2012 Credit Agreement and the related guarantees are secured by a pledge of substantially all of our and the guarantors’ assets. As a result, the notes and the guarantees will be effectively subordinated to all of our and the guarantors’ secured indebtedness and other obligations to the extent of the value of the assets securing such obligations. As of December 31, 2015, we and the guarantors had outstanding approximately \$529.3 million of secured debt that would have ranked effectively senior to the notes to the extent of the value of the collateral securing such debt (including outstanding letters of credit, with up to an additional \$330.2 million available for borrowing under our revolving credit facility). In addition, the indenture governing the notes will permit us and our subsidiaries to incur additional secured indebtedness, subject to certain restrictions. If we and the guarantors were to become insolvent or

[Table of Contents](#)

otherwise fail to make payments on the notes, holders of our and the guarantors' secured obligations would be paid first and would receive payments from the assets securing such obligations before the holders of the notes would receive any payments. Holders of the notes will participate ratably with all holders of our unsecured indebtedness that is deemed to be of the same class as the notes (including our 2020 Senior Notes) and all of our other general creditors, based upon the respective amounts owed to each holder or creditor, in our remaining assets. You therefore may not be fully repaid in the event we become insolvent or otherwise fail to make payments on the notes.

The notes and the guarantees will be structurally subordinated to indebtedness and other liabilities of our non-guarantor subsidiaries.

Our foreign subsidiaries, immaterial subsidiaries, and subsidiaries that own no material assets other than stock of foreign subsidiaries will not guarantee the notes. The notes and the guarantees will be structurally subordinated to the indebtedness and other liabilities of any non-guarantor subsidiary, and holders of the notes will not have any claim as a creditor against any non-guarantor subsidiary. Accordingly, claims of holders of the notes will be structurally subordinated to the claims of creditors of these non-guarantor subsidiaries, including trade creditors. All obligations of our non-guarantor subsidiaries will have to be satisfied before any of the assets of such subsidiaries would be available for distribution, upon a liquidation or otherwise, to us or a guarantor of the notes. In addition, subject to certain limitations, the indenture governing the notes permits non-guarantor subsidiaries to incur additional indebtedness and does not limit their ability to incur liabilities not constituting indebtedness.

Our non-guarantor subsidiaries generated approximately 25% and 38% of our consolidated net sales and operating income, respectively, for the twelve months ended December 31, 2015 and, as of December 31, 2015, had \$389.6 million in total assets (excluding goodwill and intangible assets) and \$170.2 million in total outstanding liabilities (excluding intercompany liabilities).

We may not be able to repurchase the notes upon a change of control.

Upon the occurrence of specific kinds of change of control events, we will be required to offer to repurchase all outstanding notes at 101% of their principal amount plus accrued and unpaid interest. The source of funds for any such purchase of the notes will be our available cash or cash generated from our and our subsidiaries' operations or other sources, including borrowings, sales of assets or sales of equity. We may not be able to repurchase the notes upon a change of control because we may not have sufficient financial resources to purchase all of the notes that are tendered upon a change of control, as well as our 2020 Senior Notes (which have a similar provision) and our 2012 Credit Agreement, which provides that any change of control is an event of default. Accordingly, we may not be able to satisfy our obligations to purchase the notes unless we are able to obtain financing. Our failure to repurchase the notes upon a change of control would cause a default under the indenture governing the notes.

In addition, the change of control provisions in the indenture may not protect you from certain important corporate events, such as a leveraged recapitalization (which would increase the level of our indebtedness), reorganization, restructuring, merger or other similar transaction, unless such transaction constitutes a "Change of Control" under the indenture. Such a transaction may not involve a change in voting power or beneficial ownership or, even if it does, may not involve a change that constitutes a "Change of Control" as defined in the indenture that would trigger our obligation to repurchase the notes. Therefore, if an event occurs that does not constitute a "Change of Control" as defined in the indenture, we will not be required to make an offer to repurchase the notes and you may be required to continue to hold your notes despite the event. See "Description of Exchange Notes—Repurchase at the Option of Holders Upon a Change of Control."

[Table of Contents](#)

If the ratings of the notes are lowered or withdrawn, the market value of the notes could decrease.

Our credit ratings are an assessment by rating agencies of our ability to pay our debts when due. Consequently, real or anticipated changes in our credit ratings will generally affect the market value of the notes. Credit ratings are not recommendations to purchase, hold or sell the notes, and may be revised or withdrawn at any time. Additionally, credit ratings may not reflect the potential effect of risks relating to the structure or marketing of the notes.

Any future lowering of our ratings likely would make it more difficult or more expensive for us to obtain additional debt financing. If any credit rating initially assigned to the notes is subsequently lowered or withdrawn for any reason, you may not be able to resell your notes without a substantial discount.

Federal and state fraudulent transfer laws permit a court to void the notes and the guarantees, and, if that occurs, you may not receive any payments on the notes.

The issuance of the notes and the guarantees may be subject to review under federal and state fraudulent transfer and conveyance statutes. While the relevant laws may vary from state to state, under such laws the payment of consideration will be a fraudulent conveyance if (i) we paid the consideration with the intent of hindering, delaying or defrauding creditors or (ii) we or any of our guarantors, as applicable, received less than reasonably equivalent value or fair consideration in return for issuing either the notes or a guarantee and, in the case of (ii) only, one of the following is also true:

- we or any of our guarantors were insolvent or rendered insolvent by reason of the incurrence of the indebtedness; or
- payment of the consideration left us or any of our guarantors with an unreasonably small amount of capital to carry on the business; or
- we or any of our guarantors intended to, or believed that we or it would, incur debts beyond our or its ability to pay as they mature.

If a court were to find that the issuance of the notes or a guarantee was a fraudulent conveyance, the court could void the payment obligations under the notes or such guarantee or subordinate the notes or such guarantee to presently existing and future indebtedness of ours or such guarantor, or require the holders of the notes to repay any amounts received with respect to the notes or such guarantee. In the event of a finding that a fraudulent conveyance occurred, you may not receive any repayment on the notes. Further, the voidance of the notes could result in an event of default with respect to our other debt and that of our guarantors that could result in acceleration of such debt.

Generally, an entity would be considered insolvent if at the time it incurred indebtedness:

- the sum of its debts, including contingent liabilities, was greater than the fair saleable value of all its assets; or
- the present fair saleable value of its assets was less than the amount that would be required to pay its probable liability on its existing debts and liabilities, including contingent liabilities, as they become absolute and mature; or
- it could not pay its debts as they become due.

We cannot be certain as to the standards a court would use to determine whether or not we or the guarantors were solvent at the relevant time, or regardless of the standard that a court uses, that the issuance of the notes and the guarantees would not be subordinated to our or any guarantor's other debt.

If the guarantees were legally challenged, any guarantee could also be subject to the claim that, since the guarantee was incurred for our benefit, and only indirectly for the benefit of the guarantor, the obligations of the

[Table of Contents](#)

applicable guarantor were incurred for less than fair consideration. A court could thus void the obligations under the guarantees, subordinate them to the applicable guarantor's other debt or take other action detrimental to the holders of the notes.

Because each guarantor's liability under its guarantees may be reduced to zero, avoided or released under certain circumstances, you may not receive any payments from some or all of the guarantors.

You have the benefit of the guarantees of the guarantors. However, the guarantees by the guarantors are limited to the maximum amount that the guarantors are permitted to guarantee under applicable law. As a result, a guarantor's liability under its guarantee could be reduced to zero, depending upon the amount of other obligations of such guarantor. Further, under the circumstances discussed more fully above, a court under federal and state fraudulent conveyance and transfer statutes could void the obligations under a guarantee or further subordinate it to all other obligations of the guarantor. In addition, you will lose the benefit of a particular guarantee if it is released under certain circumstances described under "Description of Exchange Notes—Note Guaranties."

Risks Related to the Exchange Offer

If you fail to exchange your Original Notes, they will continue to be restricted securities and may become less liquid.

Original Notes that you do not tender or that we do not accept will, following the exchange offer, continue to be restricted securities, and you may not offer to sell them except pursuant to an exemption from, or in a transaction not subject to, the Securities Act and applicable state securities law. We will issue Exchange Notes in exchange for the Original Notes pursuant to the exchange offer only following the satisfaction of the procedures and conditions set forth in "The Exchange Offer—Procedures for Tendering." These procedures and conditions include timely receipt by the exchange agent of such Original Notes (or a confirmation of book-entry transfer) and of a properly completed and duly executed letter of transmittal (or an agent's message from the DTC).

Because we anticipate that most holders of Original Notes will elect to exchange their Original Notes, we expect that the liquidity of the market for any Original Notes remaining after the completion of the exchange offer will be substantially limited. Any Original Notes tendered and exchanged in the exchange offer will reduce the aggregate principal amount of the Original Notes outstanding. In addition, following the exchange offer, if you do not tender your Original Notes you generally will not have any further registration rights, and your Original Notes will continue to be subject to certain transfer restrictions. Accordingly, the liquidity of the market for the Original Notes could be adversely affected.

If you are a broker-dealer, your ability to transfer the Exchange Notes may be restricted.

A broker-dealer that acquired the Original Notes for its own account as a result of market-making activities or other trading activities must comply with the prospectus delivery requirements of the Securities Act in connection with any resale of the Exchange Notes. Our obligation to make this prospectus available to broker-dealers is limited. Consequently, we cannot guarantee that a proper prospectus will be available to broker-dealers wishing to resell their Exchange Notes.

Your ability to transfer the notes may be limited by the absence of an active trading market, and there is no assurance that any active trading market will develop for the notes.

The Exchange Notes are a new issue of securities for which there is no established public market. We do not intend to have the Original Notes or any Exchange Notes listed on a national securities exchange or to arrange for quotation on any automated dealer quotation systems. Therefore, we cannot assure you as to the development or liquidity of any trading market for the Original Notes or the Exchange Notes. The liquidity of any market for the Exchange Notes will depend on a number of factors, including:

- the number of holders of notes;

[Table of Contents](#)

- our operating performance and financial condition;
- our ability to complete the offer to exchange the Original Notes for the Exchange Notes;
- the market for similar securities;
- the interest of securities dealers in making a market in the notes; and
- prevailing interest rates.

USE OF PROCEEDS

The exchange offer is intended to satisfy our obligations under the registration rights agreement. We will not receive any proceeds from the exchange offer. The net proceeds from the offering of Original Notes were approximately \$441 million, after expenses of the offering and other related expenses. We used the net proceeds from the offering of the Original Notes, to refinance a portion of the term loan debt outstanding under our 2012 Credit Agreement and pay fees and expenses related thereto.

In consideration for issuing the Exchange Notes as contemplated by this prospectus, we will receive the Original Notes in like principal amount. The Original Notes surrendered and exchanged for the Exchange Notes will be retired and cancelled and cannot be reissued.

DESCRIPTION OF OTHER INDEBTEDNESS

2012 Credit Agreement

On December 12, 2012, Tempur Sealy and certain subsidiaries of Tempur Sealy as borrowers and guarantors, entered into a credit agreement (as amended, the "2012 Credit Agreement") with a syndicate of banks. The 2012 Credit Agreement initially provided for (i) a revolving credit facility of \$350.0 million (the "Revolver"), (ii) a term A facility of \$550.0 million (the "Term A Facility") and (iii) a term B facility of \$870.0 million (the "Term B Facility"). The Revolver includes a sublimit for letters of credit and swingline loans, subject to certain conditions and limits. The Revolver and the Term A Facility will mature on March 18, 2018 and the Term B Facility will mature on March 18, 2020. The Revolver, the Term A Facility and the Term B Facility closed and funded in connection with the Sealy Acquisition on March 18, 2013.

Borrowings under the 2012 Credit Agreement will generally bear interest, at the election of Tempur Sealy and the other subsidiary borrowers, at either (i) LIBOR plus the applicable margin or (ii) Base Rate plus the applicable margin. For the Revolver and the Term A Facility, (a) the initial applicable margin for LIBOR advances was 3.00% per annum and the initial applicable margin for Base Rate advances was 2.00% per annum, and (b) thereafter following the delivery of financial statements for the first full fiscal quarter after closing, such applicable margins are determined by a pricing grid based on the consolidated total net leverage ratio of the Company. The Term B Facility was initially subject to a LIBOR floor of 1.00%. The applicable margin for the Term B Facility was initially 4.00% per annum for LIBOR advances and 3.00% per annum for Base Rate advances. On May 16, 2013, the applicable margin on the Term B Facility was reduced to 2.75% per annum for LIBOR advances and 1.75% per annum for Base Rate advances, and the LIBOR floor was reduced to 0.75% until maturity. On July 11, 2013, the applicable margin on the Term A Facility was reduced by 0.75% for each pricing level on the pricing grid based on the consolidated total net leverage ratio of the Company.

Obligations under the 2012 Credit Agreement are guaranteed by Tempur Sealy's existing and future direct and indirect wholly-owned domestic subsidiaries, subject to certain exceptions. The 2012 Credit Agreement is secured by a security interest in substantially all Tempur Sealy's and the other subsidiary borrowers' domestic assets and the domestic assets of each subsidiary guarantor, whether owned as of the closing or thereafter acquired, including a pledge of 100.0% of the equity interests of each subsidiary guarantor that is a domestic entity (subject to certain limited exceptions) and 65.0% of the voting equity interests of any direct first tier foreign entity owned by a subsidiary guarantor. The 2012 Credit Agreement requires compliance with certain financial covenants providing for maintenance of a minimum consolidated interest coverage ratio and maintenance of a maximum consolidated total net leverage ratio. The consolidated total net leverage ratio is calculated using consolidated funded debt less qualified cash. Consolidated funded debt includes debt recorded on the consolidated balance sheets of the Company and its subsidiaries as of the reporting date, plus letters of credit outstanding and short-term other debt. The Company is allowed to subtract from consolidated funded debt an amount equal to 100.0% of the domestic qualified cash and 60.0% of foreign qualified cash, the aggregate of which cannot exceed \$150.0 million at the end of the reporting period. As of December 31, 2015, domestic qualified cash was \$121.8 million and foreign qualified cash was \$19.3 million.

The 2012 Credit Agreement contains certain customary negative covenants, which include limitations on liens, investments, indebtedness, dispositions, mergers and acquisitions, the making of restricted payments, changes in the nature of business, changes in fiscal year, transactions with affiliates, use of proceeds, prepayments of certain indebtedness, entry into burdensome agreements and changes to governing documents and other junior financing documents. The 2012 Credit Agreement also contains certain customary affirmative covenants and events of default, including upon a change of control.

Tempur Sealy is required to pay a commitment fee on the unused portion of the Revolver, which initially was 0.50% per annum and which steps down to 0.375% per annum if the consolidated total net leverage ratio is less than or equal to 3.50:1.00. This unused commitment fee is payable quarterly in arrears and on the date of termination or expiration of the commitments under the Revolver. Tempur Sealy and the other borrowers also pay customary letter of credit issuance and other fees under the 2012 Credit Agreement.

[Table of Contents](#)

On October 17, 2014, the Company entered into an amendment to its existing 2012 Credit Agreement. The amendment provides the Company with flexibility in the acquisition of existing and future licensees, distributors and joint ventures as well as the potential acquisition of other strategic international brands in existing Company markets by, among other things, providing for increased acquisition baskets and certain exceptions from such acquisition baskets and greater flexibility with respect to the requirements for guarantying the obligations under the 2012 Credit Agreement by certain existing joint ventures. In addition, the amendment provides for flexibility under the maximum consolidated total net leverage ratio going forward as well as additional flexibility in the making of certain investments and restricted payments and the payment of junior indebtedness through, among other things, an available amount basket that includes a \$50.0 million starter portion.

The Company used the proceeds from the issuance of the Original Notes and an additional \$50.0 million of available cash to voluntarily prepay \$479.9 on the Term B Facility and \$13.9 million on the Term A Facility. In conjunction with the voluntary prepayment, the Company recognized accelerated amortization of \$12.0 million of the associated deferred financing costs, which is included within interest expense, net in the Consolidated Statements of Income.

The Company is in compliance with all applicable covenants at December 31, 2015.

2020 Senior Notes

On December 19, 2012, Tempur Sealy issued \$375.0 million aggregate principal amount of 6.875% senior notes due 2020 (the “2020 Senior Notes”) to qualified institutional buyers pursuant to Rule 144A of the Securities Act, and to certain non-U.S. persons in accordance with Regulation S under the Securities Act. The 2020 Senior Notes were issued pursuant to an indenture, dated as of December 19, 2012, among the Company, certain subsidiaries of Tempur Sealy as guarantors, and The Bank of New York Mellon Trust Company, N.A., as trustee. The 2020 Senior Notes are general unsecured senior obligations of Tempur Sealy and are guaranteed on a senior unsecured basis by the guarantors. The 2020 Senior Notes mature on December 15, 2020, and interest is payable semi-annually in arrears on each June 15 and December 15, beginning on June 15, 2013. The gross proceeds from the 2020 Senior Notes were funded into escrow and these funds were released from escrow on March 18, 2013 and used as part of the funding of the Sealy Acquisition. Following the completion of the Sealy Acquisition, Sealy and certain of its subsidiaries became guarantors of the 2020 Senior Notes.

Tempur Sealy has the option to redeem all or a portion of the 2020 Senior Notes at any time on or after December 15, 2016. Starting on this date the initial redemption price is 103.438% of the principal amount, plus accrued and unpaid interest, if any. The redemption price will decline to 101.719% on December 15, 2017 and to 100.0% of the principal amount beginning on December 15, 2018. In addition, Tempur Sealy has the option at any time prior to December 15, 2016 to redeem some or all of the 2020 Senior Notes at 100.0% of the original principal amount plus a “make-whole” premium and accrued and unpaid interest, if any. Tempur Sealy may also redeem up to 35.0% of the 2020 Senior Notes prior to December 15, 2015, under certain circumstances with the net cash proceeds from certain equity offerings, at 106.875% of the principal amount plus accrued and unpaid interest, if any. Tempur Sealy may make such redemptions only if, after any such redemption, at least 65.0% of the original aggregate principal amount of the 2020 Senior Notes issued remains outstanding.

The indenture pursuant to which the 2020 Senior Notes were issued restricts the ability of Tempur Sealy and the ability of certain of its subsidiaries to, among other things: (i) incur, directly or indirectly, debt; (ii) make, directly or indirectly, certain investments and restricted payments; (iii) incur or suffer to exist, directly or indirectly, liens on its properties or assets; (iv) sell or otherwise dispose of, directly or indirectly, assets; (v) create or otherwise cause or suffer to exist any consensual restriction on the right of certain of the subsidiaries of Tempur Sealy to pay dividends or make any other distributions on or in respect of their capital stock; (vi) enter into transactions with affiliates; (vii) engage in sale-leaseback transactions; (viii) purchase or redeem capital stock or subordinated indebtedness; (ix) issue or sell stock of restricted subsidiaries; and (x) effect a consolidation or merger. These covenants are subject to a number of exceptions and qualifications.

[Table of Contents](#)

Also in conjunction with the issuance and sale of the 2020 Senior Notes, Tempur Sealy and the guarantors agreed through a Registration Rights Agreement to exchange the 2020 Senior Notes for a new issue of substantially identical senior notes registered under the Securities Act. Tempur Sealy and the guarantors would have been required to pay additional interest if the 2020 Senior Notes were not registered within the time periods specified within the Registration Rights Agreement. Tempur Sealy filed a registration statement on Form S-4 on July 12, 2013 in connection with the registration of the 2020 Senior Notes, and the registration statement was declared effective by the SEC on July 26, 2013, which was within the specified time period.

8.0% Sealy Notes

In conjunction with the Sealy Acquisition, Sealy's obligations under its 8.0% Sealy Notes were amended. As a result of the Sealy Acquisition, the 8.0% Sealy Notes became convertible solely into cash, in an amount that declined slightly every day during the Make-Whole Period (as defined under the Supplemental Indenture governing the 8.0% Sealy Notes) that followed the Sealy Acquisition, and then became fixed thereafter. The Make-Whole Period effectively expired on April 12, 2013. As of April 12, 2013, approximately 83.0% of all the 8.0% Sealy Notes outstanding prior to the Sealy Acquisition were converted into cash and paid to the holders. Holders of the 8.0% Sealy Notes who converted on March 19, 2013 received approximately \$2,325.43 per \$1,000 Accreted Principal Amount of the 8.0% Sealy Notes being converted. The holders of the 8.0% Sealy Notes who convert after April 12, 2013 will receive \$2,200 per \$1,000 Accreted Principal Amount of the 8.0% Sealy Notes being converted. The Company calculated the fair value of the remaining 8.0% Sealy Notes as part of its purchase price allocation by first calculating the future payout of the remaining 17.0% aggregate principal amount of the 8.0% Sealy Notes still outstanding and the cumulative semi-annual interest payments at the July 15, 2016 maturity, and then calculated the present value using a market discount rate, which resulted in a fair value of \$96.2 million at March 18, 2013, the date the Sealy Acquisition closed. As of December 31, 2015, the carrying value of the 8.0% Sealy Notes is \$111.1 million, which includes \$14.9 million of accreted discount. The discount is accreted through non-cash interest expense over the life of the 8.0% Sealy Notes using the effective interest method. As of December 31, 2014, the 8.0% Sealy Notes had a carrying value of \$104.7 million, which includes \$8.7 million of accreted discount less conversion payments made to holders of certain 8.0% Sealy Notes that were tendered for conversion.

The 8.0% Sealy Notes mature on July 15, 2016 and bear interest at 8.0% per annum accruing semi-annually in arrears on January 15 and July 15 of each year. Sealy does not pay interest in cash to the holders of the 8.0% Sealy Notes, but instead increases the principal amount of the 8.0% Sealy Notes by an amount equal to the accrued interest for the interest period then ended ("Paid-In-Kind" or "PIK interest"). The amount of the accrued interest for each interest period is calculated on the basis of the accreted principal amount as of the first day of such interest period. PIK interest accrued on the most recent interest period then ended on the 8.0% Sealy Notes converted between interest payment dates is forfeited.

All material negative covenants (apart from the lien covenant and related collateral requirements) were eliminated from the supplemental indenture governing the 8.0% Sealy Notes, as well as certain events of default and certain other provisions. In addition, Tempur Sealy and its non-Sealy subsidiaries do not provide any guarantees of any obligations with respect to the 8.0% Sealy Notes.

DESCRIPTION OF EXCHANGE NOTES

You can find the definitions of capitalized terms used in this description and not defined elsewhere under the subheading “Definitions.” In this description, the words “Company,” “we,” “us” and “our” refer only to Tempur Sealy International, Inc. and not to any of its subsidiaries.

The Company issued the Original Notes and will issue the Exchange Notes under an indenture, dated as of September 24, 2015, among the Company, the Guarantors party thereto, and The Bank of New York Mellon Trust Company, N.A., as trustee. The following summary of certain provisions of the indenture and the notes does not purport to be complete and is subject to, and qualified in its entirety by reference to, the provisions of the indenture and the notes, including the definitions of certain terms therein and those terms made a part thereof by reference to the Trust Indenture Act of 1939, as amended.

The following description is a summary of the material provisions of the indenture. It does not restate the indenture in its entirety. We urge you to read the indenture in its entirety because that document, and not this description, defines your rights as a holder of the notes. A copy of the indenture is available without charge upon request to the Company at the address indicated under “Where You Can Find More Information.”

Unless the context otherwise requires, references to “notes” in this “Description of Exchange Notes” include the Original Notes, which were not registered under the Securities Act, and the Exchange Notes offered hereby, which have been registered under the Securities Act. The Exchange Notes will be treated as part of the same class and series as the Original Notes and the terms of the Exchange Notes are identical to the terms of the Original Notes, except that the Exchange Notes are registered under the Securities Act and the transfer restrictions and registration rights and related additional interest provisions applicable to the Original Notes do not apply to the Exchange Notes.

Principal, Maturity and Interest

We will issue \$450.0 million in initial aggregate principal amount of notes under the indenture and, subject to compliance with the covenant described under “—Certain Covenants—Limitation on Debt,” can issue an unlimited amount of additional notes at later dates.

Any additional notes that we issue in the future will be identical in all respects to the notes that we are issuing now, except that the notes issued in the future will have different issuance prices and issuance dates; *provided* that if the additional notes are not fungible with the notes for U.S. federal income tax purposes, the additional notes will be issued with a separate CUSIP number. We will issue notes only in fully registered form without coupons, in a minimum denomination of \$2,000 and integral multiples of \$1,000 in excess thereof.

The notes will mature on October 15, 2023.

Interest on the notes will accrue at a rate of 5.625% per annum. Interest on the notes will be payable semi-annually in arrears on April 15 and October 15, commencing on April 15, 2016. We will pay interest to those persons who were holders of record on the March 31 or September 30 immediately preceding each interest payment date.

Interest on the notes will accrue from the date of original issuance or, if interest has already been paid, from the date it was most recently paid. Interest will be computed on the basis of a 360-day year comprised of twelve 30-day months.

The notes will be denominated in U.S. dollars and all payments of principal and interest thereon will be paid in U.S. dollars.

[Table of Contents](#)

Additional interest is payable with respect to the notes in certain circumstances if we do not consummate the exchange offer (or shelf registration, if applicable) as described in this prospectus under the heading “The Exchange Offer.”

Ranking

The notes will be senior unsecured obligations of the Company and will be guaranteed by each of the Company’s Domestic Restricted Subsidiaries that guarantees or is a borrower under the Credit Agreement. The notes will rank equally with or senior to all Debt of the Company and the Guarantors, but will be effectively junior to all secured Debt, including our obligations under the Credit Agreement, to the extent of the value of the assets securing such Debt. As of December 31, 2015, the Company and the Guarantors had \$529.3 million of secured Debt, including outstanding letters of credit, and an additional \$330.2 million available for borrowing under the Credit Agreement. Subject to the limits described under “—Certain Covenants—Limitation on Debt” and “—Certain Covenants—Limitation on Liens,” the Company and its Restricted Subsidiaries may Incur additional secured Debt.

The Company’s Foreign Restricted Subsidiaries will not guarantee the notes. Claims of creditors of non-guarantor subsidiaries, including trade creditors, and creditors holding debt and guarantees issued by those subsidiaries, and claims of preferred stockholders (if any) of those subsidiaries generally will have priority with respect to the assets and earnings of those subsidiaries over the claims of creditors of the Company, including holders of the notes. The notes and each Note Guaranty (as defined below) therefore will be effectively subordinated to creditors (including trade creditors) and preferred stockholders (if any) of subsidiaries of the Company (other than the Guarantors). As of December 31, 2015, the total book liabilities of the Company’s non-guarantor subsidiaries would have been approximately \$170.2 million, including trade payables but excluding intercompany liabilities. Although the indenture limits the Incurrence of Debt of Restricted Subsidiaries, the limitation is subject to a number of significant exceptions. Moreover, the indenture does not impose any limitation on the Incurrence by Restricted Subsidiaries of liabilities that are not considered Debt under the indenture. See “—Certain Covenants—Limitation on Debt.”

Optional Redemption

Except as set forth in the next two paragraphs and the final paragraph under “—Repurchase at the Option of Holders Upon a Change of Control,” notes will not be redeemable at the option of the Company prior to October 15, 2018. Starting on that date, the Company may redeem all or any portion of the notes, at once or over time, after giving the required notice under the indenture. The notes may be redeemed at the redemption prices set forth below, plus accrued and unpaid interest, if any, to the redemption date (subject to the right of holders of record on the relevant record date to receive interest due on the relevant interest payment date). The following prices are for notes redeemed during the 12-month period commencing on October 15 of the years set forth below, and are expressed as percentages of principal amount:

<u>Redemption Year</u>	<u>Price</u>
2018	104.219%
2019	102.813%
2020	101.406%
2021 and thereafter	100.000%

At any time and from time to time, prior to October 15, 2018, the Company may redeem up to a maximum of 35% of the original aggregate principal amount of the notes (including additional notes, if any) with the proceeds of one or more Equity Offerings, at a redemption price equal to 105.625% of the principal amount thereof, plus accrued and unpaid interest thereon, if any, to the redemption date (subject to the right of holders of record on the relevant record date to receive interest due on the relevant interest payment date); *provided* that after giving effect to any redemption of this kind, at least 65% of the original aggregate principal amount of notes (including additional notes, if any) remains outstanding. Any redemption of this kind shall be made within 90 days of such Equity Offering upon not less than 30 and no more than 60 days’ prior notice.

[Table of Contents](#)

In addition, the Company may choose to redeem all or any portion of the notes, at once or from time to time, prior to October 15, 2018. If it does so, it may redeem the notes after giving the required notice under the indenture. To redeem the notes, the Company must pay a redemption price equal to the sum of:

- (a) 100% of the principal amount of the notes to be redeemed, *plus*
- (b) the Applicable Premium,

plus accrued and unpaid interest, if any, to the redemption date (subject to the right of holders of record on the relevant record date to receive interest due on the relevant interest payment date).

Any notice to holders of notes of such a redemption needs to include the appropriate calculation (such calculation to be made by the Company) of the redemption price, but does not need to include the redemption price itself. The actual redemption price, calculated as described above, must be set forth in an Officers' Certificate delivered to the trustee no later than two business days prior to the redemption date.

Any redemption or notice of any redemption or offer to purchase notes may, at the Company's discretion, be subject to one or more conditions precedent, including, but not limited to, completion of an Equity Offering, other offering or financing, Change of Control or other corporate transaction or event. Notice of any redemption in respect of an Equity Offering may be given prior to the completion thereof. In addition, if such redemption or notice is subject to satisfaction of one or more conditions precedent, such notice shall state that, in the Company's discretion, the redemption date may be delayed until such time as any or all such conditions shall be satisfied and a new redemption date will be set by the Company in accordance with applicable DTC procedures, or such redemption may not occur and such notice may be rescinded in the event that any or all such conditions shall not have been satisfied by the redemption date, or by the redemption date as so delayed.

Open-Market and Other Purchases; No Sinking Fund

The Company at any time and from time to time may purchase notes in the open market or otherwise. There will be no mandatory sinking fund payments for the notes.

Note Guaranties

The obligations of the Company pursuant to the notes, including any repurchase obligation resulting from a Change of Control, will be unconditionally guaranteed, jointly and severally, on an unsecured basis, by each Domestic Restricted Subsidiary of the Company that guarantees or is a borrower under the Credit Agreement. If any Domestic Restricted Subsidiary (including any newly acquired or created Domestic Restricted Subsidiary) becomes a borrower or guarantor under the Credit Agreement after the Issue Date, the new Restricted Subsidiary must provide a guaranty of the notes (a "Note Guaranty").

Each Note Guaranty will be limited to the maximum amount that would not render the Guarantor's obligations subject to avoidance under applicable fraudulent conveyance provisions of the United States Bankruptcy Code or any comparable provision of state law. By virtue of this limitation, a Guarantor's obligation under its Note Guaranty could be significantly less than amounts payable with respect to the notes, or a Guarantor may have effectively no obligation under its Note Guaranty. See "Risk Factors—Risks Related to the Notes—Because each guarantor's liability under its guarantees may be reduced to zero, avoided or released under certain circumstances, you may not receive any payments from some or all of the guarantors."

The Note Guaranty of a Guarantor will terminate upon:

- (1) a sale or other disposition (including by way of consolidation or merger) of the Guarantor or the sale or disposition of all or substantially all the Property of the Guarantor (other than to the Company or a Restricted Subsidiary) in a transaction that at the date thereof does not violate the indenture;

Table of Contents

- (2) the release of such Guarantor's guarantee of the obligations under the Credit Agreement other than a discharge through payment thereon;
- (3) the designation in accordance with the indenture of the Guarantor as an Unrestricted Subsidiary;
- (4) defeasance or discharge of the notes, as provided in "—Defeasance and Discharge"; or
- (5) the liquidation or dissolution of that Guarantor in accordance with the indenture.

Repurchase at the Option of Holders Upon a Change of Control

Upon the occurrence of a Change of Control, each holder of notes will have the right to require us to repurchase all or any part of that holder's notes pursuant to the offer described below (the "Change of Control Offer") at a purchase price (the "Change of Control Purchase Price") equal to 101% of the principal amount thereof, plus accrued and unpaid interest, if any, to the purchase date (subject to the right of holders of record on the relevant record date to receive interest due on the relevant interest payment date).

Within 30 days following any Change of Control, the Company shall send or cause to be sent by first-class mail (or electronic transmission in the case of notes held in book-entry form), with a copy to the trustee, to each holder of notes, at such holder's address appearing in the security register, a notice stating:

- (1) that a Change of Control has occurred and a Change of Control Offer is being made pursuant to the covenant described herein under "—Repurchase at the Option of Holders Upon a Change of Control" and that all notes timely tendered will be accepted for repurchase;
- (2) the Change of Control Purchase Price and the purchase date, which shall be, subject to any contrary requirements of applicable law, a business day no earlier than 30 days nor later than 60 days from the date such notice is mailed; and
- (3) the procedures that holders of notes must follow in order to tender their notes (or portions thereof) for payment, and the procedures that holders of notes must follow in order to withdraw an election to tender notes (or portions thereof) for payment.

We will not be required to make a Change of Control Offer following a Change of Control if (1) a third party makes the Change of Control Offer in the manner, at the times and otherwise in compliance with the requirements set forth in the indenture applicable to a Change of Control Offer made by us and purchases all notes validly tendered and not withdrawn under such Change of Control Offer or (2) notice of redemption has been given pursuant to the indenture to redeem all of the notes, as described above under the caption "—Optional Redemption," unless and until there is a default in payment of the applicable redemption price. Notwithstanding anything to the contrary contained herein, a Change of Control Offer may be made in advance of a Change of Control, conditioned upon the consummation of such Change of Control, if a definitive agreement is in place for the Change of Control at the time the Change of Control Offer is made.

We will comply, to the extent applicable, with the requirements of Section 14(e) of the Exchange Act and any other securities laws or regulations in connection with the repurchase of notes pursuant to a Change of Control Offer. To the extent that the provisions of any securities laws or regulations conflict with the provisions of the covenant described above, we will comply with the applicable securities laws and regulations and will not be deemed to have breached our obligations under this covenant by virtue of such compliance.

The Change of Control repurchase feature is a result of negotiations between us and the initial purchasers. The Company has no present intention to engage in a transaction involving a Change of Control, although it is possible that we would decide to do so in the future. Subject to the covenants described below, we could, in the future, enter into transactions, including acquisitions, refinancings or other recapitalizations, that would not constitute a Change of Control under the indenture, but that could increase the amount of Debt outstanding at such time or otherwise affect our capital structure or credit ratings.

Table of Contents

The definition of Change of Control includes a phrase relating to the sale, transfer, assignment, lease, conveyance or other disposition of “all or substantially all” of our assets. Although there is a developing body of case law interpreting the phrase “substantially all,” there is no precise established definition of the phrase under applicable law. Accordingly, if we dispose of less than all of our assets by any of the means described above, the ability of a holder of notes to require us to repurchase its notes may be uncertain.

The Credit Agreement restricts us in certain circumstances from purchasing any notes prior to maturity of the notes and also provides that the occurrence of some of the events that would constitute a Change of Control would constitute a default under the Credit Agreement. Future Debt of the Company may contain prohibitions of certain events which would constitute a Change of Control or require that future Debt be repurchased upon a Change of Control. We cannot assure you that sufficient funds will be available when necessary to make any required repurchases. Our failure to purchase notes in connection with a Change of Control would result in a default under the indenture. Any such default would, in turn, constitute a default under the Credit Agreement, and may constitute a default under any of our future Debt as well. Our obligation to make an offer to repurchase the notes as a result of a Change of Control may be waived or modified at any time prior to the occurrence of that Change of Control with the written consent of the holders of a majority in principal amount of the notes. See “—Amendments and Waivers.”

If holders of not less than 90% in aggregate principal amount of the outstanding notes accept a Change of Control Offer and the Company (or any third party making such Change of Control Offer in lieu of the Company as described above) purchases all of the notes held by such holders, the Company will have the right, upon not less than 30 nor more than 60 days’ prior notice, given not more than 30 days following the purchase pursuant to the Change of Control Offer described above, to redeem all of the notes that remain outstanding following such purchase at a redemption price equal to the Change of Control Purchase Price plus, to the extent not included in the Change of Control Purchase Price, accrued and unpaid interest, if any, on the notes that remain outstanding, to the date of redemption (subject to the right of holders of record on the relevant record date to receive interest due on an interest payment date that is on or prior to the redemption date).

Certain Covenants

Set forth below are summaries of certain of the covenants to be contained in the indenture.

Covenant Suspension

During any period of time that:

- (a) the notes have Investment Grade Ratings from both Rating Agencies, and
- (b) no Default or Event of Default has occurred and is continuing under the indenture,

the Company and the Restricted Subsidiaries will not be subject to the following provisions of the indenture:

- “—Limitation on Debt,”
- “—Limitation on Restricted Payments,”
- “—Limitation on Asset Sales,”
- “—Limitation on Restrictions on Distributions from Restricted Subsidiaries,”
- clause (x) of the third paragraph (and as referred to in the first paragraph) of “—Designation of Restricted and Unrestricted Subsidiaries,” and
- clause (d) of the first paragraph of “—Merger, Consolidation and Sale of Property” (collectively, the “Suspended Covenants”). Solely for the purpose of determining the amount of Permitted Liens under

Table of Contents

the “—Limitation on Liens” covenant during any Suspension Period (as defined below) and without limiting the Company’s or any Restricted Subsidiary’s ability to Incur Debt during any Suspension Period, to the extent that calculations in the “—Limitation on Liens” covenant refer to the “—Limitation on Debt” covenant, such calculations shall be made as though the “—Limitation on Debt” covenant remains in effect during the Suspension Period. In the event that the Company and the Restricted Subsidiaries are not subject to the Suspended Covenants for any period of time as a result of the second preceding sentence and, subsequently, one or both of the Rating Agencies withdraws its ratings or downgrades the ratings assigned to the notes below the required Investment Grade Ratings or a Default or Event of Default occurs and is continuing (the date of such ratings withdrawal or downgrade or the occurrence of such Default or Event of Default, the “Reversion Date”), then the Company and the Restricted Subsidiaries will thereafter again be subject to the Suspended Covenants for all periods after that withdrawal, downgrade, Default or Event of Default and, furthermore, compliance with the provisions of the covenant described in “—Limitation on Restricted Payments” with respect to Restricted Payments made after the time of the withdrawal, downgrade, Default or Event of Default will be calculated in accordance with the terms of that covenant as though that covenant had been in effect during the entire period of time from the Issue Date; *provided* that there will not be deemed to have occurred a Default or Event of Default with respect to that covenant during the time (the “Suspension Period”) that the Company and the Restricted Subsidiaries were not subject to the Suspended Covenants (or after that time based solely on events that occurred during that time). The Company will give the trustee written notice of any such suspension of covenants and in any event not later than ten business days after such suspension has occurred. In the absence of such notice, the trustee shall assume that the Suspended Covenants are in full force and effect.

On the Reversion Date, all Debt Incurred during the Suspension Period will be classified to have been Incurred pursuant to clause (1) of the first paragraph or one of the clauses set forth in the second paragraph of the covenant described under “—Limitation on Debt” (to the extent such Debt would be permitted to be Incurred thereunder as of the Reversion Date and after giving effect to Debt Incurred prior to the Suspension Period and outstanding on the Reversion Date). To the extent such Debt would not be permitted to be Incurred pursuant to clause (1) of the first paragraph or one of the clauses set forth in the second paragraph of the covenant described under “—Limitation on Debt,” such Debt will be deemed to have been outstanding on the Issue Date, so that it is classified as permitted under clause (1) of the second paragraph of the covenant described under “—Limitation on Debt.” For purposes of determining compliance with the covenant described under “—Limitation on Asset Sales,” on the Reversion Date, the Net Available Cash from all Asset Sales not applied in accordance with the covenant will be deemed to be reset to zero. The Company will give the trustee written notice of any occurrence of a Reversion Date not later than five business days after such Reversion Date. After any such notice of the occurrence of a Reversion Date, the trustee shall assume that the Suspended Covenants apply and are in full force and effect.

Limitation on Debt

The Company shall not, and shall not permit any Restricted Subsidiary to, Incur, directly or indirectly, any Debt unless, after giving effect to the application of the proceeds thereof, either:

- (1) the Debt is Debt of the Company or a Guarantor and after giving effect to the Incurrence of the Debt and the application of the proceeds thereof, the Consolidated Fixed Charges Coverage Ratio would be greater than 2.00 to 1.00, or
- (2) the Debt is Permitted Debt.

The term “Permitted Debt” is defined to include the following:

- (a) Debt of the Company evidenced by the notes offered hereby;

Table of Contents

 - (2) the sum of the amounts equal to:
 - (A) 60% of the book value of the inventory of the Company and the Restricted Subsidiaries, and
 - (B) 85% of the book value of the accounts receivable of the Company and the Restricted Subsidiaries (including any Receivables Entity that is a Restricted Subsidiary),
- in the case of each of clauses (A) and (B) as of last day of the most recently ended fiscal quarter of the Company for which internal financial statements of the Company are available;

- (e) Debt of a Restricted Subsidiary outstanding on the date on which that Restricted Subsidiary was acquired by the Company or otherwise became a Restricted Subsidiary (other than Debt Incurred as consideration in, or to provide all or any portion of the funds or credit support utilized to consummate, a transaction or series of transactions pursuant to which the Restricted Subsidiary became a Restricted Subsidiary of the Company or was otherwise acquired by the Company); *provided* that at the time that Person was acquired by the Company or otherwise became a Restricted Subsidiary and after giving effect to the Incurrence of that Debt, (i) the Company would have been able to Incur \$1.00 of additional Debt pursuant to clause (1) of the first paragraph of this covenant or (ii) the Consolidated Fixed Charges Coverage Ratio would have been greater than or equal to such ratio immediately prior to such transaction;
- (f) Debt Incurred as consideration in, or to provide all or any portion of the funds or credit support utilized to consummate, a transaction or series of transactions pursuant to which a Person became a Restricted Subsidiary of the Company or was otherwise acquired by the Company; *provided* that at the time that Person was acquired by the Company or otherwise became a Restricted Subsidiary and after giving effect to the Incurrence of that Debt, (i) the Company would have been able to Incur \$1.00 of additional Debt pursuant to clause (1) of the first paragraph of this covenant or (ii) the Consolidated Fixed Charges Coverage Ratio would have been greater than or equal to such ratio immediately prior to such transaction;
- (g) Debt under Interest Rate Agreements entered into by the Company or a Restricted Subsidiary for the purpose of limiting interest rate risk in the financial management of the Company or that Restricted Subsidiary and not for speculative purposes;
- (h) Debt under Currency Exchange Protection Agreements entered into by the Company or a Restricted Subsidiary for the purpose of limiting currency exchange rate risks in the financial management of the Company or that Restricted Subsidiary and not for speculative purposes;
- (i) Debt under Commodity Price Protection Agreements entered into by the Company or a Restricted Subsidiary in the financial management of the Company or that Restricted Subsidiary and not for speculative purposes;

- (k) Debt arising from agreements of the Company or a Restricted Subsidiary providing for indemnification, adjustment of purchase price or similar obligations, in each case, Incurred in connection with the disposition of any business, assets or Capital Stock of a Subsidiary, other than Guarantees of Debt Incurred by any Person acquiring all or any portion of such business, assets or Capital Stock; *provided* that the maximum aggregate liability in respect of all such Debt shall at no time exceed the gross proceeds actually received by the Company or such Restricted Subsidiary in connection with such disposition;

- (o) Debt of the Company or a Restricted Subsidiary Incurred (i) in respect of Capital Lease Obligations and Purchase Money Debt (including Debt Incurred pursuant to a Real Estate Financing Transaction or an Equipment Financing Transaction); *provided* that the principal amount of any Debt Incurred pursuant to this clause (i), *plus* the aggregate outstanding amount of Permitted Refinancing Debt Incurred to refinance Debt Incurred pursuant to this clause, outstanding at any one time may not exceed the greater of (a) \$100.0 million and (b) 14.0% of Consolidated Net Tangible Assets and (ii) in respect of any Capital Lease Obligation with respect to a sale and leaseback of the headquarters of the Company in Lexington, Kentucky;

- (v) Permitted Refinancing Debt Incurred in respect of Debt Incurred pursuant to clause (1) of the first paragraph of this covenant and clauses (a), (e), (f), (l), (n)(ii) and (o) above or this clause (v).

For purposes of determining compliance with any restriction on the Incurrence of Debt in dollars where Debt is denominated in a different currency, the amount of such Debt will be the Dollar Equivalent determined on the date on which such Debt was Incurred, in the case of term Debt, or first committed or first Incurred (whichever yields the lower Dollar Equivalent amount) in the case of revolving credit Debt; *provided* that if any such Debt denominated in a different currency is subject to a Currency Exchange Protection Agreement (with respect to dollars) covering principal amounts payable on such Debt, the amount of such Debt expressed in euros will be adjusted to take into account the effect of such agreement. The principal amount of any Permitted Refinancing Debt Incurred in the same currency as the Debt being refinanced will be the Dollar Equivalent of the Debt refinanced determined on the date such Debt being refinanced was initially Incurred. Notwithstanding any other provision of this covenant, for purposes of determining compliance with this “Limitation on Debt” covenant, increases in Debt solely due to fluctuations in the exchange rates of currencies will not be deemed to exceed the maximum amount that the Company or any Restricted Subsidiary may Incur under any of clauses (a) through (v) of this “Limitation on Debt” covenant. The accrual of interest or preferred stock dividends, the accretion or amortization of original issue discount, the payment of interest on any Indebtedness in the form of additional Indebtedness with the same terms, the reclassification of preferred stock as Indebtedness due to a change in accounting principles, fluctuations in the termination value of Hedging Obligations and the payment of dividends or distribution on Disqualified Stock in the form of additional shares of the same class of Disqualified Stock will not be deemed to be an incurrence of Indebtedness or an issuance of Disqualified Stock for purposes of this covenant; *provided*, in each such case, that the amount thereof (excluding any dividends and distributions to the extent payable in Capital Stock (other than Disqualified Stock) of the Company or any Restricted Subsidiary) is included in Consolidated Fixed Charges of the Company as accrued.

For purposes of determining compliance with the covenant described above:

- (A) in the event that an item of Debt meets the criteria of more than one of the types of Debt described above, the Company, in its sole discretion, will classify such item of Debt at the time of Incurrence and only be required to include the amount and type of such Debt in one of the above clauses; and
- (B) the Company will be entitled to divide and classify and reclassify an item of Debt in more than one of the types of Debt described above; *provided* that Debt outstanding under the Credit Agreement on the Issue Date shall at all times be treated as Incurred under clause (b) above and may not be reclassified.

Limitation on Restricted Payments

The Company shall not make, and shall not permit any Restricted Subsidiary to make, directly or indirectly, any Restricted Payment if at the time of, and after giving effect to, the proposed Restricted Payment,

- (a) a Default or Event of Default shall have occurred and be continuing,
- (b) the Company could not Incur at least \$1.00 of additional Debt pursuant to clause (1) of the first paragraph of the covenant described under “— Limitation on Debt,” or
- (c) the aggregate amount of that Restricted Payment and all other Restricted Payments declared or made after December 19, 2012 (the “Existing Notes Issue Date”) (the amount of any Restricted Payment, if made other than in cash, to be based upon Fair Market Value) would exceed an amount equal to, without duplication:
 - (1) 50% of the aggregate amount of Consolidated Net Income accrued during the period (treated as one accounting period) from September 30, 2012 to the end of the most recent fiscal quarter ending prior to the date of the Restricted Payment for which internal financial statements are available (or if the aggregate amount of Consolidated Net Income for such period shall be a deficit, minus 100% of such deficit), *plus*

 - (B) the aggregate amount by which Debt of the Company or any Restricted Subsidiary is reduced on the Company's consolidated balance sheet on or after the Issue Date upon the conversion or exchange of any Debt issued or sold on or prior to the Issue Date that is convertible or exchangeable for Capital Stock (other than Disqualified Stock) of the Company,

- plus*
- (4) an amount equal to the sum, without duplication, of (in each case to the extent not otherwise included in Consolidated Net Income):
- (A) the net reduction in Investments in any Person other than the Company or a Restricted Subsidiary resulting from dividends, repayments of loans or advances or other transfers of Property made after the Existing Notes Issue Date, in each case to the Company or any Restricted Subsidiary from that Person, less the cost of the disposition of those Investments,
 - (B) the Fair Market Value of the Company's equity interest in an Unrestricted Subsidiary at the time the Unrestricted Subsidiary is designated a Restricted Subsidiary (*provided* that such designation occurs after the Existing Notes Issue Date), and
 - (C) with respect to Restricted Investments made by the Company and its Restricted Subsidiaries after the Existing Notes Issue Date, an amount equal to the sum, without duplication, of the net reduction in such Restricted Investments in any sale of any such Restricted Investment to a purchaser other than the Company or a Subsidiary of the Company or the release of any Guarantee (except to the extent any amounts are paid under such Guarantee) that constituted a Restricted Investment,
- plus*
- (5) all dividends received in cash by the Company or a Guarantor after the Existing Notes Issue Date from an Unrestricted Subsidiary of the Company, to the extent such dividends were not otherwise included in Consolidated Net Income (other than to the extent such dividend represents a return of capital and the Investment in such Unrestricted Subsidiary was made pursuant to clause (c)(l) of this covenant or to the extent such Investment constituted a Permitted Investment).

Notwithstanding the foregoing limitation, the Company may:

- (a) pay dividends on its Capital Stock within 60 days of the declaration thereof if, on said declaration date, the dividends could have been paid in compliance with the indenture; *provided* that the dividend shall be included in the calculation of the amount of Restricted Payments;

 - (1) the purchase, repurchase, redemption, legal defeasance, acquisition or retirement shall be excluded in the calculation of the amount of Restricted Payments, and
 - (2) the Capital Stock Sale Proceeds from the exchange or sale shall be excluded from the calculation pursuant to clause (c)(2) above;

- (e) permit a Restricted Subsidiary that is not a Wholly Owned Subsidiary to pay dividends to shareholders of that Restricted Subsidiary that are not the parent of that Restricted Subsidiary, so long as the Company or a Restricted Subsidiary that is the parent of that Restricted Subsidiary receives dividends on a *pro-rata* basis or on a basis that results in the receipt by the Company or a Restricted Subsidiary that is the parent of that Restricted Subsidiary of dividends or distributions of greater value than it would receive on a *pro-rata* basis;
- (f) make cash payments in lieu of fractional shares in connection with the exercise of warrants, options or other securities convertible into Capital Stock of the Issuer; *provided that* such payments shall be excluded in the calculation of the amount of Restricted Payments;
- (g) make repurchases of shares of common stock of the Company deemed to occur upon the exercise of options to purchase shares of common stock of the Company if such shares of common stock of the Company represent a portion of the exercise price of such options; *provided that* such repurchases shall be excluded in the calculation of the amount of Restricted Payments;
- (h) repurchase shares of, or options to purchase shares of, common stock of the Company from current or former officers, directors or employees of the Company or any of its Subsidiaries (or permitted transferees of such current or former officers, directors or employees), pursuant to the terms of agreements (including employment agreements) or plans approved by the Board of Directors under which such individuals acquire shares of such common stock; *provided that* the aggregate amount of such repurchases shall not exceed \$15.0 million in any calendar year (with unused amounts in any calendar year carried over to succeeding calendar years subject to a maximum of \$30.0 million in any calendar year); and *provided further that* such repurchases shall be excluded in the calculation of the amount of Restricted Payments;
- (i) purchase, defease or otherwise acquire or retire for value any Subordinated Obligations upon a Change of Control of the Company or an Asset Sale by the Company, to the extent required by any agreement pursuant to which such Subordinated Obligations were issued, but only if the Company has previously made the offer to purchase notes required under “—Repurchase at the Option of Holders Upon a Change of Control” or “—Limitation on Asset Sales”; *provided that* such payments shall be included in the calculation of the amount of Restricted Payments;
- (j) pay fees and purchase receivables and related assets in connection with a Qualified Receivables Transaction, *provided that* such payments shall be excluded in the calculation of the amount of Restricted Payments;

Table of Contents

- (k) make any Restricted Payment if, at the time of making such payment and after giving effect thereto (including the incurrence of any Debt to finance such payments), the Consolidated Total Debt Ratio shall be no greater than 3.50 to 1.00, *provided* that such payments shall be excluded in the calculation of the amount of Restricted Payments; and
- (l) make other Restricted Payments not to exceed \$125.0 million in the aggregate from the Existing Notes Issue Date.

The amount of all Restricted Payments (other than cash) will be the Fair Market Value on the date of the Restricted Payment of the asset(s) or securities proposed to be transferred or issued by the Company or such Restricted Subsidiary, as the case may be, pursuant to the Restricted Payment.

For purposes of determining compliance with this covenant, if a Restricted Payment meets the criteria of more than one of the types of Restricted Payments described above, the Company, in its sole discretion, may order and classify, and subsequently re-order and re-classify, such Restricted Payment in any manner in compliance with this covenant.

Limitation on Liens

The Company shall not, and shall not permit any Restricted Subsidiary to, directly or indirectly, Incur or suffer to exist, any Lien (other than Permitted Liens) upon any of its Property (including Capital Stock of a Restricted Subsidiary), whether owned at the Issue Date or thereafter acquired, or any interest therein or any income or profits therefrom, if such Lien secures Debt, unless it has made or will make effective provision whereby the notes will be secured by that Lien equally and ratably with (or prior to) all other Debt of the Company or any Restricted Subsidiary secured by that Lien.

Any Lien securing the notes or Note Guaranties created pursuant to the preceding paragraph shall provide by its terms that such Lien shall be automatically and unconditionally released and discharged upon the unconditional release and discharge of the Lien that caused the Lien securing the notes or Note Guaranties to be Incurred.

Limitation on Asset Sales

The Company shall not, and shall not permit any Restricted Subsidiary to, directly or indirectly, consummate any Asset Sale unless:

- (a) the Company or the Restricted Subsidiary receives consideration at the time of the Asset Sale at least equal to the Fair Market Value of the Property subject to that Asset Sale; and
- (b) at least 75% of the consideration paid to the Company or the Restricted Subsidiary in connection with the Asset Sale is in the form of cash, Temporary Cash Investments or other cash equivalents or the assumption by the purchaser of liabilities of the Company or any Restricted Subsidiary (other than liabilities that are by their terms subordinated to the notes) as a result of which the Company and the Restricted Subsidiaries are no longer obligated with respect to those liabilities.

For purposes of this covenant, the following shall be considered cash:

- (1) securities or other assets received by the Company or any Restricted Subsidiary from the transferee that are converted by the Company or such Restricted Subsidiary into cash within 180 days (to the extent of the cash received in that conversion);
- (2) any cash consideration paid to the Company or the Restricted Subsidiary in connection with the Asset Sale that is held in escrow or on deposit to support indemnification, adjustment of purchase price or similar obligations in respect of such Asset Sale;

Table of Contents

- (3) Productive Assets received by the Company or any Restricted Subsidiary in connection with the Asset Sale; and
- (4) accounts receivable of the disposed business retained by the Company or a Restricted Subsidiary, as the case may be, following an Asset Sale; *provided* that such accounts receivable (i) are not past due more than 90 days and (ii) do not have a payment date greater than 120 days from the date of the invoices creating such accounts receivable.

The requirement set forth in clause (b) of the first paragraph of this covenant shall also be considered satisfied if the cash received constitutes at least 75% of the consideration received by the Company or the Restricted Subsidiary in connection with such Asset Sale, determined on an after-tax basis.

The Net Available Cash (or any portion thereof) from Asset Sales may be applied by the Company or a Restricted Subsidiary, to the extent the Company or the Restricted Subsidiary elects (or is required by the terms of any Debt):

- (a) to Repay Debt of the Company or a Restricted Subsidiary (excluding, in any such case, any Debt that is owed to the Company or an Affiliate of the Company) that ranks at least *pari-passu* in right of payment with the notes, or
- (b) to acquire Productive Assets or make capital expenditures on property used or useful in the business of the Company and its Restricted Subsidiaries (including by means of an Investment in Productive Assets or capital expenditures made by a Restricted Subsidiary with Net Available Cash received by the Company or another Restricted Subsidiary).

Pending the final application of any Net Available Cash, the Company or any of its Restricted Subsidiaries may temporarily reduce revolving credit borrowings or otherwise invest Net Available Cash in any manner that is not prohibited by the indenture.

Any Net Available Cash from an Asset Sale not applied in accordance with the preceding paragraph within 360 days from the date of the receipt of that Net Available Cash or that the Company earlier elects to so designate shall constitute "*Excess Proceeds*," *provided* that a binding commitment to acquire Productive Assets or make capital expenditures pursuant to clause (b) of the preceding paragraph shall be treated as a permitted application of the Net Available Cash from the date of such commitment; *provided* that (i) such reinvestment is consummated within 180 days of the end of the 360-day period referred to in this sentence, and (ii) if such reinvestment is not consummated within the period set forth in subclause (i) or such binding commitment is terminated, the Net Available Cash not so applied will be deemed to be Excess Proceeds.

When the aggregate amount of Excess Proceeds not previously subject to a Prepayment Offer (as defined below) exceeds \$50.0 million (taking into account income earned on those Excess Proceeds, if any), the Company will be required to make an offer to purchase (the "*Prepayment Offer*") the notes, which offer shall be in the amount of the Allocable Excess Proceeds, on a pro rata basis according to principal amount, at a purchase price equal to 100% of the principal amount (or accreted value) thereof, plus accrued and unpaid interest, if any, to the purchase date (subject to the right of holders of record on the relevant record date to receive interest due on the relevant interest payment date), in accordance with the procedures (including prorating in the event of oversubscription) set forth in the indenture. To the extent that any portion of the amount of Net Available Cash remains after compliance with the preceding sentence and provided that all holders of notes have been given the opportunity to tender their notes for purchase in accordance with the indenture, the Company or such Restricted Subsidiary may use the remaining amount for any purpose permitted by the indenture and the amount of Excess Proceeds will be reset to zero.

The term "*Allocable Excess Proceeds*" will mean the product of:

- (a) the Excess Proceeds, and

Table of Contents

- (b) a fraction,
 - (1) the numerator of which is the aggregate principal amount of the notes outstanding on the date of the Prepayment Offer, and
 - (2) the denominator of which is the sum of the aggregate principal amount of the notes outstanding on the date of the Prepayment Offer and the aggregate principal amount of other Debt of the Company outstanding on the date of the Prepayment Offer that is *pari-passu* in right of payment with the notes and subject to terms and conditions in respect of Asset Sales similar in all material respects to the covenant described hereunder and requiring the Company to make an offer to purchase that Debt at substantially the same time as the Prepayment Offer.

Not later than five business days after the Company is obligated to make a Prepayment Offer as described in the preceding paragraph, the Company shall send, or cause to be sent, a written notice, by first-class mail (or electronic transmission in the case of notes held in book-entry form), to the holders of notes, accompanied by information regarding the Company and its Subsidiaries as the Company in good faith believes will enable the holders to make an informed decision with respect to that Prepayment Offer. The notice shall state, among other things, the purchase price and the purchase date, which shall be, subject to any contrary requirements of applicable law, a business day no earlier than 30 days and no later than 60 days from the date the notice is mailed.

The Company will comply, to the extent applicable, with the requirements of Section 14(e) of the Exchange Act and any other securities laws or regulations in connection with the repurchase of notes pursuant to the covenant described hereunder. To the extent that the provisions of any securities laws or regulations conflict with provisions of the covenant described hereunder, the Company will comply with the applicable securities laws and regulations and will not be deemed to have breached its obligations under the covenant described hereunder by virtue thereof.

Limitation on Restrictions on Distributions from Restricted Subsidiaries

The Company shall not, and shall not permit any Restricted Subsidiary to, directly or indirectly, create or otherwise cause or suffer to exist any consensual restriction on the right of any Restricted Subsidiary to:

- (x) pay dividends, in cash or otherwise, or make any other distributions on or in respect of its Capital Stock, or pay any Debt or other obligation owed, to the Company or any other Restricted Subsidiary,
- (y) make any loans or advances to the Company or any other Restricted Subsidiary, or
- (z) transfer any of its Property to the Company or any other Restricted Subsidiary.

The foregoing limitations will not apply to restrictions:

- (a) in effect on the Issue Date,
- (b) relating to Debt of a Restricted Subsidiary existing at the time it became a Restricted Subsidiary if such restriction was not created in connection with or in anticipation of the transaction or series of transactions pursuant to which that Restricted Subsidiary became a Restricted Subsidiary or was acquired by the Company,
- (c) that result from the Refinancing of Debt Incurred pursuant to an agreement referred to in clauses (a) or (b) above or in clauses (d), (h) (i) or (p) below; *provided* that the restrictions, taken as a whole, are no less favorable to the holders of notes in any material respect (as determined in good faith by the Company's Board of Directors) than the restrictions of the same type contained in the agreement evidencing the Debt so Refinanced,
- (d) resulting from the Incurrence of any Permitted Debt described in the second paragraph of the covenant described under "—Limitation on Debt," *provided* that the restrictions, taken as a whole,

[Table of Contents](#)

are no less favorable to the holders of notes in any material respect (as determined in good faith by the Company's Board of Directors) than the restrictions of the same type contained in the indenture,

- (e) existing by reason of applicable law,
- (f) constituting Standard Securitization Undertakings relating solely to, and restricting only the rights of, a Receivables Entity in connection with a Qualified Receivables Transaction,
- (g) existing pursuant to any Debt Incurred by a Foreign Restricted Subsidiary, which restrictions are customary for a financing of such type, and which are otherwise permitted under the indenture; *provided* that the Company's Board of Directors determines in good faith that such restrictions are not reasonably likely to impair the Company's ability to make principal and interest payments on the notes,
- (h) relating to Debt that is permitted to be Incurred and secured pursuant to the covenants described under "—Limitation on Debt" and "—Limitation on Liens" that limit the right of the debtor to dispose of the Property securing that Debt,
- (i) encumbering Property at the time the Property was acquired by the Company or any Restricted Subsidiary, so long as the restriction relates solely to the Property so acquired and was not created in connection with or in anticipation of the acquisition,
- (j) resulting from customary provisions restricting subletting or assignment of leases or customary provisions in other agreements (including, without limitation, intellectual property licenses entered into in the ordinary course of business) that restrict assignment of the agreements or rights thereunder,
- (k) which are customary restrictions contained in asset sale agreements limiting the transfer of Property pending the closing of the sale,
- (l) in agreements in respect of Liens permitted to be incurred under the provisions of the covenant described above under the caption "—Liens", and the security documents relating thereto, that limit the right of the debtor to dispose of the assets subject to such Liens;
- (m) contained in agreements governing Hedging Obligations permitted under the indenture;
- (n) relating to the issuance of preferred stock by a Restricted Subsidiary or the payment of dividends thereon in accordance with the terms thereof; *provided* that issuance of such preferred stock is permitted pursuant to the covenant described under the caption "—Limitation on Debt" and the terms of such preferred stock do not expressly restrict the ability of a Restricted Subsidiary to pay dividends or make any other distributions on its Capital Stock (other than requirements to pay dividends or liquidation preferences on such preferred stock prior to paying any dividends or making any other distributions on such other Capital Stock);
- (o) in Debt Incurred or Capital Stock issued by any Restricted Subsidiary; *provided* that the restrictions contained in the agreements or instruments governing such Debt or Capital Stock (x) apply only in the event of a payment default or a default with respect to a financial covenant in such agreement or instrument or (y) will not materially affect the Company's ability to pay all principal, interest and premium, if any, on the notes, as determined in good faith by the Company;
- (p) in any agreement or other instrument of a Unrestricted Subsidiary that is designated a Restricted Subsidiary, in each case that is in existence at the time of such designation (but not created in contemplation of or in connection thereof);
- (q) in or in respect of Capital Lease Obligations, security agreements, mortgages, purchase money agreements or similar instruments to the extent such encumbrance or restriction restricts the transfer of the property (including Capital Stock) subject to such Capital Lease Obligations, security agreements, mortgages, purchase money agreements or similar instruments,

Table of Contents

- (r) on cash or other deposits or net worth requirements or similar requirements, imposed by suppliers, landlords or customers or required by insurance, security or bonding companies, or
- (s) contained in contracts entered into in the ordinary course of business, not relating to any Debt, and that do not, taken as a whole, detract from the value of, or from the ability of the Company and its Restricted Subsidiaries to realize the value of, property or assets of the Company or any Restricted Subsidiary in any manner material to the Company or any Restricted Subsidiary, as determined in good faith by the Company.

Limitation on Transactions with Affiliates

The Company shall not, and shall not permit any Restricted Subsidiary to, directly or indirectly, conduct any business or enter into or suffer to exist any transaction or series of transactions (including the purchase, sale, transfer, assignment, lease, conveyance or exchange of any Property or the rendering of any service) with, or for the benefit of, any Affiliate of the Company, involving aggregate consideration payable to or from the Company or a Restricted Subsidiary in excess of \$20.0 million (an “*Affiliate Transaction*”), unless:

- (a) the terms of such Affiliate Transaction are no less favorable to the Company or that Restricted Subsidiary, as the case may be, than those that could be obtained in a comparable arm’s-length transaction with a Person that is not an Affiliate of the Company, and
- (b) if the Affiliate Transaction involves aggregate payments or value in excess of \$40.0 million, the Board of Directors (including a majority of the disinterested members of the Board of Directors) approves the Affiliate Transaction and, in its good faith judgment, believes that the Affiliate Transaction complies with clause (a) of this paragraph as evidenced by a Board Resolution promptly delivered to the trustee.

Notwithstanding the foregoing limitation, the Company or any Restricted Subsidiary may enter into or suffer to exist the following:

- (a) any transaction or series of transactions between the Company and one or more Restricted Subsidiaries or between two or more Restricted Subsidiaries;
- (b) any Restricted Payment permitted to be made pursuant to the covenant described under “—Limitation on Restricted Payments” or any Permitted Investment (other than under clauses (a) or (b) of the definition thereof);
- (c) the payment of reasonable compensation (including amounts paid pursuant to employee benefit plans and equity incentive plans) for the personal services of, and related indemnities provided to, officers, directors and employees of the Company or any of the Restricted Subsidiaries;
- (d) (i) reimbursement of employee travel and lodging costs and other business expenses incurred in the ordinary course of business and (ii) loans and advances to employees made in the ordinary course of business in compliance with applicable laws and consistent with the past practices of the Company or that Restricted Subsidiary, as the case may be; *provided* that those loans and advances under this clause (ii) do not exceed \$20.0 million in the aggregate at any one time outstanding;
- (e) any transaction effected as part of a Qualified Receivables Transaction or any transaction involving the transfer of accounts receivable of the type specified in the definition of “Credit Facilities” and permitted under clause (c) of the second paragraph of the covenant described under “—Limitation on Debt”;
- (f) any sale of shares of Capital Stock (other than Disqualified Stock) of the Company;
- (g) any agreement as in effect on the Issue Date or any amendment thereto (so long as such amendment is not materially adverse to the interests of the holders of the notes) or any transaction contemplated thereby;

Table of Contents

- (h) transactions between the Company or any of its Restricted Subsidiaries and any Person that would not otherwise constitute an Affiliate Transaction except for the fact that a director or manager of such Person is also a director or manager of the Company or such Restricted Subsidiary, as applicable; *provided* that such director or manager abstains from voting as a director or manager of the Company or such Restricted Subsidiary, as applicable, on such transaction;
- (i) any transaction in which the Company or any of its Restricted Subsidiaries, as the case may be, delivers to the trustee a letter from an accounting, appraisal, advisory or investment banking firm of national standing stating that such transaction is fair to the Company or such Restricted Subsidiary from a financial point of view or that such transaction meets the requirements of clause (a) of the preceding paragraph;
- (j) any Affiliate Transaction with a Person in its capacity as a holder of Debt or Capital Stock of the Company or any Restricted Subsidiary of the Company if such Person is treated no more favorably than the other holders of Debt or Capital Stock of the Company or such Restricted Subsidiary;
- (k) transactions with any joint venture entered into in the ordinary course of business; and
- (l) transactions with Unrestricted Subsidiaries, customers, clients, suppliers or purchasers or sellers of goods or services, or lessors or lessees of property, in each case in the ordinary course of business and otherwise in compliance with the indenture which are, in the aggregate (taking into account all the costs and benefits associated with such transactions), not materially less favorable to the Company and its Restricted Subsidiaries than those contained in similar contracts entered into by the Company or any of its Restricted Subsidiaries with unrelated third parties, or if neither the Company nor any Restricted Subsidiary has entered into a similar contract with a third party, then on the terms no less favorable than those available from third parties on an arm's-length basis, in each case as determined in good faith by the Company.

Designation of Restricted and Unrestricted Subsidiaries

The Board of Directors may designate any Subsidiary of the Company to be an Unrestricted Subsidiary if:

- (a) the Subsidiary to be so designated does not own any Capital Stock or Debt of, or own or hold any Lien on any Property of, the Company or any other Restricted Subsidiary, and
- (b) either:
 - (1) the Subsidiary to be so designated has total assets of \$1,000 or less, or
 - (2) if the Subsidiary has consolidated assets greater than \$1,000, then the designation would be permitted under the covenant entitled “— Limitation on Restricted Payments.”

Unless so designated as an Unrestricted Subsidiary, any Person that becomes a Subsidiary of the Company will be classified as a Restricted Subsidiary; *provided* that the Subsidiary shall not be designated a Restricted Subsidiary and shall be automatically classified as an Unrestricted Subsidiary if the Person is a Subsidiary of an Unrestricted Subsidiary.

Except as provided in the first sentence of the preceding paragraph, no Restricted Subsidiary may be redesignated as an Unrestricted Subsidiary. In addition, neither the Company nor any Restricted Subsidiary shall at any time be directly or indirectly liable for any Debt that provides that the holder thereof may (with the passage of time or notice or both) declare a default thereon or cause the payment thereof to be accelerated or payable prior to its Stated Maturity upon the occurrence of a default with respect to any Debt, Lien or other obligation of any Unrestricted Subsidiary in existence and classified as an Unrestricted Subsidiary at the time the Company or the Restricted Subsidiary is liable for that Debt (including any right to take enforcement action against that Unrestricted Subsidiary).

Table of Contents

The Board of Directors may designate any Unrestricted Subsidiary to be a Restricted Subsidiary if, immediately after giving *pro-forma* effect to the designation,

- (x) the Company could Incur at least \$1.00 of additional Debt pursuant to clause (1) of the first paragraph of the covenant described under “—Limitation on Debt,” and
- (y) no Default or Event of Default shall have occurred and be continuing or would result therefrom.

Any designation or redesignation of this kind by the Board of Directors will be evidenced to the trustee by filing with the trustee a Board Resolution giving effect to the designation or redesignation and an Officers’ Certificate that:

- (a) certifies that the designation or redesignation complies with the foregoing provisions, and
- (b) gives the effective date of the designation or redesignation, and the filing with the trustee to occur after the end of the fiscal quarter of the Company in which the designation or redesignation is made within the time period for which reports are required to be provided under “—SEC Reports.”

Additional Note Guaranties

If any Domestic Restricted Subsidiary Guarantees or becomes an obligor under the Company’s Credit Agreement following the Issue Date, such Domestic Restricted Subsidiary shall promptly provide a Note Guaranty by executing and delivering to the trustee a supplemental indenture, pursuant to which such Guarantor shall Guarantee payment of the notes, and related Officers’ Certificates and opinions of counsel required under the indenture; *provided* that the preceding shall not apply to any Unrestricted Subsidiary for so long as it continues to be an Unrestricted Subsidiary. Notwithstanding the preceding, any Note Guarantee of a Restricted Subsidiary that was incurred pursuant to this paragraph may provide by its terms that it shall be automatically and unconditionally released at such time as such Guarantor ceases to be a guarantor or other obligor under the Credit Agreement (other than upon a discharge of a guarantee thereof through payment thereon).

Merger, Consolidation and Sale of Property

The Company

The Company shall not merge, consolidate or amalgamate with or into any other Person (other than a merger of a Wholly Owned Restricted Subsidiary into the Company) or sell, transfer, assign, lease, convey or otherwise dispose of all or substantially all its Property in any one transaction or series of transactions unless:

- (a) the Company shall be the surviving Person (the “*Surviving Person*”) or the Surviving Person (if other than the Company) formed by that merger, consolidation or amalgamation or to which that sale, transfer, assignment, lease, conveyance or disposition of all or substantially all its Property is made shall be an entity organized and existing under the laws of the United States of America, any State thereof or the District of Columbia; *provided* that, if the surviving entity is not a corporation, the Company shall cause a corporation to be added as a co-issuer of the notes;
- (b) the Surviving Person (if other than the Company) expressly assumes, by supplemental indenture in form satisfactory to the trustee, executed and delivered to the trustee by that Surviving Person, the due and punctual payment of the principal of, and premium, if any, and interest on, all the notes, according to their tenor, and the due and punctual performance and observance of all the covenants and conditions of the indenture and the registration rights agreement to be performed by the Company;
- (c) immediately before and after giving effect to that transaction or series of transactions on a *pro-forma* basis (and treating, for purposes of this clause (c) and clause (d) below, any Debt that becomes, or is anticipated to become, an obligation of the Surviving Person or any Restricted Subsidiary as a result of that transaction or series of transactions as having been Incurred by the Surviving Person or the Restricted Subsidiary at the time of that transaction or series of transactions), no Default or Event of Default shall have occurred and be continuing;

Table of Contents

- (d) immediately after giving effect to that transaction or series of transactions on a *pro-forma* basis, the Company or the Surviving Person, as the case may be, (i) would be able to Incur at least \$1.00 of additional Debt under clause (1) of the first paragraph of the covenant described under “— Limitation on Debt” or (ii) the Consolidated Fixed Charges Coverage Ratio of the Company or the Surviving Person, as applicable, would be greater than or equal to such ratio immediately prior to such transaction; *provided* that this clause (d) shall not be applicable to the Company merging, consolidating or amalgamating with or into an Affiliate incorporated solely for the purpose of reincorporating the Company in another State of the United States so long as the amount of Debt of the Company and the Restricted Subsidiaries is not increased thereby; and
- (e) the Company shall deliver, or cause to be delivered, to the trustee, in form and substance reasonably satisfactory to the trustee, an Officers’ Certificate and an Opinion of Counsel, each stating that the transaction and the supplemental indenture, if any, in respect thereto comply with this covenant and that all conditions precedent herein provided for relating to the transaction have been satisfied.

The surviving entity will succeed to, and be substituted for, and may exercise every right and power of, the Company under the indenture and the predecessor Company shall be discharged and released from all obligations under the indenture and the notes; *provided* that the Company will not be released from the obligation to pay the principal of, premium, if any, and interest on the notes in the case of a sale, transfer, assignment, conveyance or other disposition (unless that sale, transfer, assignment, conveyance or other disposition is of all the assets of the Company as an entirety) or a lease of all or substantially all of the Company’s properties or assets in a transaction that is subject to, and that complies with the provisions of, this covenant.

Clauses (c) and (d) of the first paragraph of this covenant will not apply to any merger or consolidation of the Company with or into one of its Restricted Subsidiaries for any purpose.

Guarantors

No Guarantor may

- merge, consolidate or amalgamate with or into any other Person, or
 - sell, transfer, assign, lease, convey or otherwise dispose of all or substantially all its Property in any one transaction or series of transactions, or
 - permit any Person to merge, consolidate or amalgamate with or into the Guarantor unless
- (A) the other Person is the Company or any Restricted Subsidiary that is a Guarantor or becomes a Guarantor concurrently with the transaction; or
 - (B) (1) either (x) the Guarantor is the continuing Person or (y) the resulting, surviving or transferee Person expressly assumes by supplemental indenture all of the obligations of the Guarantor under its Note Guaranty; and
(2) immediately after giving effect to the transaction, no Default has occurred and is continuing; or
 - (C) the transaction constitutes a sale or other disposition (including by way of consolidation or merger) of the Guarantor or the sale or disposition of all or substantially all the Property of the Guarantor (in each case other than to the Company or a Domestic Restricted Subsidiary) otherwise permitted by the indenture.

SEC Reports

Notwithstanding that the Company may not be subject to the reporting requirements of Section 13 or 15(d) of the Exchange Act, the Company shall file with the SEC and provide the trustee and holders of notes with annual reports and information, documents and other reports as are specified in Sections 13 and 15(d) of the

Exchange Act and applicable to a U.S. corporation subject to those Sections, and the information, documents and reports to be so filed and provided at the times specified for the filing of the information, documents and reports under those Sections (including any applicable grace period or extension available thereunder or under the rules and regulations promulgated by the SEC); *provided* that (i) the Company shall not be so obligated to file the information, documents and reports with the SEC if the SEC does not permit those filings (but shall provide them to the trustee and the holders of notes within the time periods specified in those Sections) and (ii) the electronic filing with the SEC through the SEC's Electronic Data Gathering, Analysis, and Retrieval System (or any successor system providing for free public access to such filings) shall satisfy the Company's obligation to provide such reports, information and documents to the trustee and the holders of notes. The availability of the foregoing materials on a freely accessible page on the Company's website also shall be deemed to satisfy the foregoing delivery obligations.

The Trustee shall have no obligation to determine if and when the Company's financial statements or any other reports are publicly available and accessible electronically or on the Company's website. Delivery of such reports, information and documents to the trustee shall be for informational purposes only and the trustee's receipt of such shall not constitute constructive notice of any information contained therein or determinable from information contained therein, including the compliance by us with any of the covenants contained in the indenture (as to which the trustee will be entitled to conclusively rely upon an Officers' Certificate).

If any direct or indirect parent company of the Company becomes a guarantor of the notes, the Company may satisfy its obligations in this covenant with respect to financial information relating to the Company by furnishing financial information relating to such parent company; *provided* that the same is accompanied by consolidating information that explains in reasonable detail the differences between the information relating to such parent, on the one hand, and the information relating to the Company and its Subsidiaries on a standalone basis, on the other hand.

Events of Default

Events of Default in respect of the notes include:

- (1) failure to make the payment of any interest on the notes when the same becomes due and payable, and that failure continues for a period of 30 days;
- (2) failure to make the payment of any principal of, or premium, if any, on, any of the notes when the same becomes due and payable at its Stated Maturity, upon acceleration, redemption, optional redemption, required repurchase or otherwise;
- (3) failure to comply with the covenant described under "—Certain Covenants—Merger, Consolidation and Sale of Property";
- (4) failure to comply with any other covenant or agreement in the notes or in the indenture (other than a failure that is the subject of the foregoing clause (1), (2) or (3)) and such failure continues for 30 days (180 days in the case of a failure to comply with a provision under "—Certain Covenants—SEC Reports") after written notice is given to the Company as provided below;
- (5) a default under any Debt by the Company or any Restricted Subsidiary that results in acceleration of the maturity of that Debt, or failure to pay any Debt at maturity, in an aggregate amount greater than \$50.0 million or its foreign currency equivalent at the time (the "cross acceleration provisions");
- (6) any judgment or judgments for the payment of money in an aggregate amount in excess of \$50.0 million (or its foreign currency equivalent at the time) (net of amounts covered by insurance or bonded) that shall be rendered against the Company or any Restricted Subsidiary and that shall not be waived, satisfied, annulled, discharged or rescinded for any period of 30 consecutive days during which a stay of enforcement shall not be in effect (the "judgment default provisions");

Table of Contents

- (7) specified events involving bankruptcy, insolvency or reorganization of the Company or any Significant Subsidiary (the “bankruptcy provisions”); and
- (8) any Note Guaranty by any Significant Subsidiary ceases to be in full force and effect, other than in accordance with the terms of the indenture, or a Guarantor denies or disaffirms its obligations under its Note Guaranty (the “note guaranty provisions”).

A Default under clause (4) is not an Event of Default until the trustee or the holders of not less than 25% in aggregate principal amount of the notes then outstanding notify the Company of the Default and the Company does not cure that Default within the time specified after receipt of the notice. The notice must specify the Default, demand that it be remedied and state that the notice is a “Notice of Default.”

The Trustee shall not be deemed to have notice of a Default or an Event of Default unless an officer of the Trustee with direct responsibility for the administration of the Indenture has received written notice thereof (in accordance with the notice provisions of the Indenture) from the Company or any Holder and such notice references the Notes and the Indenture.

The Company shall deliver to the trustee, within 30 days after the occurrence thereof, written notice in the form of an Officers’ Certificate of any event that with the giving of notice and the lapse of time would become an Event of Default, its status and what action the Company is taking or proposes to take with respect thereto.

If an Event of Default with respect to the notes (other than an Event of Default resulting from particular events involving bankruptcy, insolvency or reorganization with respect to the Company) shall have occurred and be continuing, the trustee or the registered holders of not less than 25% in aggregate principal amount of notes then outstanding may declare to be immediately due and payable the principal amount of all the notes then outstanding, plus accrued but unpaid interest to the date of acceleration. In case an Event of Default resulting from events of bankruptcy, insolvency or reorganization with respect to the Company shall occur, the amount with respect to all the notes shall be due and payable immediately without any declaration or other act on the part of the trustee or the holders of the notes. After any such acceleration, but before a judgment or decree based on acceleration is obtained by the trustee, the registered holders of a majority in aggregate principal amount of the notes then outstanding may, under some circumstances, rescind and annul the acceleration if all Events of Default, other than the nonpayment of accelerated principal, premium or interest, have been cured or waived as provided in the indenture.

Notwithstanding the foregoing, if an Event of Default described in clause (5) above shall have occurred and be continuing, such Event of Default and any consequential acceleration (to the extent not in violation of any applicable law or in conflict with any judgment or decree of a court of competent jurisdiction) shall be automatically rescinded if (a) the default relating to such Debt is waived by the holders of such Debt or cured and if such Debt has been accelerated, then the holders thereof have rescinded their declaration of acceleration in respect of such Debt, (b) any other existing Events of Default, except nonpayment of principal, premium, if any, or interest on the notes that became due solely because of the acceleration of the notes, have been cured or waived and (c) there has been deposited with the Trustee a sum sufficient to pay all sums paid or advanced by the Trustee and the reasonable compensation, expenses, disbursements and advances of the Trustee, its agents and counsel incurred in connection with the rescinded Event of Default.

Subject to the provisions of the indenture relating to the duties of the trustee, in case an Event of Default shall occur and be continuing, the trustee will be under no obligation to exercise any of its rights or powers under the indenture at the request or direction of any of the holders of the notes, unless the holders shall have offered to the trustee reasonable indemnity. Subject to the provisions for the indemnification of the trustee, the holders of a majority in aggregate principal amount of the notes then outstanding will have the right to direct the time, method and place of conducting any proceeding for any remedy available to the trustee or exercising any trust or power conferred on the trustee with respect to the notes.

Table of Contents

No holder of notes will have any right to institute any proceeding with respect to the indenture, or for the appointment of a receiver or trustee, or for any remedy thereunder, unless:

- (a) that holder has previously given to the trustee written notice of a continuing Event of Default,
- (b) the registered holders of at least 25% in aggregate principal amount of the notes then outstanding have made written request and offered reasonable indemnity to the trustee to institute the proceeding as trustee, and
- (c) the trustee shall not have received from the registered holders of a majority in aggregate principal amount of the notes then outstanding a direction inconsistent with that request and shall have failed to institute the proceeding within 60 days.

However, these limitations do not apply to a suit instituted by a holder of any note for enforcement of payment of the principal of, and premium, if any, or interest on, that note on or after the respective due dates expressed in that note. The trustee shall not be deemed to have notice of any Default or Event of Default unless an officer of the Trustee having direct responsibility for the administration of the indenture has received written notice of any such event and such notice references the notes and the indenture.

Amendments and Waivers

Subject to some exceptions, the indenture may be amended with the consent of the registered holders of a majority in aggregate principal amount of the notes then outstanding (including consents obtained in connection with a tender offer or exchange offer for the notes) and any past default or compliance with any provisions may also be waived with the consent of the registered holders of a majority in aggregate principal amount of the notes then outstanding (including waivers obtained in connection with a tender offer or exchange offer for the notes), except a default in the payment of principal, premium, if any, or interest and particular covenants and provisions of the indenture which cannot be amended without the consent of each holder of an outstanding note. However, without the consent of each holder of an outstanding note affected thereby, no amendment may, among other things,

- (1) reduce the amount of notes whose holders must consent to an amendment or waiver,
- (2) reduce the rate of or extend the time for payment of interest on any note,
- (3) reduce the principal of or extend the Stated Maturity of any note,
- (4) make any note payable in money other than U.S. dollars,
- (5) impair the right of any holder of the notes to receive payment of principal of and interest on that holder's notes on or after the due dates therefor or to institute suit for the enforcement of any payment on or with respect to that holder's notes,
- (6) subordinate the notes to any other obligation of the Company,
- (7) reduce the premium payable upon the redemption of any note or change the time at which any note may be redeemed, as described under "— Optional Redemption,"
- (8) at any time after a Change of Control has occurred, reduce the premium payable upon a Change of Control or change the time at which the Change of Control Offer relating thereto must be made or at which the notes must be repurchased pursuant to that Change of Control offer, or
- (9) at any time after the Company is obligated to make a Prepayment Offer with the Excess Proceeds from Asset Sales, change the time at which the Prepayment Offer must be made or at which the notes must be repurchased pursuant thereto.

Without the consent of any holder of the notes, the Company and the trustee may amend the indenture to:

- (1) cure any ambiguity, omission, defect or inconsistency,

Table of Contents

- (2) provide for the assumption by a successor of the obligations of the Company or any Guarantor under the indenture,
- (3) provide for uncertificated notes in addition to or in place of certificated notes; *provided* that the uncertificated notes are issued in registered form for purposes of Section 163(f) of the Code, or in a manner such that the uncertificated notes are described in Section 163(f)(2)(B) of the Code,
- (4) add Guarantees with respect to the notes or release Guarantors from their Note Guaranties as provided by the terms of the indenture or the Note Guaranties,
- (5) secure the notes or the Note Guarantees (and, thereafter, provide releases of collateral in accordance with the security documents entered into in connection therewith), add to the covenants of the Company for the benefit of the holders of the notes or surrender any right or power conferred upon the Company,
- (6) make any change that does not adversely affect the rights of any holder of the notes,
- (7) comply with any requirement of the SEC in connection with the qualification of the indenture under the Trust Indenture Act,
- (8) provide for the issuance of additional notes in accordance with the indenture,
- (9) conform any provisions to this “Description of Exchange Notes,”
- (10) to evidence or provide for the acceptance of appointment under the indenture of a successor trustee;
- (11) to provide for the addition of a corporate co-issuer in accordance with the covenant described under the subheading “—Certain Covenants— Merger, Consolidation or Sale of Assets; ”or
- (12) to add covenants or Events of Default for the benefit of the holders or surrender any right or power conferred upon the Company or any Guarantor.

The consent of the holders of the notes is not necessary to approve the particular form of any proposed amendment. It is sufficient if such consent approves the substance of the proposed amendment. After an amendment becomes effective, the Company is required to mail, or cause to be mailed, to each registered holder of the notes at the holder’s address appearing in the security register a notice briefly describing the amendment. However, the failure to give this notice to all holders of the notes, or any defect therein, will not impair or affect the validity of the amendment. In connection with any modification, amendment or supplement, we will deliver to the trustee an Opinion of Counsel and an Officers’ Certificate upon which the trustee may conclusively rely, each stating that such modification, amendment or supplement complies with the applicable provisions of the indenture.

Defeasance and Discharge

The Company may discharge its obligations under the notes and the indenture by irrevocably depositing in trust with the trustee money or Government Obligations sufficient to pay principal of and interest on the notes to maturity or redemption within one year, subject to meeting certain other conditions.

The Company at any time may also terminate all its obligations under the notes and the indenture (“legal defeasance”), except for particular obligations, including those respecting the defeasance trust and obligations to register the transfer or exchange of the notes, to replace mutilated, destroyed, lost or stolen notes and to maintain a registrar and paying agent in respect of the notes. The Company at any time may terminate:

- (1) its obligations under the covenants described under “—Repurchase at the Option of Holders Upon a Change of Control” and “—Certain Covenants” above,
- (2) the operation of the cross acceleration provisions, the judgment default provisions, the bankruptcy provisions with respect to Significant Subsidiaries and the note guaranty provisions, described under “—Events of Default” above, and

Table of Contents

- (3) the limitations contained in clause (d) under the first paragraph of “—Certain Covenants—Merger, Consolidation and Sale of Property” above (“covenant defeasance”).

The Company may exercise its legal defeasance option notwithstanding its prior exercise of its covenant defeasance option.

If the Company exercises its legal defeasance option, payment of the notes may not be accelerated because of an Event of Default with respect thereto. If the Company exercises its covenant defeasance option, payment of the notes may not be accelerated because of an Event of Default specified in clause (4) (with respect to the covenants described under “—Certain Covenants”), (5), (6), (7) (with respect only to Significant Subsidiaries) or (8) under “—Events of Default” above or because of the failure of the Company to comply with clause (e) under the first paragraph of “—Merger, Consolidation and Sale of Property” above. The legal defeasance option or the covenant defeasance option may be exercised only if:

- (a) the Company irrevocably deposits in trust with the trustee money in U.S. dollars or U.S. dollar- denominated Government Obligations for the payment of principal of and interest (including premium, if any) on the notes to maturity or redemption;
- (b) the Company delivers to the trustee a certificate of a nationally recognized accounting firm expressing their opinion that the payments of principal and interest when due and without reinvestment on the deposited Government Obligations plus any deposited money without investment will provide cash at the times and in amounts as will be sufficient to pay principal and interest (including premium, if any) when due on all the notes to maturity or redemption, as the case may be;
- (c) 123 days pass after the deposit is made and during the 123-day period no Default described in clause (7) under “—Events of Default” occurs with respect to the Company or any other Person making the deposit which is continuing at the end of the period;
- (d) no Default or Event of Default has occurred and is continuing on the date of the deposit and after giving effect thereto;
- (e) the deposit does not constitute a default under any other agreement or instrument binding on the Company;
- (f) in the case of the legal defeasance option, the Company delivers to the trustee an Opinion of Counsel stating that:
- (1) the Company has received from the Internal Revenue Service a ruling, or
- (2) since the Issue Date there has been a change in the applicable Federal income tax law,
- to the effect, in either case, that, and based thereon the Opinion of Counsel shall confirm that, the beneficial owners of the notes will not recognize income, gain or loss for U.S. federal income tax purposes as a result of the defeasance and will be subject to U.S. federal income tax on the same amounts, in the same manner and at the same times as would have been the case if the defeasance had not occurred;
- (g) in the case of the covenant defeasance option, the Company delivers to the trustee an Opinion of Counsel to the effect that the beneficial owners of the notes will not recognize income, gain or loss for Federal income tax purposes as a result of that covenant defeasance and will be subject to U.S. federal income tax on the same amounts, in the same manner and at the same times as would have been the case if that covenant defeasance had not occurred; and
- (h) the Company delivers to the trustee an Officers’ Certificate and an Opinion of Counsel, each stating that all conditions precedent to the defeasance and discharge of the notes have been complied with as required by the indenture.

In the case of either discharge or defeasance, the Note Guaranties, if any, will terminate.

THE EXCHANGE OFFER

Purpose of the Exchange Offer

In connection with the issuance of the Original Notes, we entered into a registration rights agreement with the initial purchasers of the Original Notes for the benefit of the holders of the Original Notes, pursuant to which we agreed, among other things, to use our commercially reasonable efforts to file and to have declared effective an exchange offer registration statement under the Securities Act and to consummate an exchange offer.

We are making the exchange offer in reliance on the position of the SEC as set forth in certain no-action letters. However, we have not sought our own no-action letter. Based upon these interpretations by the SEC, we believe that a holder of Exchange Notes who exchanges Original Notes for Exchange Notes in the exchange offer generally may offer the Exchange Notes for resale, sell the Exchange Notes and otherwise transfer the Exchange Notes without further registration under the Securities Act and without delivery of a prospectus that satisfies the requirements of Section 10 of the Securities Act. This does not apply, however, to a holder who is our “affiliate” within the meaning of Rule 405 of the Securities Act. We also believe that a holder may offer, sell or transfer the Exchange Notes only if the holder acknowledges that the holder is acquiring the Exchange Notes in the ordinary course of its business and is not participating, does not intend to participate and has no arrangement or understanding with any person to participate in a distribution of the Exchange Notes.

Any holder of the Original Notes using the exchange offer to participate in a distribution of Exchange Notes also cannot rely on the no-action letters referred to above. Any broker-dealer who holds Original Notes acquired for its own account as a result of market-making activities or other trading activities and who receives Exchange Notes in exchange for such Original Notes pursuant to the exchange offer may be a statutory underwriter, must deliver a prospectus meeting the requirements of the Securities Act in connection with any resale of such Exchange Notes and must acknowledge such delivery requirement. See “Plan of Distribution.”

Except as described above, this prospectus may not be used for an offer to resell, resale or other transfer of Exchange Notes.

The exchange offer is not being made to, nor will we accept tenders for exchange from, holders of Original Notes in any jurisdiction in which the exchange offer or the acceptance of it would not be in compliance with the securities or blue sky laws of such jurisdiction.

Terms of the Exchange

Upon the terms and subject to the conditions of the exchange offer we will accept any and all Original Notes validly tendered prior to 11:59 p.m., New York time, on the Expiration Date (as defined below) for the exchange offer. Promptly after the Expiration Date (unless extended as described in this prospectus), we will issue an aggregate principal amount of up to \$450,000,000 of Exchange Notes for a like principal amount of outstanding Original Notes tendered and accepted in connection with the exchange offer. The Exchange Notes issued in connection with the exchange offer will be delivered promptly after the Expiration Date. Holders may tender some or all of their Original Notes in connection with the exchange offer, but only in principal amounts of \$2,000 or in integral multiples of \$1,000 in excess thereof.

The terms of the Exchange Notes will be identical to the terms of the Original Notes, except that the Exchange Notes will have been registered under the Securities Act and the transfer restrictions and registration rights and related additional interest provisions applicable to the Original Notes do not apply to the Exchange Notes. The Exchange Notes will evidence the same debt as the Original Notes and will be issued under the same indenture and be entitled to the same benefits under that Indenture as the Original Notes being exchanged. As of the date of this prospectus, \$450,000,000 in aggregate principal amount of the Original Notes are outstanding.

In connection with the issuance of the Original Notes, we arranged for the Original Notes purchased by qualified institutional buyers and those sold in reliance on Regulation S under the Securities Act to be issued and transferable in book-entry form through the facilities of DTC, acting as depositary. Except as described under

[Table of Contents](#)

“Book-Entry, Delivery and Form”, Exchange Notes will be issued in the form of a global note registered in the name of DTC or its nominee and each beneficial owner’s interest in it will be transferable in book-entry form through DTC. See “Book-Entry, Delivery and Form.”

Holders of Original Notes do not have any appraisal or dissenters’ rights in connection with the exchange offer. Original Notes that are not tendered for exchange or are tendered but not accepted in connection with the exchange offer will remain outstanding and be entitled to the benefits of the indenture, but certain registration and other rights under the registration rights agreement will terminate and holders of the Original Notes will generally not be entitled to any registration rights under the registration rights agreement. See “—Consequences of Failures to Properly Tender Original Notes in the Exchange Offer.”

We shall be considered to have accepted validly tendered Original Notes if and when we have given oral (to be followed by prompt written notice) or written notice to the Exchange Agent (as defined below). The Exchange Agent will act as agent for the tendering holders for the purposes of receiving the Exchange Notes from us.

If any tendered Original Notes are not accepted for exchange because of an invalid tender, the occurrence of certain other events described in this prospectus or otherwise, we will return the Original Notes, without expense, to the tendering holder promptly after the Expiration Date for the Exchange Offer.

Holders who tender Original Notes will not be required to pay brokerage commissions or fees or, subject to the instructions in the letter of transmittal, transfer taxes on exchange of Original Notes in connection with the exchange offer. We will pay all charges and expenses, other than certain applicable taxes described below, in connection with the exchange offer. See “—Fees and Expenses.”

Expiration Date; Extensions; Amendments

The “Expiration Date” for the exchange offer is 11:59 p.m., New York City time, on Monday, April 4, 2016, unless extended by us in our sole discretion, in which case the term “Expiration Date” shall mean the latest date and time to which the exchange offer is extended.

We reserve the right, in our sole discretion:

- to delay accepting any Original Notes, to extend the exchange offer or to terminate the exchange offer if, in our reasonable judgment, any of the conditions described below shall not have been satisfied, by giving oral (to be followed by prompt written notice) or written notice of the delay, extension or termination to the Exchange Agent; or
- to amend the terms of the exchange offer in any manner.

If we amend the exchange offer in a manner that we consider material, we will disclose such amendment by means of a prospectus supplement, and we will extend the Exchange Offer for a period of five to ten business days.

If we determine to extend, amend or terminate the exchange offer, we will publicly announce this determination by making a timely release through an appropriate news agency.

If we delay accepting any Original Notes or terminate the exchange offer, we promptly will pay the consideration offered, or return any Original Notes deposited, pursuant to the exchange offer as required by Rule 14e-1(c).

Interest on Exchange Notes

The Exchange Notes will bear interest at the rate of 5.625% per annum from the most recent date on which interest on the Original Notes has been paid or, if no interest has been paid on such Original Notes, from September 24, 2015. Interest will be payable semiannually on April 15 and October 15 of each year, commencing on April 15, 2016.

Conditions to the Exchange Offer

Notwithstanding any other provisions of the exchange offer, or any extension of the exchange offer, we will not be required to accept for exchange, or to exchange any Exchange Notes for, any Original Notes and we may terminate the exchange offer or, at our option, modify, extend or otherwise amend the exchange offer, if any of the following conditions exist on or prior to the Expiration Date:

- a) no action or event shall have occurred or been threatened, no action shall have been taken, and no statute, rule, regulation, judgment, order, stay, decree or injunction shall have been issued, promulgated, enacted, entered, enforced or deemed to be applicable to the exchange offer or the exchange of Original Notes for Exchange Notes under the exchange offer by or before any court or governmental regulatory or administrative agency, authority, instrumentality or tribunal, including, without limitation, taxing authorities, that either:
 - i. challenges the making of the exchange offer or the exchange of Original Notes for Exchange Notes under the exchange offer or might, directly or indirectly, be expected to prohibit, prevent, restrict or delay consummation of, or might otherwise adversely affect in any material manner, the exchange offer or the exchange of Original Notes for Exchange Notes under the exchange offer; or
 - ii. in our reasonable judgment, could materially adversely affect our (or our subsidiaries') business, condition (financial or otherwise), income, operations, properties, assets, liabilities or prospects or materially impair the contemplated benefits to us of the exchange offer or the exchange of Original Notes for Exchange Notes under the exchange offer;
- b) nothing has occurred or may occur that would or might, in our reasonable judgment, be expected to prohibit, prevent, restrict or delay the exchange offer or impair our ability to realize the anticipated benefits of the exchange offer;
- c) there shall not have occurred (a) any general suspension of or limitation on trading in securities in the United States securities or financial markets, whether or not mandatory, (b) any material adverse change in the prices of the Original Notes that are the subject of the exchange offer, (c) a material impairment in the general trading market for debt securities, (d) a declaration of a banking moratorium or any suspension of payments in respect of banks by federal or state authorities in the United States, whether or not mandatory, (e) a commencement of a war, armed hostilities, a terrorist act or other national or international calamity directly or indirectly relating to the United States, (f) any limitation, whether or not mandatory, by any governmental authority on, or other event having a reasonable likelihood of affecting, the extension of credit by banks or other lending institutions in the United States, (g) any catastrophic event caused by meteorological, geothermal or geophysical occurrences or other acts of God that would reasonably be expected to have a material adverse effect on us or our affiliates' or subsidiaries' business, operations, condition or prospects, (h) any material adverse change in the securities or financial markets in the United States generally (i) in the case of any of the foregoing existing at the time of the commencement of the exchange offer, a material acceleration or worsening thereof or (j) any other change or development, including a prospective change or development, in general economic, financial, monetary or market conditions that, in our reasonable judgment, has or may have a material adverse effect on the market price or trading of the Exchange Notes; and
- d) the trustee with respect to the indenture for the Original Notes that are the subject of the exchange offer and the Exchange Notes to be issued in the exchange offer shall not have been directed by any holders of Original Notes to object in any respect to, nor take any action that could, in our reasonable judgment, adversely affect the consummation of the exchange offer or the exchange of Original Notes for Exchange Notes under the exchange offer, nor shall the trustee have taken any action that challenges the validity or effectiveness of the procedures used by us in making the exchange offer or the exchange of Original Notes for Exchange Notes under the exchange offer.

[Table of Contents](#)

The foregoing conditions are for our sole benefit and may be waived by us, in whole or in part, in our absolute discretion. Any determination made by us concerning an event, development or circumstance described or referred to above will be conclusive and binding.

If any of the foregoing conditions are not satisfied, we may, at any time on or prior to the Expiration Date:

- terminate the exchange offer and promptly return all tendered Original Notes to the respective tendering holders;
- modify, extend or otherwise amend the exchange offer and retain all tendered Original Notes until the Expiration Date, as extended, subject, however, to the withdrawal rights of holders; or
- waive the unsatisfied conditions with respect to the exchange offer and accept all Original Notes tendered and not previously validly withdrawn.

In addition, subject to applicable law, we may in our absolute discretion terminate the exchange offer for any other reason.

Effect of Tender

Any tender by a holder, and our subsequent acceptance of that tender, of Original Notes will constitute a binding agreement between that holder and us upon the terms and subject to the conditions of the Exchange Offer described in this prospectus and in the letter of transmittal. The participation in the exchange offer by a tendering holder of Original Notes will constitute the agreement by that holder to deliver good and marketable title to the tendered Original Notes, free and clear of any and all liens, restrictions, charges, pledges, security interests, encumbrances or rights of any kind of third parties.

Absence of Dissenters' Rights

Holders of the Original Notes do not have any appraisal or dissenters' rights in connection with the exchange offer.

Procedures for Tendering

If you wish to participate in the exchange offer and your Original Notes are held by a custodial entity such as a bank, broker, dealer, trust company or other nominee, you must instruct that custodial entity to tender your Original Notes on your behalf pursuant to the procedures of that custodial entity. Please ensure you contact your custodial entity as soon as possible to give them sufficient time to meet your requested deadline.

To participate in the Exchange Offer, you must either:

- complete, sign and date a letter of transmittal, or a facsimile thereof, in accordance with the instructions in the letter of transmittal, including guaranteeing the signatures to the letter of transmittal, if required, and mail or otherwise deliver the letter of transmittal or a facsimile thereof, together with the certificates representing your Original Notes specified in the letter of transmittal, to the Exchange Agent at the address listed in the letter of transmittal, for receipt on or prior to the Expiration Date; or
- comply with the Automated Tender Offer Program, or ATOP, procedures for book-entry transfer described below on or prior to the Expiration Date; or
- the holder must comply, on or before the expiration date, with the guaranteed delivery procedures described below under “—Guaranteed Delivery Procedures.”

The Exchange Agent and DTC have confirmed that the exchange offer is eligible for ATOP with respect to book-entry notes held through DTC. The letter of transmittal, or a facsimile thereof, with any required signature guarantees, or, in the case of book-entry transfer, an agent's message in lieu of the letter of transmittal, and any

[Table of Contents](#)

other required documents, must be transmitted to and received by the Exchange Agent on or prior to the Expiration Date at its address set forth below under the caption “Exchange Agent.” Original Notes will not be deemed to have been tendered until the letter of transmittal and signature guarantees, if any, or agent’s message, is received by the Exchange Agent.

The method of delivery of Original Notes, the letter of transmittal and all other required documents to the Exchange Agent is at the election and risk of the holders. Instead of delivery by mail, we recommend that holders use an overnight or hand delivery service, properly insured. In all cases, sufficient time should be allowed to assure delivery to and receipt by the Exchange Agent on or prior to the Expiration Date. **Do not send the letter of transmittal or any Original Notes to anyone other than the Exchange Agent.**

If you are tendering your Original Notes in exchange for Exchange Notes and anticipate delivering your letter of transmittal and other documents other than through DTC, we urge you to contact promptly a bank, broker or other intermediary that has the capability to hold notes custodially through DTC to arrange for receipt of any Original Notes to be delivered pursuant to the exchange offer and to obtain the information necessary to provide the required DTC participant with account information in the letter of transmittal.

If you are a beneficial owner which holds Original Notes through Euroclear (as defined below) or Clearstream (as defined below) and wish to tender your Original Notes, you must instruct Euroclear or Clearstream, as the case may be, to block the account in respect of the tendered Original Notes in accordance with the procedures established by Euroclear or Clearstream. You are encouraged to contact Euroclear and Clearstream directly to ascertain their procedure for tendering Original Notes.

Book-Entry Delivery Procedures for Tendering Original Notes Held with DTC

If you wish to tender Original Notes held on your behalf by a nominee with DTC, you must:

- inform your nominee of your interest in tendering your Original Notes pursuant to the exchange offer; and
- instruct your nominee to tender all Original Notes you wish to be tendered in the exchange offer into the Exchange Agent’s account at DTC on or prior to the Expiration Date.

Any financial institution that is a nominee in DTC, including Euroclear and Clearstream, must tender Original Notes by effecting a book-entry transfer of Original Notes to be tendered in the exchange offer into the account of the Exchange Agent at DTC by electronically transmitting its acceptance of the exchange offer through the ATOP procedures for transfer. DTC will then verify the acceptance, execute a book-entry delivery to the Exchange Agent’s account at DTC and send an agent’s message to the Exchange Agent. An “agent’s message” is a message, transmitted by DTC to, and received by, the Exchange Agent and forming part of a book-entry confirmation, which states that DTC has received an express acknowledgement from an organization that participates in DTC (a “participant”), tendering Original Notes that the participant has received and agrees to be bound by the terms of the letter of transmittal and that we may enforce the agreement against the participant. A letter of transmittal need not accompany tenders effected through ATOP.

Proper Execution and Delivery of the Letter of Transmittal

Signatures on a letter of transmittal or notice of withdrawal described under “—Withdrawal of Tenders”, as the case may be, must be guaranteed by an eligible institution unless the Original Notes tendered pursuant to the letter of transmittal are tendered for the account of an eligible institution. An “eligible institution” is one of the following firms or other entities identified in Rule 17 Ad-15 under the Exchange Act (as the terms are used in Rule 17 Ad-15):

- a bank;
- a broker, dealer, municipal securities dealer, municipal securities broker, government securities dealer or government securities broker;

Table of Contents

- a credit union;
- a national securities exchange, registered securities association or clearing agency; or
- a savings institution that is a participant in a Securities Transfer Association recognized program

If signatures on a letter of transmittal or notice of withdrawal are required to be guaranteed, that guarantee must be made by an eligible institution.

If the letter of transmittal is signed by the holders of Original Notes tendered thereby, the signatures must correspond with the names as written on the face of the Original Notes without any change whatsoever. If any of the Original Notes tendered thereby are held by two or more holders, each holder must sign the letter of transmittal. If any of the Original Notes tendered thereby are registered in different names on different Original Notes, it will be necessary to complete, sign and submit as many separate letters of transmittal, and any accompanying documents, as there are different registrations of certificates.

If Original Notes that are not tendered for exchange pursuant to the Exchange Offer are to be returned to a person other than the tendering holder, certificates for those Original Notes must be endorsed or accompanied by an appropriate instrument of transfer, signed exactly as the name of the registered owner appears on the certificates, with the signatures on the certificates or instruments of transfer guaranteed by an eligible institution.

If the letter of transmittal is signed by a person other than the holder of any Original Notes listed in the letter of transmittal, those Original Notes must be properly endorsed or accompanied by a properly completed bond power, signed by the holder exactly as the holder's name appears on those Original Notes. If the letter of transmittal or any Original Notes, bond powers or other instruments of transfer are signed by trustees, executors, administrators, guardians, attorneys-in-fact, officers of corporations or others acting in a fiduciary or representative capacity, those persons should so indicate when signing, and, unless waived by us, evidence satisfactory to us of their authority to so act must be submitted with the letter of transmittal.

No alternative, conditional, irregular or contingent tenders will be accepted. By executing the letter of transmittal, or facsimile thereof, the tendering holders of Original Notes waive any right to receive any notice of the acceptance for exchange of their Original Notes. Tendering holders should indicate in the applicable box in the letter of transmittal the name and address to which payments and/or substitute certificates evidencing Original Notes for amounts not tendered or not exchanged are to be issued or sent, if different from the name and address of the person signing the letter of transmittal. If those instructions are not given, Original Notes not tendered or exchanged will be returned to the tendering holder.

All questions as to the validity, form, eligibility, including time of receipt, and acceptance and withdrawal of tendered Original Notes will be determined by us in our absolute discretion, which determination will be final and binding. We reserve the absolute right to reject any and all tendered Original Notes determined by us not to be in proper form or not to be tendered properly or any tendered Original Notes our acceptance of which would, in the opinion of our counsel, be unlawful. We also reserve the right to waive, in our absolute discretion, any defects, irregularities or conditions of tender as to particular Original Notes, whether or not waived in the case of other Original Notes. Our interpretation of the terms and conditions of the exchange offer, including the terms and instructions in the letter of transmittal, will be final and binding on all parties. Unless waived, any defects or irregularities in connection with tenders of Original Notes must be cured within the time we determine. Although we intend to notify holders of defects or irregularities with respect to tenders of Original Notes, neither we, the Exchange Agent nor any other person will be under any duty to give that notification or shall incur any liability for failure to give that notification. Tenders of Original Notes will not be deemed to have been made until any defects or irregularities therein have been cured or waived.

Any holder whose Original Notes have been mutilated, lost, stolen or destroyed will be responsible for obtaining replacement securities or for arranging for indemnification with the trustee of the Original Notes. Holders may contact the Exchange Agent for assistance with these matters.

[Table of Contents](#)

In addition, we reserve the right, as set forth above under the caption “—Conditions to the Exchange Offer”, to terminate the exchange offer. By tendering, each holder represents and acknowledges to us, among other things, that:

- it has full power and authority to tender, exchange, sell, assign and transfer the Original Notes it is tendering and that we will acquire good and unencumbered title thereto, free and clear of all liens, restrictions, charges and encumbrances and not subject to any adverse claim when the same are accepted by us;
- the Exchange Notes acquired in connection with the exchange offer are being obtained in the ordinary course of business of the person receiving the Exchange Notes;
- at the time of commencement of the exchange offer it is not engaged in, and does not intend to engage in, and has no arrangement or understanding with any person to participate in a distribution (within the meaning Securities Act) of such Exchange Notes;
- it is not an “affiliate” (as defined in Rule 405 under the Securities Act) of the Company; and
- if the holder is a broker-dealer, it is not engaged in, and does not intend to engage in, a distribution of the Exchange Notes, and it will receive Exchange Notes for its own account in exchange for Original Notes that were acquired by such broker- dealer as a result of market-making activities or other trading activities and it will be required to acknowledge that it will deliver a prospectus in connection with any resale of such Exchange Notes. See “Plan of Distribution.”

Guaranteed Delivery Procedures

If you desire to tender your Original Notes and your Original Notes are not immediately available, time will not permit your Original Notes or other required documents to reach the Exchange Agent before the time of expiration or you cannot complete the procedure for book-entry on a timely basis, you may tender if:

- you tender through an eligible institution;
- on or prior to 11:59 p.m., New York City time, on the Expiration Date, the Exchange Agent receives from an eligible institution, a written or facsimile copy of a properly completed and duly executed letter of transmittal and notice of guaranteed delivery, substantially in the form provided by us; and
- the certificates for all certificated Original Notes, in proper form for transfer, or a book-entry confirmation, and all other documents required by the letter of transmittal, are received by the Exchange Agent within three New York Stock Exchange trading days after the date of execution of the notice of guaranteed delivery.

The notice of guaranteed delivery may be sent by facsimile transmission, mail or hand delivery.

The notice of guaranteed delivery must set forth:

- your name and address;
- the amount of Original Notes you are tendering; and
- a statement that your tender is being made by the notice of guaranteed delivery and that you guarantee that within three New York Stock Exchange trading days after the execution of the notice of guaranteed delivery, the eligible institution will deliver the following documents to the Exchange Agent: (a) the certificates of all certificated Original Notes being tendered, in proper form for transfer or a book entry confirmation of tender; (b) a written or facsimile copy of the letter of transmittal, or a book-entry confirmation instead of the letter of transmittal; and (c) any other document required by the letter of transmittal.

Withdrawal of Tenders

Tenders of Original Notes in the exchange offer may be validly withdrawn at any time prior to the Expiration Date.

For a withdrawal of a tender to be effective, a written or facsimile transmission notice of withdrawal must be received by the Exchange Agent prior to the Expiration Date at its address set forth below under the caption “Exchange Agent.” The withdrawal notice must:

- specify the name of the tendering holder of Original Notes;
- bear a description, including the series, of the Original Notes to be withdrawn;
- specify, in the case of Original Notes tendered by delivery of certificates for those Original Notes, the certificate numbers shown on the particular certificates evidencing those Original Notes;
- specify the aggregate principal amount represented by those Original Notes;
- specify, in the case of Original Notes tendered by delivery of certificates for those Original Notes, the name of the registered holder, if different from that of the tendering holder, or specify, in the case of Original Notes tendered by book-entry transfer, the name and number of the account at DTC to be credited with the withdrawn Original Notes; and
- be signed by the holder of those Original Notes in the same manner as the original signature on the letter of transmittal, including any required signature guarantees, or be accompanied by evidence satisfactory to us that the person withdrawing the tender has succeeded to the beneficial ownership of those Original Notes.

The signature on any notice of withdrawal must be guaranteed by an eligible institution, unless the Original Notes have been tendered for the account of an eligible institution.

Withdrawal of tenders of Original Notes may not be rescinded, and any Original Notes validly withdrawn will thereafter be deemed not to have been validly tendered for purposes of the Exchange Offer. Validly withdrawn Original Notes may, however, be re-tendered by again following one of the procedures described in “—Procedures for Tendering” on or prior to the Expiration Date.

Exchange Agent

The Bank of New York Mellon Trust Company, N.A. has been appointed as “Exchange Agent” in connection with the Exchange Offer. Questions and requests for assistance, as well as requests for additional copies of this prospectus or of the letter of transmittal, should be directed to the Exchange Agent at its offices at The Bank of New York Mellon Trust Company, N.A., as Exchange Agent, Corporate Trust Operations—Reorganization Unit, Attention: Dacia Brown-Jones, 111 Sanders Creek Parkway, East Syracuse, NY 13057. The Exchange Agent’s telephone number is (315) 414-3349 and facsimile number is (732) 667-9408.

Fees and Expenses

We will not make any payment to brokers, dealers or others soliciting acceptances of the exchange offer. We will pay certain other expenses to be incurred in connection with the exchange offer, including the fees and expenses of the Exchange Agent and certain accountant and legal fees.

Holders who tender their Original Notes for exchange will not be obligated to pay transfer taxes. If however:

- Exchange Notes are to be delivered to, or issued in the name of, any person other than the registered holder of the Original Notes tendered;

[Table of Contents](#)

- tendered Original Notes are registered in the name of any person other than the person signing the letter of transmittal; or
- a transfer tax is imposed for any reason other than the exchange of Original Notes in connection with the exchange offer; then the amount of any such transfer taxes (whether imposed on the registered holder or any other persons) will be payable by the tendering holder. If satisfactory evidence of payment of such taxes or exemption from them is not submitted with the letter of transmittal, the amount of such transfer taxes will be billed directly to the tendering holder.

Accounting Treatment

The Exchange Notes will be recorded at the same carrying value as the Original Notes as reflected in our accounting records on the date of the exchange. Accordingly, we will not recognize any gain or loss for accounting purposes upon the completion of the exchange offer. The expenses of the exchange offer that we pay will increase our deferred financing costs in accordance with GAAP.

Consequences of Failures to Properly Tender Original Notes in the Exchange Offer

Issuance of the Exchange Notes in exchange for the Original Notes under the exchange offer will be made only after timely receipt by the Exchange Agent of a properly completed and duly executed letter of transmittal (or an agent's message from DTC) and the certificate(s) representing such Original Notes (or confirmation of book-entry transfer), and all other required documents. Therefore, holders of the Original Notes desiring to tender such Original Notes in exchange for Exchange Notes should allow sufficient time to ensure timely delivery. We are under no duty to give notification of defects or irregularities of tenders of Original Notes for exchange. Original Notes that are not tendered or that are tendered but not accepted by us will, following completion of the exchange offer, continue to be subject to the existing restrictions upon transfer thereof under the Securities Act, and, upon completion of the exchange offer, certain registration rights under the registration rights agreement will terminate.

In the event the exchange offer is completed, we generally will not be required to register the remaining Original Notes, subject to limited exceptions. Remaining Original Notes will continue to be subject to the following restrictions on transfer:

- the remaining Original Notes may be resold only if registered pursuant to the Securities Act, if any exemption from registration is available, or if neither such registration nor such exemption is required by law; and
- the remaining Original Notes will bear a legend restricting transfer in the absence of registration or an exemption.

We do not currently anticipate that we will register the remaining Original Notes under the Securities Act. To the extent that Original Notes are tendered and accepted in connection with the exchange offer, any trading market for remaining Original Notes could be adversely affected. See "Risk Factors—Risks Relating to the Exchange Offer—If you fail to exchange your Original Notes, they will continue to be restricted securities and may become less liquid."

BOOK-ENTRY, DELIVERY AND FORM

General

Initially, the Exchange Notes will be represented by one or more registered notes in global form, without interest coupons (collectively, the “Global Notes”). The Global Notes will be deposited on the issue date with, or on behalf of, DTC and registered in the name of Cede & Co., as nominee of DTC, or will remain with the trustee as custodian for DTC.

DTC holds interests in the Global Notes on behalf of its participants through customers’ securities accounts in their respective names on the books of their respective depositories. Except under the limited circumstances described below, owners of beneficial interests in the Global Notes will not be entitled to receive physical delivery of certificated notes.

Book-Entry Interests will be shown on, and transfers thereof will be done only through, records maintained in book-entry form by DTC and its participants. The laws of some jurisdictions, including certain states of the United States, may require that certain purchasers of securities take physical delivery of such securities in definitive form. The foregoing limitations may impair your ability to own, transfer or pledge Book-Entry Interests. In addition, while the notes are in global form, holders of Book-Entry Interests are not considered the owners or “holders” of notes for any purpose.

So long as the notes are held in global form, DTC (or its nominees) will be considered the sole holders of Global Notes for all purposes under the indenture governing the notes. In addition, participants in DTC must rely on the procedures of DTC and indirect participants must rely on the procedures of DTC and the participants through which they own Book-Entry Interests, to transfer their interests or to exercise any rights of holders under the indenture.

Neither the Company nor the trustee has any responsibility or liability for any aspect of the records relating to the Book-Entry Interests.

Redemption of the Global Notes

In the event any Global Note (or any portion thereof) is redeemed, DTC (or its nominees) will redeem an equal amount of the Book-Entry Interests in such Global Note from the amount received by it in respect of the redemption of such Global Note. The redemption price payable in connection with the redemption of such Book-Entry Interests will be equal to the amount received by DTC in connection with the redemption of such Global Note (or any portion thereof). The Company understands that, under existing practices of DTC, if fewer than all of the notes are to be redeemed at any time, DTC will credit its participants’ accounts on a proportionate basis (with adjustments to prevent fractions) or by lot or on such other basis as they deem fair and appropriate; provided, however, that no Book-Entry Interest of \$2,000 principal amount or less may be redeemed in part.

Payments on Global Notes

The Company will make payments of any amounts owing in respect of the Global Notes (including principal, premium, if any, and interest) to DTC or its nominee, which will distribute such payments to participants in accordance with its procedures. The Company will make payments of all such amounts without deduction or withholding for or on account of any present or future taxes, duties, assessments or governmental charges of whatever nature except as may be required by law. The Company expects that standing customer instructions and customary practices will govern payments by participants to owners of Book-Entry Interests held through such participants.

[Table of Contents](#)

Under the terms of the indenture, the Company and the trustee will treat the registered holders of the Global Notes (i.e., DTC (or its nominees)) as the owners thereof for the purpose of receiving payments and for all other purposes. Consequently, none of the Company, the trustee or any of their respective agents has or will have any responsibility or liability for:

- any aspect of the records of DTC or any participant or indirect participant relating to payments made on account of a Book-Entry Interest or for maintaining, supervising or reviewing the records of DTC, or any participant or indirect participant relating to, or payments made on account of, a Book-Entry Interest; or
- DTC or any participant or indirect participant.

Payments by participants to owners of Book-Entry Interests held through participants are the responsibility of such participants.

Currency of Payment for the Global Notes

Except as may otherwise be agreed between DTC and any holder, the principal of, premium, if any, and interest on, and all other amounts payable in respect of, the Global Notes will be paid to holders of interests in such notes (the “DTC Holders”) through DTC in U.S. dollars.

Payments will be subject in all cases to any fiscal or other laws and regulations (including any regulations of the applicable clearing system) applicable thereto. None of the Company, the trustee, the initial purchasers or any of their respective agents will be liable to any holder of a Global Note or any other person for any commissions, costs, losses or expenses in relation to or resulting from any currency conversion or rounding effected in connection with any such payment.

Action by Owners of Book-Entry Interests

DTC has advised the Company that it will take any action permitted to be taken by a holder of notes (including the presentation of notes for exchange as described below) only at the direction of one or more participants to whose account the Book-Entry Interests in the Global Notes are credited and only in respect of such portion of the aggregate principal amount of notes as to which such participant or participants has or have given such direction. DTC will not exercise any discretion in the granting of consents, waivers or the taking of any other action in respect of the Global Notes. However, if there is an event of default under the notes, DTC reserves the right to exchange the Global Notes for definitive registered notes in certificated form (the “Definitive Registered Notes”), and to distribute Definitive Registered Notes to its participants. See “— Definitive Registered Notes.”

Transfers

Transfers of beneficial interests in the Global Notes will be subject to the applicable rules and procedures of DTC and its direct or indirect participants, which rules and procedures may change from time to time.

Any Book-Entry Interest in one of the Global Notes that is transferred to a person who takes delivery in the form of a Book-Entry Interest in any other Global Note of the same series will, upon transfer, cease to be a Book-Entry Interest in the first-mentioned Global Note and become a Book-Entry Interest in such other Global Note, and accordingly will thereafter be subject to all transfer restrictions, if any, and other procedures applicable to Book-Entry Interests in such other Global Note for as long as it remains such a Book-Entry Interest.

[Table of Contents](#)

Definitive Registered Notes

Under the terms of the indenture, owners of the Book-Entry Interests will receive Definitive Registered Notes:

- if DTC notifies the Company that it is unwilling or unable to continue as depository for the Global Notes, or DTC ceases to be a clearing agency registered under the Exchange Act and, in either case, a qualified successor depository is not appointed by the Company within 120 days; or
- if an event of default under the indenture occurred or is continuing and the owner of a Book-Entry Interest requests such exchange in writing delivered through DTC.

In the case of the issuance of Definitive Registered Notes, the holder of a Definitive Registered Note may transfer such note by surrendering it to the registrar. In the event of a partial transfer or a partial redemption of a holding of Definitive Registered Notes represented by one Definitive Registered Note, a Definitive Registered Note shall be issued to the transferee in respect of the part transferred, and a new Definitive Registered Note in respect of the balance of the holding not transferred or redeemed shall be issued to the transferor or the holder, as applicable; provided that no Definitive Registered Note in a denomination less than \$2,000 shall be issued. The Company will bear the cost of preparing, printing, packaging and delivering the Definitive Registered Notes.

The Company shall not be required to register the transfer or exchange of Definitive Registered Notes for a period of 15 calendar days preceding (a) the record date for any payment of interest on the notes, (b) any date fixed for redemption of the notes or (c) the date fixed for selection of the notes to be redeemed in part. Also, the Company is not required to register the transfer or exchange of any notes selected for redemption. In the event of the transfer of any Definitive Registered Note, the transfer agent may require a holder, among other things, to furnish appropriate endorsements and transfer documents as described in the indenture. The Company may require a holder to pay any taxes and fees required by law and permitted by the indenture and the notes.

If Definitive Registered Notes are issued and a holder thereof claims that such Definitive Registered Notes have been lost, destroyed or wrongfully taken or if such Definitive Registered Notes are mutilated and are surrendered to the registrar or at the office of a transfer agent, the Company shall issue and the trustee shall authenticate a replacement Definitive Registered Note if the trustee's and the Company's requirements are met. The trustee or the Company may require a holder requesting replacement of a Definitive Registered Note to furnish an indemnity bond sufficient in the judgment of both the trustee and the Company to protect the Company, the trustee or the paying agent appointed pursuant to the indenture from any loss which any of them may suffer if a Definitive Registered Note is replaced. The Company may charge for its expenses in replacing a Definitive Registered Note.

In case any such mutilated, destroyed, lost or stolen Definitive Registered Note has become or is about to become due and payable, or is about to be redeemed or purchased by the Company pursuant to the provisions of the indenture, the Company in its discretion may, instead of issuing a new Definitive Registered Note, pay, redeem or purchase such Definitive Registered Note, as the case may be.

Definitive Registered Notes may be transferred and exchanged for Book-Entry Interests in a Global Note only in accordance with the indenture.

Information Concerning DTC

The following description of the operations and procedures of DTC is provided solely as a matter of convenience. These operations and procedures are solely within the control of DTC and are subject to change by DTC at any time. We take no responsibility for these operations and procedures and urge investors to contact DTC or its participants directly to discuss these matters.

[Table of Contents](#)

The Company understands as follows with respect to DTC:

DTC is:

- a limited purpose trust company organized under the Banking Law of the State of New York;
- a “banking organization” under the Banking Law of the State of New York;
- a member of the Federal Reserve System;
- a “clearing corporation” within the meaning of the New York Uniform Commercial Code; and
- a “clearing agency” registered under Section 17A of the Exchange Act.

DTC was created to hold securities for its participants and to facilitate the clearance and settlement of transactions among its participants. It does this through electronic book-entry changes in the accounts of securities participants, eliminating the need for physical movement of securities certificates. DTC participants include securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations. DTC’s owners are NYSE Euronext, the Financial Industry Regulatory Authority, Inc. and a number of its direct participants. Others, such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a direct participant also have access to the DTC system and are known as indirect participants.

Because DTC can only act on behalf of participants, who in turn act on behalf of indirect participants and certain banks, the ability of an owner of a beneficial interest to pledge such interest to persons or entities that do not participate in the DTC system, or otherwise take actions in respect of such interest, may be limited by the lack of a definitive certificate for that interest. The laws of some states require that certain persons take physical delivery of securities in definitive form. Consequently, the ability to transfer beneficial interests to such persons may be limited. In addition, owners of beneficial interests through the DTC system will receive distributions attributable to the Global Notes only through DTC participants.

Global Clearance and Settlement Under the Book-Entry System

The notes are expected to trade in DTC’s Same-Day Funds Settlement System and any permitted secondary market trading activity in the notes will, therefore, be required by DTC to be settled in immediately available funds. Subject to compliance with the transfer restrictions applicable to the Global Notes, cross-market transfers of Book-Entry Interests in the notes between the participants in DTC will be done through DTC in accordance with DTC’s rules.

Although DTC is expected to follow the foregoing procedures in order to facilitate transfers of interests in the Global Notes among participants in DTC, it is under no obligation to perform or continue to perform such procedures, and such procedures may be discontinued at any time. None of the Company, the trustee, the initial purchaser, the registrar, any transfer agent or any paying agent will have any responsibility for the performance by DTC or its participants or indirect participants of their respective obligations under the rules and procedures governing their operations.

MATERIAL UNITED STATES FEDERAL INCOME TAX CONSIDERATIONS

The following is a summary based on present law of the material United States federal income tax considerations relating to the exchange of the Original Notes for the Exchange Notes in the Exchange Offer and the acquisition, ownership and disposition of the notes, but does not purport to be a complete analysis of all of the potential tax considerations relating thereto. This summary is based on the Internal Revenue Code of 1986, as amended (the “Code”), Treasury Regulations, rulings and pronouncements of the Internal Revenue Service (the “IRS”), and judicial decisions, all as of the date of this prospectus. These authorities may be changed, perhaps retroactively, and are subject to different interpretations, so the United States federal income tax consequences may be different from those described herein. We have not sought any ruling from the IRS or opinion of counsel with respect to the statements made and conclusions reached in this summary, and there can be no assurance that the IRS will agree with and not challenge these statements and conclusions.

This summary applies only to the holders who acquired the Original Notes for cash upon their original issue at their original offering price and who hold the notes as capital assets (generally, property held for investment). This summary does not address tax considerations arising under the laws of any foreign, state or local jurisdiction or the effect of any tax treaty. In addition, this discussion does not address tax considerations that are the result of a holder’s particular circumstances or of special rules, such as those that apply to holders subject to the alternative minimum tax, banks and other financial institutions, tax-exempt organizations, insurance companies, dealers or traders in securities or commodities, regulated investment companies, real estate investment trusts, United States Holders (as defined below) whose “functional currency” is not the U.S. dollar, certain former citizens or former long-term residents of the United States, foreign governments or international organizations, persons who will hold the notes as a position in a hedging transaction, “straddle,” “conversion transaction” or other risk reduction or integrated transaction, or partnerships (including any entity or arrangement treated as a partnership for United States federal income tax purposes) or other pass-through entities or investors in such entities.

If a partnership (including any entity or arrangement treated as a partnership for United States federal income tax purposes) holds Original Notes, then the United States federal income tax treatment of a partner generally will depend on the status of the partner and the activities of the partnership. If you are a partner of a partnership that holds Original Notes, you should consult your tax advisor.

EACH TAXPAYER SHOULD SEEK ADVICE BASED ON THE TAXPAYER’S PARTICULAR CIRCUMSTANCES FROM AN INDEPENDENT TAX ADVISOR WITH RESPECT TO THE APPLICATION TO SUCH CIRCUMSTANCES OF THE UNITED STATES FEDERAL INCOME TAX LAWS AS WELL AS WITH RESPECT TO ANY TAX CONSEQUENCES ARISING UNDER THE LAWS OF ANY STATE, LOCAL OR OTHER TAXING JURISDICTION OR UNDER ANY APPLICABLE TAX TREATY.

Exchange Offer

The Exchange Notes do not differ materially in kind or extent from the Original Notes and, as a result, your exchange of Original Notes for Exchange Notes will not constitute a taxable disposition of the Original Notes for United States federal income tax purposes. As a result, you will not recognize taxable gain or loss on such exchange, your holding period for the Exchange Notes generally will include the holding period for the Original Notes so exchanged, and your adjusted tax basis in the Exchange Notes generally will be the same as your adjusted tax basis in the Original Notes so exchanged.

Payments Upon Early Redemptions and Other Circumstances

In certain circumstances (see “Description of Exchange Notes—Optional Redemption” and “Description of Exchange Notes— Repurchase at the Option of Holders Upon a Change of Control”), we may be entitled or

[Table of Contents](#)

obligated to redeem the notes offered hereby before their stated maturity date or obligated to pay you additional amounts in excess of stated interest or principal on the notes offered hereby. We do not intend to treat the potential redemption or payment of any such amounts as part of or affecting the yield to maturity of any notes offered hereby or as causing the notes to be treated as contingent payment debt instruments for United States federal income tax purposes. Our determination is not, however, binding on the IRS and if the IRS were to challenge this determination, you might be required to accrue income on the notes offered hereby at a higher yield and to treat as ordinary income (rather than capital gain) income realized on the taxable disposition of a note before the resolution of the contingencies. The remainder of this discussion assumes that the notes will not be treated as contingent payment debt instruments for United States federal income tax purposes.

United States Holders

As used in this discussion, “United States Holder” means a beneficial owner of notes that for United States federal income tax purposes is:

- an individual who is a citizen or resident of the United States, including an alien individual who is a lawful permanent resident of the United States or who meets the “substantial presence” test under Section 7701(b) of the Code;
- a corporation, or other entity taxable as a corporation, created or organized in or under the laws of the United States, any state thereof, or the District of Columbia;
- an estate whose income is subject to United States federal income taxation regardless of its source; or
- a trust (i) if its administration is subject to the primary supervision of a court within the United States and one or more “United States persons” (within the meaning of the Code) have the authority to control all substantial decisions of the trust or (ii) that has a valid election in effect under applicable United States Treasury Regulations to be treated as a United States person.

Payments of Interest

Interest on the notes generally will be taxable to you as ordinary income at the time such interest is received or accrued in accordance with your regular method of accounting for United States federal income tax purposes.

Taxable Disposition of Notes

Upon the sale, exchange, redemption, retirement or other taxable disposition of the notes, you generally will recognize capital gain or loss equal to the difference (if any) between:

- the amount of cash proceeds and the fair market value of any property received on such disposition (less any amount attributable to accrued and unpaid interest on the notes, which will generally be taxable as ordinary income to the extent not previously included in income); and
- your adjusted tax basis in the notes.

Your adjusted tax basis in a note generally will equal the amount you paid for the note. Any gain or loss that is recognized on the disposition of the notes generally will be capital gain or loss and will be long-term capital gain or loss if you have held the notes for more than one year at the time of disposition. Long-term capital gains of individuals, estates and trusts currently are generally taxed at reduced rates. Your ability to deduct capital losses is subject to certain limitations.

Information Reporting and Backup Withholding

In general, information reporting is required as to payments of interest on the notes and on the proceeds of a disposition (including a redemption or retirement) of the notes unless you are a corporation or other exempt

[Table of Contents](#)

person and, if requested, certify such status. In addition, you may be subject to backup withholding on payments made to you of principal and interest on your notes and on payments of proceeds of a sale or other disposition of your notes if you are not exempt, you fail to properly furnish a taxpayer identification number, certified under penalties of perjury, or if the IRS has notified you that you are subject to backup withholding.

Additional Tax on Net Investment Income

An additional 3.8% tax is imposed on the “net investment income” of certain United States individuals, and on the undistributed “net investment income” of certain estates and trusts. Among other items, “net investment income” generally includes interest and certain net gain from the disposition of property, such as the notes, less certain deductions.

Holders should consult their own tax advisors with respect to the additional tax described above.

Non-United States Holders

As used in this tax discussion, “non-United States Holder” means any beneficial owner of notes that is an individual, corporation, estate or trust that is not a United States Holder. The rules governing the United States federal income taxation of a non-United States Holder are complex, and no attempt will be made herein to provide more than a summary of certain of those rules. **NON-UNITED STATES HOLDERS SHOULD CONSULT THEIR TAX ADVISORS TO DETERMINE THE EFFECT OF UNITED STATES FEDERAL, STATE AND OTHER TAX LAWS, AS WELL AS FOREIGN TAX LAWS, INCLUDING ANY REPORTING REQUIREMENTS.**

Payments of Interest

Subject to the discussion of backup withholding and FATCA withholding below, payments of interest on the notes will not be subject to United States federal income tax or withholding tax if the interest is not effectively connected with your conduct of a trade or business in the United States and if you qualify for the “portfolio interest” exemption. You generally will qualify for the portfolio interest exemption if you:

- do not own, actually or constructively, 10% or more of the combined voting power of all classes of our stock entitled to vote;
- are not a controlled foreign corporation related to us, directly or indirectly, actually or constructively, within the meaning of Section 864(d)(4) of the Code;
- are not a bank whose receipt of interest on the notes is pursuant to a loan agreement entered into in the ordinary course of your trade or business; and
- appropriately certify as to your foreign status.

You generally may meet the certification requirement listed above by providing to the applicable withholding agent a properly completed IRS Form W-8BEN or Form W-8BEN-E (as applicable). If the portfolio interest exemption is not available to you, then payments of interest on the notes generally will be subject to United States federal withholding tax at a rate of 30% unless you certify on IRS Form W-8BEN or Form W-8BEN-E (as applicable) as to your eligibility for a lower rate under an applicable income tax treaty.

Interest that is effectively connected with your conduct of a trade or business in the United States (and, if required by an applicable income tax treaty, is attributable to a permanent establishment maintained by you in the United States) is not subject to withholding if you provide a properly completed IRS Form W-8ECI. However, you generally will be subject to United States federal income tax on such interest on a net income basis at graduated rates applicable to United States persons generally. In addition, if you are a foreign corporation you may incur a branch profits tax on such interest equal to 30% of your effectively connected earnings and profits

[Table of Contents](#)

for the taxable year, as adjusted for certain items, unless a lower rate applies to you under a United States income tax treaty with your country of residence. For this purpose, you must include interest and gain on your notes in the earnings and profits subject to United States branch profits tax if these amounts are effectively connected with your conduct of a trade or business in the United States.

Disposition of the Notes

Subject to the discussion of backup withholding and FATCA withholding below, you generally will not be subject to United States federal income tax on any gain realized on the sale, exchange, redemption, retirement or other taxable disposition of the notes unless:

- such gain is effectively connected with your conduct of a trade or business in the United States (and, if required by an applicable income tax treaty, is attributable to a permanent establishment maintained by you in the United States), in which case you generally will be subject to United States federal income tax in the same manner as a United States person, and if you are a foreign corporation, you may incur a branch profits tax at a rate of 30% (or a lower applicable treaty rate) of your effectively connected earnings and profits, which will include such gain, as adjusted for certain items; or
- you are an individual present in the United States for 183 days or more in the taxable year in which such disposition occurs and certain other conditions are met, in which case you will be subject to United States federal income tax at a 30% rate (or lower applicable treaty rate) on the gain, which may be offset by United States source capital losses.

Information Reporting and Backup Withholding

Payments to you of interest on the notes (including amounts withheld from such payments, if any) generally will be required to be reported to the IRS and to you. United States backup withholding generally will not apply to payments to you of interest on the notes if the statement described in “—Non-United States Holders—Payments of Interest” is duly provided by you or you otherwise establish an exemption, provided that the applicable withholding agent does not have actual knowledge or reason to know that you are a United States person.

Payment of the proceeds of a disposition of the notes effected by the U.S. office of a U.S. or foreign broker will be subject to information reporting requirements and backup withholding unless you properly certify under penalties of perjury as to your foreign status and certain other conditions are met or you otherwise establish an exemption. Information reporting requirements and backup withholding generally will not apply to any payment of the proceeds of the disposition of the notes effected outside the United States by a foreign office of a broker. However, unless such a broker has documentary evidence in its records that you are a non-United States Holder and certain other conditions are met, or you otherwise establish an exemption, information reporting generally will apply to a payment of the proceeds of the disposition of the notes effected outside the United States by such a broker if it is:

- a United States person;
- a foreign person which derives 50% or more of its gross income for certain periods from the conduct of a trade or business in the United States;
- a controlled foreign corporation for United States federal income tax purposes; or
- a foreign partnership that, at any time during its taxable year, has more than 50% of its profits or capital interests owned by United States persons or is engaged in the conduct of a trade or business in the United States.

Backup withholding is not an additional tax. Any amount withheld from a payment under the backup withholding rules may be allowed as a credit against your United States federal income tax liability, if any, and may entitle you to a refund, provided that the required information is timely furnished to the IRS.

Foreign Account Tax Compliance Act

Sections 1471 through 1474 of the Code and U.S. Treasury Regulations and administrative guidance thereunder (“FATCA”) generally impose a 30% withholding tax on any payments on debt obligations of U.S. obligors made to a foreign financial institution or non-financial foreign entity (including, in some cases, when such foreign financial institution or entity is acting as an intermediary), and on the gross proceeds of the sale or other disposition of debt obligations of U.S. obligors, unless (i) in the case of a foreign financial institution, such institution enters into an agreement with the U.S. government to withhold on certain payments, and to collect and provide to the U.S. tax authorities substantial information regarding U.S. account holders of such institution (which includes certain equity and debt holders of such institution, as well as certain account holders that are foreign entities with U.S. owners), (ii) in the case of a non-financial foreign entity, such entity provides the withholding agent with a certification identifying the direct and indirect substantial U.S. owners of the entity or certifies that it does not have any substantial U.S. owners or (iii) the foreign financial institution or non-financial foreign entity otherwise qualifies for an exemption from these rules.

Pursuant to applicable U.S. Treasury Regulations and IRS guidance, debt obligations issued after June 30, 2014, are subject to these rules and withholding under such rules applies to interest payments made after June 30, 2014, and payments of proceeds from a disposition occurring after December 31, 2018.

PLAN OF DISTRIBUTION

Each broker-dealer that receives Exchange Notes for its own account pursuant to the exchange offer must acknowledge that it will deliver a prospectus in connection with any resale of such Exchange Notes. This prospectus, as it may be amended or supplemented from time to time, may be used by a broker-dealer in connection with resales of Exchange Notes received in exchange for Original Notes where such Original Notes were acquired as a result of market-making activities or other trading activities. We have agreed that we will make this prospectus, as amended or supplemented, available to any broker-dealer for use in connection with any such resale for a period ending on the earlier of (i) 180 days from the date on which the registration statement on Form S-4, to which this prospectus forms a part, became effective and (ii) the date on which each broker-dealer is no longer required to deliver a prospectus in connection with market-making or other trading activities.

We will not receive any proceeds from any sale of Exchange Notes by broker-dealers. Exchange Notes received by broker-dealers for their own account pursuant to the exchange offer may be sold from time to time in one or more transactions in the over-the-counter market, in negotiated transactions, through the writing of options on the Exchange Notes or a combination of such methods of resale, at market prices prevailing at the time of resale, at prices related to such prevailing market prices or negotiated prices. Any such resale may be made directly to purchasers or to or through brokers or dealers who may receive compensation in the form of commissions or concessions from any such broker-dealer or the purchasers of any such Exchange Notes. Any broker-dealer that resells Exchange Notes that were received by it for its own account pursuant to the exchange offer and any broker or dealer that participates in a distribution of such Exchange Notes may be deemed to be an “underwriter” within the meaning of the Securities Act and any profit on any such resale of Exchange Notes and any commission or concessions received by any such persons may be deemed to be underwriting compensation under the Securities Act. The letter of transmittal states that, by acknowledging that it will deliver and by delivering a prospectus, a broker-dealer will not be deemed to admit that it is an “underwriter” within the meaning of the Securities Act.

We will promptly send additional copies of this prospectus and any amendment or supplement to this prospectus to any broker-dealer that requests such documents in the letter of transmittal for a period ending on the earlier of (i) 180 days from the date on which the registration statement on Form S-4, to which this prospectus forms a part, became effective and (ii) the date on which each broker-dealer is no longer required to deliver a prospectus in connection with market-making or other trading activities. We have agreed to pay all expenses incident to the Exchange Offer other than commissions or concessions of any brokers or dealer and will indemnify the holders of the Exchange Notes (including any broker-dealers) against certain liabilities, including liabilities under the Securities Act.
