Notes

- (1) The Company presents deferred financing costs as a direct reduction from the carrying amount of the related debt in the Consolidated Balance Sheets. For purposes of determining total indebtedness for financial covenant purposes, the Company has added these costs back to total debt, net as calculated per the Consolidated Balance Sheets.
- (2) Netted cash includes cash and cash equivalents for domestic and foreign subsidiaries designated as restricted subsidiaries in the 2019 Credit Agreement. For purposes of calculating leverage ratios, netted cash is capped at \$200.0 million.
- (3) Represents Adjusted EBITDA for the trailing twelve-month period ended with the referenced quarter. A reconciliation of GAAP net income to Adjusted EBITDA with respect to the twelve-month period ended with the referenced quarter is on a subsequent slide.

For additional information regarding the calculations above please refer to the Company's SEC Filings.

Forward-Looking Statements

This investor presentation contains statements that may be characterized as "forward-looking" within the meaning of the federal securities laws, which includes information concerning one or more of the Company's plans, guidance, objectives, goals, strategies, and other information that is not historical information. When used in this presentation the words "assumes," "vision," "may," "strategy," "estimates," "expectations," "anticipates," "seeks," "projects," "plans," "proposed," "targets," "intends," "goals," "believes," "will," and variations of such words or similar expressions are intended to identify such statements. The forward-looking statements include, without limitation, statements relating to the Company's expectations regarding EBITDA, adjusted EBITDA and performance generally for 2020 and subsequent periods, the Company's expectations regarding optimizing worldwide distribution, expanding the direct-to-consumer business (including the Company's Tempur-branded retail store presence), investment in advertising and marketing, targeting of a new Sealy facility, investment in research and development, favorable commodities, favorable product launch expenses and the length of the product life cycle, the Company's share repurchase program, the Company's Aspirational Program and ongoing productivity initiatives. Any forward-looking statements contained herein are based upon current expectations and beliefs and various assumptions. There can be no assurance that the Company will realize these expectations, meet its guidance or that these beliefs will prove correct. The Company undertakes no obligation to update any forward-looking statement contained herein to reflect events or circumstances after the date on which such statement is made.

Numerous factors, many of which are beyond the Company's control, could cause actual results to differ materially from those that may be expressed as forward-looking statements in this presentation. These factors include the impact of the macroeconomic environment in both the U.S. and internationally on the Company's business segments and expectations regarding growth of the mattress industry; uncertainty arising from global events, natural disasters or pandemics; the effects of strategic investments on the Company's operations, including efforts to expand its global market share; the ability to develop and successfully launch new products; the efficiency and effectiveness of the Company's advertising campaigns and other marketing programs; the ability to increase sales productivity within existing retail accounts and to further penetrate the retail channel, including the timing of opening or expanding within large retail accounts and the timing and success of product launches and the related expenses and life cycles of such products; the ability to continuously improve and expand the Company's product line; the ability to maintain efficient, timely and cost-effective production and delivery of products, and manage growth generally and in connection with the new or expanded supply agreements with Mattress Firm, Inc., Big Lots, Inc. and Beter Bed Holding N.V.; the effects of consolidation of retailers on revenues and costs; competition in the Company's industry; consumer acceptance of the Company's products; general economic, financial and industry conditions, particularly conditions relating to the financial performance and related credit issues present in the retail sector; financial distress among the Company's business partners, customers and competitors; financial solvency and related problems experienced by other market participants; the Company's ability to execute on its strategy to optimize and integrate the assets of Innovative Mattress Solutions, LLC ("IMS") acquired by an affiliate of the Company (Sleep Outfitters); risks associated with the Company's acquisition of 80% ownership of the assets of Sherwood Bedding, including the possibility that the expected benefits of the acquisition are not realized when expected or at all; the Company's reliance on information technology and the associated risks involving potential security lapses and/or cyber-based attacks; the outcome of pending tax audits or other tax, regulatory or investigation proceedings and pending litigation; changes in foreign tax rates and changes in tax laws generally, including the ability to utilize tax loss carryforwards; the Company's capital structure and debt level, including its ability to meet financial obligations and to continue to comply with the terms and financial ratio covenants of its credit facilities; changes in interest rates; effects of changes in foreign exchange rates on the Company's reported earnings; changing commodity costs; disruptions in the supply of raw materials, or loss of suppliers; expectations regarding the Company's target leverage and share repurchase program; sales fluctuations due to seasonality; the effect of future legislative or regulatory changes, including changes in international trade duties, tariffs and other aspects of international trade policy; the Company's ability to protect its intellectual property; and disruptions to the implementation of the Company's strategic priorities and business plan caused by abrupt changes in its executive management team.

Other potential risk factors include the risk factors discussed under the heading "Risk Factors" under ITEM 1A of Part I of the Company's Annual Report on Form 10-K for the year ended December 31, 2018. There may be other factors that cause the Company's actual results to differ materially from any of those expressed as forward-looking statements herein.

Note Regarding Historical Financial Information:

In this investor presentation we provide or refer to certain historical information for the Company. For a more detailed discussion of the Company's financial performance, please refer to the Company's SEC filings.

Limitations on Guidance: The guidance included herein is from the Company's press release and related earnings call on February 13, 2020. The Company is neither reconfirming this guidance as of the date of this investor presentation nor assuming any obligation to update or revise such guidance. See above.

Footnotes

1. Adjusted Net Income, EBITDA, adjusted EBITDA, leverage, leverage ratio, and constant currency are non-GAAP financial measures. Please refer to the "Use of Non-GAAP Financial Measures and Constant Currency Information" on the subsequent slide for more information regarding the definitions of adjusted Net Income, EBITDA, adjusted EBITDA, leverage, leverage ratio, and constant currency, including the adjustments (as applicable) from the corresponding GAAP information. Amounts shown for 2020 financial targets on a previous slide represent management estimates of adjusted EBITDA performance based on the Company's guidance provided on February 13, 2020. Please refer to "Forward-Looking Statements" and "Limitations on Guidance" on the previous slide. The Company notes that it is unable to reconcile this forward-looking non-GAAP financial measure to GAAP net income, its most directly comparable forward-looking GAAP financial measure, without unreasonable efforts, because the Company is currently unable to predict with a reasonable degree of certainty the type and extent of certain items that would be expected to impact GAAP net income in 2020 but would not impact adjusted EBITDA. These items that impact comparability may include restructuring activities, the impact of the termination of contracts with customers, foreign currency exchange rates, income taxes, and other items. The unavailable information could have a significant impact on the Company's full year 2020 GAAP financial results.
2. Management estimates.
3. Based on the Company's 2020 financial targets provided in the press release dated February 13, 2020 and the related earnings call on February 13, 2020. Please refer to "Forward-Looking Statements" and "Limitations on Guidance".
4. Based on debt outstanding at December 31, 2019. Excludes revolving debt, foreign loans and receivables securitization. Term A Loan matures on October 16, 2024 provided that the 2023 Senior Notes are repaid or refinanced at least 180 days prior to maturity. For more information please refer to the Company's Annual Report on Form 10-K for the year ended December 31, 2018 and the Company's Quarterly Report on Form 10-Q for the period ended September 30, 2019.
5. For more information about the Aspirational Program and the terms of the aspirational PRSUs, please refer to the Company's SEC filings. In addition, please refer to "Forward Looking Statements".

Use of Non-GAAP Financial Measures and Constant Currency Information

In this investor presentation and certain of its press releases and SEC filings, the Company provides information regarding adjusted net income, EBITDA, adjusted EBITDA, consolidated funded debt less qualified cash, leverage and leverage ratio which are not recognized terms under U.S. Generally Accepted Accounting Principles ("GAAP") and do not purport to be alternatives to net income and earnings per share as a measure of operating performance or an alternative to total debt. The Company believes these non-GAAP measures provide investors with performance measures that better reflect the Company's underlying operations and trends, including trends in changes in margin and operating expenses, providing a perspective not immediately apparent from net income and operating income. The adjustments management makes to derive the non-GAAP measures include adjustments to exclude items that may cause short-term fluctuations in the nearest GAAP measure, but which management does not consider to be the fundamental attributes or primary drivers of the Company's business.

The Company believes that exclusion of these items assists in providing a more complete understanding of the Company's underlying results from continuing operations and trends, and management uses these measures along with the corresponding GAAP financial measures to manage the Company's business, to evaluate its consolidated and business segment performance compared to prior periods and the marketplace, to establish operational goals and management incentive goals, and to provide continuity to investors for comparability purposes. Limitations associated with the use of these non-GAAP measures include that these measures do not present all of the amounts associated with the Company's results as determined in accordance with GAAP. These non-GAAP measures should be considered supplemental in nature and should not be construed as more significant than comparable measures defined by GAAP. Because not all companies use identical calculations, these presentations may not be comparable to other similarly titled measures of other companies. For more information regarding the use of these non-GAAP financial measures, please refer to the reconciliations on the following pages and the Company's SEC filings.

Constant Currency Information

In this presentation the Company refers to, and in other communications with investors the Company may refer to, net sales or earnings or other historical financial information on a "constant currency basis," which is a non-GAAP financial measure. These references to constant currency basis do not include operational impacts that could result from fluctuations in foreign currency rates. To provide information on a constant currency basis, the applicable financial results are adjusted based on a simple mathematical model that translates current period results in local currency using the comparable prior corresponding period's currency conversion rate. This approach is used for countries where the functional currency is the local country currency. This information is provided so that certain financial results can be viewed without the impact of fluctuations in foreign currency rates, thereby facilitating period-to-period comparisons of business performance.

EBITDA and Adjusted EBITDA

A reconciliation of the Company's GAAP net income to EBITDA and adjusted EBITDA is provided on the subsequent slides. Management believes that the use of EBITDA and adjusted EBITDA provides investors with useful information with respect to the Company's operating performance and comparisons from period to period.

Adjusted Net Income

A reconciliation of the Company's GAAP net income to adjusted net income and a calculation of adjusted EPS are provided on subsequent slides. Management believes that the use of adjusted net income and adjusted EPS also provides investors with useful information with respect to the Company's operating performance and comparisons from period to period.

Leverage

Consolidated indebtedness less netted cash to adjusted EBITDA, which the Company may refer to as leverage, is provided on a previous slide and is calculated by dividing consolidated indebtedness less netted cash, as defined by the Company's senior secured credit facility, by adjusted EBITDA. The Company provides this as supplemental information to investors regarding the Company's operating performance and comparisons from period to period, as well as general information about the Company's progress in reducing its leverage.

Aspirational Program⁽⁵⁾

- The Company has an Aspirational Program which is a unique long-term program designed to provide extraordinary compensation for extraordinary performance. The Company seeks to accomplish these goals in a way that rewards performance that is aligned with its stockholders' interest as exemplified by the Company's Aspirational Program.
 - Performance restricted stock units ("PRSUs") for approximately 1.7 million shares of the Company's common stock were granted to over 150 employees as of 12/31/19
 - PRSUs will vest based on adjusted EBITDA⁽¹⁾ performance measured on a rolling 4 quarter basis during two performance periods -- 2018 and 2019; and 2020
 - If the minimum performance target is met for the applicable period, awards become payable shortly after the applicable period. If an officer or employee leaves for any reason prior to vesting, all of his or her PRSUs will be forfeited, subject to certain limited exceptions

Achievement Schedule

January 1, 2020 – December 31, 2020 (Period 2)			
Adjusted EBITDA (in millions)	% of Total Grant of PRSUs That Will Vest	# Shares That Will Vest	Full Year Dilution Impact*
≥ \$650	50%	850,000	1.5%
\$600	33%	570,000	1.0%
< \$600	0%	0	0.0%

- Measured quarterly on a trailing four quarter period
- If an award is earned in the first period the program ends, subject to a change of control provision
- Prorated based on performance between \$600 & \$650, but is only payable at the end of the respective period
