Check the appropriate box to indicate the rule pursuant to which this form is being filed, and provide the period which the information in this form applies:

- Rule 13p-1 under the Securities Exchange Act (17 CFR 240.13p-1) for the reporting period from January 1 to December 31, 2015.

Section 1 - Conflict Minerals Disclosure

Item 1.01 Conflict Minerals Disclosure and Report

Tempur Sealy International, Inc. (the “Company”) is the world's largest bedding provider. We develop, manufacture, market, and distribute bedding products, which we sell globally in approximately 100 countries. Our brand portfolio includes many highly recognized brands in the industry, including TEMPUR®, Tempur-Pedic®, Sealy®, Sealy Posturepedic®, and Stearns & Foster®. Our comprehensive suite of bedding products offers a variety of products to consumers across a broad range of channels.

(b) Conflict Minerals Disclosure of Tempur Sealy International, Inc.

Rule 13p-1 and Form SD under the Securities Exchange Act of 1934, as amended (the “Conflict Minerals Rule”), requires reporting companies to determine whether any of the “conflict minerals” (tin, tungsten, tantalum and gold, or “3TG”) are necessary to the functionality or production of their manufactured products (“necessary 3TGs”), and if so, to conduct a Reasonable Country of Origin Inquiry (“RCOI”) to determine whether any of the 3TGs originated in the Democratic Republic of the Congo or adjoining countries (the “Covered Countries”) or whether they are from recycled or scrap sources. The Conflict Minerals Rule defines 3TG as “conflict minerals” regardless of the geographic origin of the 3TG and even if the mining and sourcing of the 3TG did not fund armed conflict.

This is the Conflict Minerals Disclosure of Tempur Sealy International, Inc. (the “Company”) for the calendar year ended December 31, 2015. In 2013, the Company developed a Conflict Minerals Policy stating its commitment to use suppliers that only source 3TG (i) from countries other than the Covered Countries, (ii) that comes from scrap or recycled sources, or (iii) that is supplied from smelters that have been validated by an independent private sector party to be conflict free. We have communicated our Policy to our sourcing employees and suppliers and it is also available to the public on our website at <http://investor.tempursealy.com/governance.cfm>.

In 2015, the Company again assessed its products and determined that certain products it manufactures or acquires under contract from suppliers contain necessary 3TGs.

The Company conducted a RCOI that was reasonably designed to determine whether such necessary 3TGs originated in any Covered Country as described below.

We sent our Policy, a declaration to determine the use of 3TGs and the Electronics Industry Citizenship Coalition (“EICC”) Conflict Minerals Reporting Template (“CMRT”) developed by the EICC and the Global e-Sustainability Initiative, to all of the Company’s 94 suppliers and 100% of those suppliers completed and returned a declaration or CMRT. Of that number, 84 of the Company’s suppliers stated that no 3TGs were used in their products, and the remaining ten suppliers reported that they did use one or more 3TGs in the production of their products, and submitted an EICC Conflict Minerals Reporting Template listing the 3TGs used and identifying the location of their smelters. Each of the smelters identified are on the CFSI Conflict-Free Smelter List.

Based on the information provided by the suppliers, the Company does not have reason to believe that its necessary 3TGs may have originated in the Covered Countries.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.
